

ALLIED PLANES BLAST ENEMY IN SOLOMONS

(Continued From Page One)

enemy in Burma, with U. S. heavy bombers dropping a 12-ton load of high explosives on the Paazydaung bridge north of Ran-foon.

A communique said all U. S. planes returned safely to their bases despite attempts by Japanese fighters to intercept them.

Gen. Douglas MacArthur's headquarters said United Nations fliers ranging far out over the seas north of Australia bombed three enemy vessels in the Celebes islands, Dutch East Indies, including a 7000-ton ship which was left "burning fiercely" and "probably a total loss."

Two other Japanese merchant vessels were attacked off the north coast of New Guinea. Several near hits were scored with 1000-pound bombs, and at least one of the ships, a 5000-tonner, was severely damaged.

In Burma, RAF night raiders pounded the Japanese base at Akayab on the Bay of Bengal, following up daylight attacks on Japanese troops in the Ratha-daung sector 25 miles north of Akayab.

No reports were forthcoming on ground fighting either in Burma or New Guinea.

On the China front, Generalissimo Chiang Kai-Shek's armies fighting to defend China's "back door" along the Yunnan-Burma frontier were reported to have blunted the northern claw of a pincer which the Japanese had thrown across the Yunnan border from their base at Myitkyina, Burma.

A Chinese army spokesman said that the Japanese were using 55,000 troops in the border region, but declared that nevertheless the Chinese had captured point after point.

The spokesman said fighting also continued in central China, where the Japanese have thrown eight columns totalling 20,000 troops across the Yangtze river between Kiangling and Yochow.

Chinese military quarters said the Japanese were now establishing powerful air bases in the Kwangchowan island, off the China coast between Hongkong and Hainan, for operations against any airstome constructed by the allies in south or east China for raids against Japan.

From Portland—John Foster returned to Klamath Falls Thursday morning after spending the past seven months in Portland at the Kaiser Vancouver shipyards as chief clerk for the burners.

Foster, former Herald and News employe, is awaiting his call to the army. He plans to visit his mother, Mrs. George Bell, now residing in Weed.

Potatoes

(Continued From Page One)

SAN FRANCISCO, March 11 (AP-USDA)—Potatoes: 3 California, 10 Idaho, 2 Oregon, 1 Utah, 1 Florida arrived, 6 unbroken, 8 broken cars on track; no sales reported.

LOS ANGELES, March 11 (AP-USDA)—Potatoes: 2 California, 3 Florida, 3 Colorado, 1 Nebraska, 1 Utah, 1 Idaho arrived, 14 unbroken, 1 broken car on track; by truck 2 cars arrived; no sales reported.

CHICAGO, March 11 (AP-USDA)—Potatoes, arrivals 47; on track 70; total US shipments 1041; old stock; supplies very light; practically no track trading account of carlot offerings; market unsettled and in confusion; new stock; supplies light; demand moderate; market firm to slightly stronger; Colorado Red McClures, US No. 1, \$3.90; North Dakota early choice seed stock \$5.50; Florida Bliss Triumphs, US No. 1, \$2.85-90 per bushel crate.

FERTILIZER LACK HITS SPUD PLANS

(Continued From Page One)

due to government or military service policy.

County Agent Charles A. Henderson estimated that 69 per cent of last year's supply of this fertilizer is now available, or from 1200 to 1300 tons. Another 800 tons is needed if the basin growers are going to make the 20 per cent increase in potato production for which they have signed, he warned.

Decline Feared

Henderson said there is some feeling potato production will actually decline under last year, despite the definite wartime need, unless the fertilizer problem is solved.

He pointed out that potato growers are now making final plans for land use for the coming year, and need immediate assurances of fertilizer supply if they are to allot all land to potatoes for which they originally planned.

In Klamath county, growers have estimated they will plant 12,719 acres to spuds, as compared with 10,358 acres last year, but because of the confusion in the fertilizer situation, some growers already have contracted some potato land for other uses. Many of them, in signing for additional acreage, made notations to the effect that this planting depends upon fertilizer.

Distributors, it was learned, have told agriculturists they are unable to get the supply of 16-20 wanted here.

Appeals have been sent to the war production board, the office of Agricultural Secretary Wickard, the state war board offices, and to congressional delegates.

A few days ago the entire local situation was briefed and copy sent to Senator Charles L. McNary, urging that he take immediate action to induce government supplies to make the fertilizer supply available here.

Henderson said that in answer to previous pleas, government officials have stated the fertilizer is already available, but that is not the case.

BIRTHS

BRANNON—Born at Hillside hospital, Klamath Falls, Ore., March 10, 1943, to Mr. and Mrs. Heavy R. Brannon, 420 Division street, a boy. Weight: 7 pounds 5 ounces.

Services—Revival services continue at the Church of the Nazarene nightly at 7:30 o'clock it was announced. Sunday night will be the last appearance of Rev. Hays, evangelist.

Judge Combs Here—Circuit Judge Charles Combs of Lakeview was here Thursday in connection with circuit court cases in Klamath county to which he has been assigned.

MARETH FLANK MOVE CLOSES TRAP ON NAZIS

(Continued From Page One)

the Ukraine, while in the north the Russians reported impressive new gains.

Soviet headquarters declared today that the red armies on the central front had captured at least 44 towns and villages, crushed stiffening German resistance and advanced within 80 miles of Adolf Hitler's old headquarters at Smolensk.

Although virtually out-flanked by the red army's capture of Bely, the nazis were battling desperately to defend their grip on the key bastion of Vyazma, 135 miles west of Moscow, the last major barrier on the road to Smolensk.

Latest soviet dispatches said the Russians had all but completed the encirclement of Vyazma, leaving the Germans only a narrow corridor for retreat toward Smolensk.

Red army columns were reported driving forward with the utmost speed along a broad front, with the Germans bitterly resisting and using dug-in tanks as pillboxes.

"The enemy made stubborn attempts to halt our advance at defense positions," the Russian command said, referring to the Vyazma sector.

"As a result of fierce fighting, our units overwhelmed the enemy's defenses and advanced, capturing a number of populated places."

Russian shock troops were reported within 13 miles of Vyazma at the nearest point, and a communique said more than 20 towns fell to soviet forces operating in the vicinity. In addition, "several dozen" villages were engulfed in the Boly sector, 70 miles northwest of Vyazma.

On the flaming Kharkov front, 400 miles below Moscow, red army headquarters said the Germans were continuing to throw great masses of reserves into their come-back offensive against the "soviet Pittsburgh," but so far the battle appeared to be indecisive.

On the Tunisian front, Gen. Sir Bernard L. Montgomery's promise to give the axis a "very bloody nose" was marked by exploratory thrusts against the 60-mile-long Mareth line in southern Tunisia as the British eighth army prepared for a climactic assault.

Rain and sandstorms prevented large-scale operations, but Montgomery's big guns—the weapons that broke up six axis attacks with the loss of 52 tanks—were reported raining havoc on the Mareth defense works.

In the north, Lieut. Gen. K. A. N. Anderson's British first army was reported continuing its patrol activity in the Sedjenane sector, 35 miles west of axis-held Bizerte naval base, where the Germans have been attempting to widen their narrow defense corridor.

A communique from Gen. Dwight D. Eisenhower's headquarters said allied troops repulsed an axis attack yesterday west of Sedjenane, while the German command reported "fighting of local importance only" on the 350-mile-long front.

SENATE CONSIDERS FARM DEFERMENTS

(Continued From Page One)

deportment in determining whether deferment should be granted.

Rejection of this left before the senate a proposal offered by Senator Johnson (D-Colo.) which would erase the "unit system" and liberalize the deferments for those engaged in producing or harvesting commodities held by the secretary of agriculture to be essential to the war effort. The list of such commodities is wide in range, covering livestock and most of the food and fiber crops.

The unit system which would be junked under terms of the Johnson measure sets up a national standard of production per farmer, tabulating a specific number of cows, chickens, acres of wheat and other commodities to determine a unit.

The Johnson measure itself was proposed as a substitute for a bill by Senator Bankhead (D-Ala.) and others, providing for the blanket deferment of farm workers. It is opposed by military leaders on the grounds that it would disrupt plans for the size of the armed forces.

Five More Firms Go All Out for Red Cross Fund

The names of five additional firms who have enlisted 100 per cent with the American Red Cross were announced Thursday by Lester Offield, chairman of the business district.

Firms included in today's list are the Pioneer Tobacco company, Pelican cafe, Haffer's Furniture, Herman's Men's store, and Quality Food store.

Vitamin A

With point rationing on canned goods, there's no point in not eating lots of fresh vegetables like these carrots arriving at a San Francisco produce district.

Legislature Quits; Tax Cuts Leading Feature of Session

(Continued From Page One)

monopoly of the sale of fortified wine, boosted the fortified wine tax from 15 to 50 cents a gallon, and asked the liquor commission to teach school children about the effects of alcohol. A bill to allow wine to be sold over the bar was defeated, as was a measure to give cities 15 per cent of liquor revenues.

Post War Bills

There was considerable war and post-war legislation. The people will decide in November, 1944 if they want the legislature's bill to give educational aid to war veterans, while the solons passed laws setting up a post-war readjustment and development commission, extending the life of the state guard, legalizing civilian defense, and permitting counties, cities and school districts to create reserve funds for post-war use.

In the social security field, the legislature increased the average monthly old-age pension from \$25 to \$38, although the latter figure probably won't be reached for more than a year. Pinball games were taxed \$50 a year to provide more revenue for pensions, which now are financed only by liquor revenues.

The legislature rejected Governor Snell's proposals to abolish the three-man state tax commission and substitute a single commissioner, and to consolidate the banking and corporation departments. These are the only governor's recommendations that failed to pass.

To meet wartime increased costs of living, salaries of most county officers and the state police were boosted, while the teachers' minimum salary was increased from \$85 to \$133 a month.

The legislature submitted four proposed constitutional amendments to the people for consideration in November, 1944. They would remove double liability of stockholders in state banks, let the legislature restore voting rights to ex-convicts, let counties adopt the manager form of government, and provide for rehabilitation of war veterans.

All the laws, except the few containing emergency clauses which already are law, will become effective June 9.

Other measures passed by the legislature will tax city-owned power systems 3 per cent of their gross earnings, let the fish commission regulate seasons, allow courts to issue birth certificates, make women serve on juries, compel labeling of poisons, make new insurance agents take examinations, improve the forestry code, tax the dairy industry to create an advertising fund, distribute the elementary school funds on a statewide basis, permit farmers to kill predatory bears, and let the state barber board fix minimum prices.

CONCERT MEMBER DRIVE CONTINUES

Membership response Wednesday night at Klamath Community Concert association headquarters in the Willard hotel had surpassed that of a year ago at this time, it was reported by Mrs. Martin Swanson, membership chairman. Workers have turned in many new names as well as hundreds of renewals.

Parents of students are urged to take advantage of the low student fees, less than one-half that of adult memberships, in order to stimulate music appreciation.

Persons hesitating to join the association because they have not participated in the past are urged to call headquarters, 6813, or contact a worker, and become affiliated with the group. The association is for the community and all residents of the basin area are urged to join. Artists will be chosen Saturday afternoon when the association learns just how much money is at the disposal of the committee. The greater the membership the finer and more numerous the concerts, it was pointed out by Dave Ferguson, campaign manager.

BPW Meeting—Past presidents of the Klamath Falls Business and Professional Women's club will be in charge of the dinner meeting Monday night at the Willard hotel at 8:30 o'clock. Members are asked to invite guests and prospective members and to wear slacks as there will be square dancing to Pappy Gordon's orchestra and taught by Izola Jensen Parker of the Oregon State college extension service.

Robbins Recovers—J. H. Robbins has recovered from a brief illness.

LEND LEASE GOES TO WHITE HOUSE

(Continued From Page One)

Russia "has carried on its magnificent struggle against the nazis principally with equipment produced in Russian factories," lend lease "has been a factor in supplying the armies fighting on the Russian front."

In three important categories—combat planes, tanks and other military motor vehicles—lend lease shipments to Russia exceeded shipments to any other military theater, he reported, adding:

"Half of all the tanks shipped so far under lend lease have gone to Russia and 40 per cent of all the tactical planes. We also developed the southern supply route to Russia as an alternative for the Murmansk-Archangel route, and we began lend lease shipments to Russia by both air and water from the Pacific coast. By the end of 1942 the capacity of the Persian-Iran route to Russia was three times what it was at the beginning of the year."

The report, by Administrator E. R. Stettinius Jr., said this figure was attained by the transfer of \$1,977,000,000 worth of lend lease goods in the quarter ended March 1.

"Almost as much aid was provided in the last six months as in the previous 18 months," he said, adding:

"In the past 12 months we shipped to our allies, under lend lease or in fulfillment of previous direct purchase contracts, 30 out of every 100 bombers we produced, 38 out of every 100 fighter planes, 28 out of every 100 light tanks and 33 out of every 100 medium tanks."

Whether the senate can get around to consideration of the extension bill today was uncertain, but on the basis of the 407 to 6 vote by which it swept through the house yesterday it appeared likely that it would be ready for the president's signature within a week.

Four fifths of the total aid, Stettinius said, was provided in the year just ended and only one fifth in the first year of the lend lease program, which began March 11, 1941.

Having a bearing on the current furor over aid to Russia was a section which noted that 29 per cent of the value of goods exported in the second year was for Russia.

REPUBLICAN STEERING COMMITTEE PLANS TO PUSH RUMI TAX PLAN

(Continued From Page One)

WASHINGTON, March 11 (AP)—The house republican steering committee laid plans today to align the party's strength behind the Rumi plan to abate a year's income taxes and put the nation's 44,000,000 taxpayers on a pay-as-you-go basis.

Republican Leader Martin, of Massachusetts, reported the committee supported the Rumi plan unanimously, and predictions were made freely by republicans that sufficient strength can be mustered to pass the "skip a year" tax proposal in the house.

Fire Department Answers Spring Grass Fire Calls

Sure sign of spring was seen in Klamath Falls when the city fire department was called out to extinguish grass fires in the residential area. The truck first responded to an alarm at 1:58 p. m. Wednesday to Payne street and Klamath avenue.

A trash fire got out of control at 1717 Siskiyou street at 12:09 p. m. Thursday and the truck again thundered down Main street. There was no damage.

RAF Bombings Wreck 2000 Nazi War Plants

(Continued From Page One)

dustry in the whole of the bomber offensive." Sinclair disclosed that already 4000 tons of bombs have been dropped on the reich this month.

The devastation at Essen, he said, was comparable only to that caused at Cologne last May in the first of the RAF's 1000-bomber raids.

Direct damage to steel works in the Ruhr and Saar, he declared had cut 1,250,000 tons from Germany's annual steel-making capacity.

Damage to the Phillips Radio Works at Eindhoven, Holland, cost the Germans the loss of millions of radio tubes annually, a critical loss in modern warfare, he added.

The 4000 tons of bombs dropped in the rising offensive in March compared with 10,000 dropped in the short month of February, greatest month yet for the RAF, when 1000 tons of bombs were dropped on three different nights.
