Everybody who has a boy in the war will hope he GOES ON DOING IT.

SHIPS to get reinforcements and supplies to the boys on the fighting fronts are just about as essential as anything can be. Parents and wives of men in the battle zones won't worry about damage Kaiser does to the red tape if he just builds enough ships and gets them there IN TIME.

ANTHONY EDEN (now in this country) makes a plea to the United States, Russia, Britain and China to "mould their wartime unity into the framework for a lasting peace."

He uses big words, as all diplomats do, but what he evidently means is that these four nations must join together after the war to make it hot for anybody who tries to start another war.

That's what the vigilantes did to the bandits and the desperadoes in the early days of our own West, and we know by experience that the results were good.

There's no sound reason why NATIONS can't do the same thing—if they go about it honestly and sincerely and MEAN BUSINESS.

SENATOR ASKS INVESTIGATION OF EMORY LAND

WASHINGTON, March 19 (AP) — An investigation of Chairman Emory S. Land, of the maritime commerce was proposed today by Senator Aiken (R-Vt.) in the course of a speech in which he asserted subsidized shipbuilders were drawing enormous profits and escaping their share of taxation.

Aiken spoke as a presidential nomination of land for a new six-year term awaited senate confirmation.

Charging that Comptroller General Lindsay Warren "has indicted the maritime commission for not conducting its affairs in the interest of the public," Aiken continued:

"If the charges of the comptroller general are false and the man is wrongfully accused, then he should be given a fair investigation by an impartial committee and exonerated of these charges."

"But, if he is guilty of mispending millions and millions of dollars of the taxpayers' money; if he has been in collusion with any steamship lines or any boat builders or anybody else, he should be removed from office — not rewarded."

When Aiken concluded Chairman Bailey (D-N.C.) of the commerce committee, said Land was "a great man, honest and straight."

YOUR NO. 4 GASOLINE

Ration Coupons expire Sunday, March 21...

Regardless of how many "A" coupons you've had to use, the change in number tells you...

TIME TO CHANGE YOUR OIL, TOO!

IT'S ONLY NATURAL that you should think that less driving means you need pay less attention to your oil. But there are two important reasons why you should be even more careful!

The finest motor oil is exposed to impurities, dust, abrasives and other contaminants carried through the air. And though your oil lies idle in the crankcase, partially burned fuel particles are constantly promoting oil deterioration.

In addition, with today's short trips at lower driving speeds, your engine doesn't get hot enough to vaporize water formed by combustion and condensation. This water accumulates in your crankcase, further contaminates your oil!

Let your Shell man or Shell lady change your oil every time you go to a new coupon number. That's every two months. Then you know you're on the safe side and probably won't have to add a drop between drains.

Now is the time to have your car put in tiptop shape for your spring driving. Your Shell Dealer or Shell Service Station will drain out your old, dirty, winter-worn oil, flush the crankcase and refill it with the correct grade of Golden Shell Motor Oil. And in addition he will give your car a complete Shell lubrication job.

LET US GIVE YOUR CAR A COMPLETE SPRING CHECK-UP

1. COMPLETE LUBRICATION of all moving parts with fresh Shell lubricants, safety inspection of the transmission and differential lubricant levels.

2. BATTERY CHECK—Especially important as reduced driving may allow strength of your battery to fall below normal.

3. COOLING SYSTEM CHECK—Inspection of fan belt, hose connections, the oil filter, mileage and conditor.

4. SPARK PLUG CHECK—Notifying if cleaning and adjusting are necessary—because dirty plugs can waste 10% of your gasoline.

5. TIRE CHECK—for nails, glass, cuts, etc. Air pressure correction, tires dressed. All supplementing regular inspections required by Government.

6. CLEANING of all windows and interior of car, polishing of chrome, inspection of all lights.
