MALCOLM EPLEY

Managing Editor

Perhaps if you gathered a loose group of Russians, Chinese, Americans and Africans at birth and placed them in a compound, and reared them under the same teachings and ideals, your loss from the group norm would run no more than 20 per cent, Essentially, basically, in their inner religious spirit, men are born the same, at least as far as the 70 or 80 per cent of their essential spiritual being concerned.

What makes them different is the rearing, teaching, inculation of different ideals which they receive from their mothers, or guiding influences in the schools, but chiefly from interassociation with their fellow-men of like kind.

A German reared under such circumstances loves Hitler; a Chinese, Chiang Kai-Shek, and an American-if he is reared right-the principles of our constitution and democracy,

Breaking down these nationalities further, you will find that there are all kinds of people them-good, bad, grasping, helpful, intellectuals, sloths. A Chinese and an American intellectual are really closer together in spirit and purpose than either of them individually is to some members of his own race.

It doesn't hurt a bit to turn the old Variance Great

spotlight on ourselves sometimes, examining THERE is a greater natural variance becomen people of the same race (good, bad, indifto our children, our adherence to the principles ferent) than there is between nations

As for the great bulk of the peoples and all nationalistic races, they are today not component parts. They are not soluble.

more for the youth of the city. The result has don't care what the senate will say (for international political purposes) in its promised been the development of juvenile departments, resolution, or what Mr. Wallace advocatesthe various races of men today simply are not congenial, by purpose, hopes, living standards, wage rates, and all tangible things, and cannot

Many things they have in common, including a desire to advance themselves, their particular locality, their nation. Men are competitive by nature. They want to advance themselves above their station in life—and their country.

But to an American, this means a wife, home, an automobile, good plumbing, a radio, a garden perhaps, and neighbors and friends to whom he can express his opinions as he damn well chooses. To the British, it does not mean an automobile (substitute a bicycle), eliminate plumbing and such home comforts, and en-large the garden. To a Russian or a Chinese, or an African, you can eliminate just about everything, including the wage rate.

But these people are spiritually happy in their lot because their norm is different, their goal is comfort, and sometimes I think they are the happiest people of all, because they do not have to squabble over the superficial things that annoy us (social climbing, taxes, acquiring Phoenix, 19 to 18, in the final social security). They settle themselves to the game. simple, natural pleasures of life which are far more important.

To a French farmer, for instance, a large manure pile is the greatest of riches because it forecasts a good crop, while a New York millionaire is bound to be unhappy for many reasons, (envy, jealousy, losing his money, in-

I never saw a happy rich man, unless it was the late J. P. Morgan, who cast aside all his riches into government bonds and maintained his bank mainly for the purposes of employment rather than power.

Plans Foolish

SO I say all these Wallace, Welles or Ball plans for a post-war world are foolish. They do not consider the essential being of man in his various nationalistic conditions or propose to correct them.

If these politicians really want to do some thing along the line of the canned goods they are now advertising, they will first internationto internationalize its politics. They will change the existing situation to the point where you will meet a Russian, Chinese, or negro on the street as a friend and equal.

They can do that by developing the 10 per ingenuity. alize the people of the world before they try to internationalize its politics. They will change

WASHINGTON, March 19—They talk now here (Mr. Roosevelt, Senator Ball and They can do that by developing the 10 per cent norm that is common to all-the common intuitive instincts - into a mass civilization. They can first make Chinese, Japanese, German If they want to do that,

ideals equal to ours.

How to do that, I do not know. Common education would help (the Oxford movement

expanded to reality).

Let the liberals, the Archibald MacLeishs of Mr. Roosevelt's administration, the Sherwood Andersons, the idealistic hopefuls contain themselves in the 10 per cent reality of what can be accomplished.

Let them get a congenial situation before they start to congeal it. Let them, in short, inter-nationalize the people of the world—make them one-before they start talking about making the world one.

physical difference, an intuitive difference as **Humane Society Notes**

Interesting Stories About Klamath Animals and Efforts in Their Behalf

they had better first interna-tionalize the people.

The fundamental defect with all these plans, and the reason they are called visionary, is

because everyone knows that

a Russian, a Chinese, an American, an African is reared un-

der different environment, taught different ideals. Personally, I doubt that there is

BLACK SNOW COMPLAINT KLAMATH FALLS, Ore., To

the Editor:-At the last council meeting an appeal was made to the general public to take an interest in helping keep the city clean. Why not make an appeal to our mayor and city council to do something about the shower of soot and half burned particles of sawdust that are showered on the city several times, day and night?

If the Lions club really want

the people to cooperate and be grateful, why don't they take it upon themselves to do some-thing about this real dirt and not bother so much about a few pieces of paper in the gutters?

Just why do we people, who live between Second and Eighth streets, have to stand the expense and work of clean-ing up after this soot? Why can not all move to Hot Springs ad-dition or Lakeshore Drive.

I wonder if these conditions did not have something to do with Mr. Bussman moving his place of business to a cleaner part of the city. Not only are housewives asking that something be done, but business men on Main street are getting very much disgusted with the condition.

Yours very truly, NINA M. BUBB. 405 High St.

Rubber Hose Stolen From Gas Stations

City police reported Friday that there have been two cases within the past few days of rubber hose stealing.
A short length was cut off the

water hose at Fred's Mobile gas water nose at Fred's Mobile gas station at Eleventh and Klamath Wednesday night. The same thing happened, also on Wednes-day, at Clancey's Texaco station

at Ninth and High.

THE OLD JUDGE SAYS ...

"A lot of storekeepers in town are worrying about being able to get help these days, Judge, Men are mighty scarce and gettin' more so all the time.

"I know. Even the big companies are having quite a job getting them. Yep, and they need 'em too. Take the beverage distilling companies for example...they need a lot of manpower. Though they're not making whiskey any more, they're doing a 24-hour-a-day job of turning out alcohol for

gun powder and synthetic rubber for the government.

"Makes me think back to the days before repeal when a powerful number of people were making liquor, too...only they were a bunch of law-flouting criminals doing it behind closed doors. And the government wasn't collecting a billion dollar excise tax either. Ever stop to wonder where the government could get all its war alcohol today if it weren't for the beverage distillers?
