

# GAINS ERASED BY LAST-HOUR PROFIT-TAKERS

**By VICTOR EUBANK**  
NEW YORK, March 4 (AP)—Last hour profit selling today erased a considerable part of earlier stock market gains which had carried the averages to new tops for more than 2 years.

Many of the rail and industrial leaders at the best showed advances of fractions to a point with a few specialties up 2 or more. Closing quotations were irregular.

It was another active session with volume approximating two billion shares.

Break buying through the first half, was attributed by brokers to the news of the United Nations' smashing blow to the Japanese convoy off New Guinea.

# INDUCTION OF FATHERS STILL NOT DECIDED

**WASHINGTON, March 4 (AP)**—Correcting an earlier statement, Chairman Paul V. McNutt of the war manpower commission today said local draft boards are still under orders not to draft men with dependent children until they receive authorization from national selective service headquarters.

At his press conference Monday McNutt said he knew of no such restriction on the local boards and declared "quite a number" of fathers of children were being taken.

New Statement  
In a clarifying statement issued today, McNutt said the only men with children now being inducted are those whose dependency was acquired after December 8, 1941 or at a time when draft selection was imminent.
