WAR SAVINGS **BODY TALKS ON** BOND PROGRAM

Organized labor, the Victory committee and the Klamath county war savings committee, gathered at the Klamath county chamber of commerce Wednes-day night and discussed the program as outlined through March, April, May, June and July.

Andrew M. Collier, war sav ings head, laid plans for the next five months which will include a determined drive to buy a subchaser for the navy, and to reach quotas as set by the government. Included in plans to raise money is a bang-up boxing match fea-turing Camp White soldiers, the Klamath Union high school campaign to sell bonds and stamps, circulation of letters to bond buyers to increase their pur-chases and a thorough contact with school children of the county.

Organized labor has taken over the March and April quotas, set for a half-million dollars, and G. C. Tatman, secretary of the culinary alliance, stated that his people were willing to tackle the job despite the fact it was income tax month. A ther-mometer has been placed on the Medical-Dental building, and Tatman informed those present that through error the goal had been painted in. However, he stated, this will not keep the workers from striving for the sub-chaser fund.

G. C. Blohm, Victory committee head, advised men and women present that "sleeping money" must be invested in the F and G bonds and that in order to prevent inflation such an effort must be made by all per-sons. He warned against inflation through lack of interest and

investment in the government.

The May quota will be handled by the Lions club and June and July will be in the hands of the American Legion.

Newell Evacuees See Successful Farm Program

(Continued From Page One)

evacuees are city people and not experienced in agriculture. The speaker stated that the re-moval of evacuees from the project to widely scattered jobs outside western defense areas is of vital importance, but is moving slowly, due in part to the clannish tendencies of the evacuees He said that every effort should be made to prevent the formation of 'little Tokyos' such as were common before the war broke out. Segregation of loyal and disloyal evacuees, he said, must be accomplished, and progress is being made in that direc-

Some 120 evacuees of questionable loyalty are being held in a nearby CCC camp under guard following their removal from the Tuleiake project, as a result of agitation which developed in connection with registration of the multiple and took of the connection with registration of the multiple and took of the connection with registration for multiple and took of the connection of the connect tion for military service and job clearance.

Cook said that the WRA was organized hurriedly and as a re-sult mistakes were naturally made, but that these problems are being ironed out.

He stated that feeling toward

the Japanese and Japanese-Americans in the middle west is much more liberal and moderate than on the west coast and in this district.

Cook, who left Japan shortly before war broke out, warned that the Japanese in Japan are fanatics, they look upon all white races as inferior, and they will put up a terrific struggle. He was introduced by K. A. Moore.

Keiffer Sisters Plead Guilty to Robbery, Sentenced

SAN FRANCISCO, March 18 SAN FRANCISCO, March 18
(P)— Betty and Mary Keiffer, sisters-in-law, who came here last November from Yakima, Wash, were sentenced today on their guilty pleas to robbery.

Betty, 20, wife of a marine on duty overseas, was sentenced to

an indeterminate term of from five years to life at Tehichapi women's prison.

Mary, 19, was given an inde-terminate sentence in the Ventura home for girls.

At Home-Marshall Eyestone, nember of the city police depart-ment, is confined to his home with a severe cold.

The Japanese have had a sub-

IN DOG SHOOTING eral months. From undersea craft can operate eastward against American supply ships to such bases as those at Dutch Harbor and in the Angular dreanoff islands and may even strike at shipping along the Canadian and northwestern American coast.

Refueling Base
As far as could be learned here, the enemy base is primarily a center for refueling, sup-

ply and light repairs. It ap-parently does not have heavy concrete pens of the kind Germans have constructed along the northern European coast to protect their U-boats against allied air attack.

Direct hits on the sub facil-

ities at Kiska therefore presum-ably would result in consider-able damage to the enemy's facilities.

The latest three raids report-

ed against the Japanese Aleutian base raised to 17 the total number of air attacks there this month, whereas only nine bombing forays were made against it
