

NAZIS EXPECT EARLY ALLIED SECOND FRONT

LONDON, March 3 (AP)—"The Germans in France are expecting an early allied landing and are becoming panicky," the escaped French Senator Andre Maroselli said Tuesday.

Maroselli has joined the fighting French national committee of Gen. Charles de Gaulle in London after fleeing from France.

Petain Through
"I am sure if a landing could take place before the youth of France have been sent to Germany there would be an uprising which would surprise the world," Maroselli said.

He also told a press conference that the Petain "myth has collapsed completely and today he (Petain) is only a bust on the mantelpiece."

Maroselli said an effort is being made to mobilize 250,000 workers for the re-etch by Pierre Laval's police-men who in a factory is surrounded and all workers are arrested and compelled to leave immediately for Germany.

Death Rate Up
"The people are living mostly on turnips and spinach," he said, describing France as a country of desolation and famine.

Maroselli added, "there are no potatoes. Meat tickets are issued but there is no meat. Clothes and shoes have disappeared almost entirely from the market. The whole population is not starving, but the death rate is increasing at a frightening speed."

PEYTON AND CO.

Help your Grocer

Let's Get Behind Him and Make Rationing a Success—Start Now to use more of the plentiful NON-RATIONED FOODS

THE man who runs your grocery store has his headaches these days. For months, in the face of shortages and lack of experienced help, he's been trying to carry on... trying to give you the kind of service you've always expected of him.

Now he has a brand new problem—point rationing. He has to collect the stamps from you as well as the cash.

It's a burden for him—sure—and for you. But he knows and you know that it's got to be done. It's the only fair way of making sure that everybody gets a fair share. That's our way of doing things.

So it's his job—and your job—everybody's job—to make point rationing work... as smoothly, as efficiently as possible. Traffic jams in food stores aren't going to help anybody.

and vegetables are not rationed and they deserve an important place in your wartime meals.

Because cereals are one of these abundant unrationed foods, we here at the Kellogg factory in Battle Creek have been doing everything we possibly can to meet the unprecedented demand for our products. We're sending millions upon millions of packages of crisp Kellogg Cereals to the boys in our armed forces. We're packing K-ration for troops in the front line of fighting. Even our machine shop is making gun parts! And we're short of help, too. There are 423 stars on the big service flag hanging in the lobby of the Kellogg building. But in spite of these wartime difficulties, we've doubled our efforts to be sure that we can supply Kellogg Cereals to the millions of American families who are depending on cereals more than ever.

Always famous for marvelous flavor, every Kellogg Cereal is made of WHOLE GRAIN or is restored to WHOLE GRAIN NUTRITIVE VALUES through the addition of thiamin (vitamin B₁), niacin and iron. With milk alone, or with milk and fruit, a bowl of crisp, delicious Kellogg Cereal gives you vitamins, minerals, protein, food-energy in one dish!

And remember this about cereals in your daily meals. They're quick and easy to prepare. No cooking, no pans or skillets to clean up. Even the dishes are easier to wash. Cereals save time—work—fuel—other foods. Used in hamburger, meat-loaves, croquettes, etc., they help you stretch your meat... and they make milk go farther, too.

Think of cereals as one of your best, most nutritious, non-rationed foods and think of Kellogg Cereals as the finest you can buy.

FROM O. P. A. CONSUMER INSTRUCTION SHEET

"EAT MORE CEREALS—There is an abundance of cereals and, as you know, they are mighty economical. They are nourishing and delicious—what's more, cereals can be used to stretch your rations when mixed with vegetables and fruits."

GOLDEN RULES OF FOOD RATIONING (Cut this out and save it for reference)

- 1—Share your food with our fighting men.
- 2—Shop earlier in the day, early in the week and only once a week, if possible, to lighten congestion in the store.
- 3—Make up a shopping list and add up the points BEFORE you shop. Include fresh fruits and vegetables, cereals, and other unrationed foods where you can.
- 4—Plan your family diet carefully. Get enough nourishment. Make up menus for the week.
- 5—Use 8 and 5 point stamps when you can, save 1 and 2 point stamps to make the count come out even. Your grocer cannot give you "change" in Blue Stamps.
- 6—Plant a Victory Garden.
- 7—Do all the home canning possible.
- 8—Don't blame your grocer for wartime inconveniences.
