One of the nicest features of the new theatre is the possibility of interesting lighting effects. Although the equipment is not yet installed due to war shortages, a very fine piece of work has been done by William Lofdahl. With old equipment and scraps he has put together some unusual and beautiful effects. One of the features is the scene in the distance as the scene in the distance as viewed through the window. ### In times like these We realize the meaning of HOME..

In the years that we have gone out to the furniture markets and brought here the things that mean for you comfort and beauty and convenience in your home we have aimed at one thing: To have here in our store such a variety of merchandise that you could walk in and find most any home furnishing that you desired.

We are most happy that we progressed in this building-up of our stocks. Now, with thoughts centering more and more on the home, it is paying dividends. To us it means continuing in business, in these times of great manufacturing restrictions. It means that we have a representative stock of most things we ever carried-that you can find what you need.

For instance, perhaps you thought down pillows were a thing of the past. We have them. We have all wool Karastan rugs of real pre-war quality in sizes up to 12x18. We have a big selection of carpet samples, 27x54 and 18x27.

Bedroom suites are available in all qualities, complete. You can select from a veritable galaxy of occasional tables by Imperial. A new war development comes from Karastan . . . new cotton rugs. And Karastan stands for quality.

But we can't commence to take you through the store here. Drop in and spend an hour looking through our three floors of things for the home

We deliver and give terms in line with federal regulations.
