

LUMBER TOTALS ANNOUNCED BY WPB FOR 1943

Lumber requirements for new construction in the United States will total approximately 11,000,000 board feet in 1943, according to an estimate made today by the war production board, said the Portland office of war information today.

The estimate includes lumber required in major alterations and additions, but does not include lumber requirements for maintenance and repairs, for machinery and equipment, or for boxing and crating for war and civilian supplies.

The forecast for construction in 1942 was in 21,211,000,000 board feet. This estimate was so close to actual shipments for the year that it was found unnecessary to revise the figure.

The forecast represents the total quantity of lumber needed for construction in each of the building categories and includes all types of construction lumber such as soft and hard woods and finish and rough lumber.

City Orders Third Street Graveled

Graveling of Third street from Grant to California, was ordered by the city council Monday night after residents of that section had contributed their share toward the improvement of the thoroughfare which links the two sections of the city.

The order calls for a four-inch layer of gravel laid on a stretch 910 feet long and 20 feet wide. This equals 222 cubic yards at \$1.27 per yard, making a total of \$281.94. The city will pay the usual one-fourth of the project's cost. Gravel is obtained from the county pit.

HOME, SWEET HOME

FORT MYERS, Fla. (AP)—A mother mocking bird hovered overhead as City Superintendent Fred M. Loudermilk and a crew of workmen moved a large palm tree from the yacht Basin Park.

She followed the truck a mile and a half to the tree's new location. After it was re-set, the bird settled on a nest in the top. The tree had been moved so carefully that not an egg fell out.

Largest sea bird is the albatross, with a wing spread of approximately 12 feet.

HIGH SCHOOL News Notes and Comment

By PAT MORGAN

Members of the Girls' League cabinet have begun plans for the annual spring formal which will be given some time in April.

The KUHS retail selling classes have managed to bring three movies to the high school to be given tonight at 7 o'clock. The public and all those students interested in the selling of clothing are invited. The movies are: "The Manufacture of Men's Clothing," "The Manufacture of Felt Hats," and "Salesmanship."

Classes for training restaurant salespeople are being offered by the vocational department, beginning March 29 and meeting each evening for two hours for the entire week. There will be one hour of theory each night at the high school and the last hour will be given to actual practice in waiting tables at the coffee shop of the Elk hotel. All classes are free for students over 16 years of age.

Forty girls and three boys visited The Herald and News yesterday with the consent of Malcolm Epley, managing editor. They watched the printing press and the linotypes in operation and other machines in the building.

Have you bought any war stamps and votes for your "Sweetheart of KUHS?" You still have time to help your favorite win. So do your part and help a girl win a trip to Portland and also to keep that light burning bright in "Miss Liberty's" hand.

Restaurant Sales Classes Announced For Men, Women

Evening classes for restaurant sales persons will be held from March 29 until April 2 from 7 o'clock to 9 o'clock, the vocational department of the Klamath Union high school announced today.

Through the courtesy of the Elk hotel Coffee Shop, practice period will be held there each evening from 8 o'clock to 9 o'clock. From 7 o'clock to 8 o'clock unit study will be conducted on subjects to be announced later.

These classes will be open to both men and women, and high school students over 16 years of age. All classes are free.

THIRD ANNUAL DAIRY CONTEST ANNOUNCED

By writing a story on "Why I Want to Be a Dairy Club Member," a few lucky Klamath boys and girls will be the possessors of a purebred dairy cow in the third annual dairy contest sponsored by the local Sears Roebuck and Company store in conjunction with the county agent's office and the Four H clubs.

Judging the papers, which must be turned in by April 1 along with the signed agreement to exhibit, keep cost records, and grow the purebred cow on recommended systems, will be the chairman of the Junior Livestock show, the county agent, the Four H club agent and the Sears manager.

To date the Sears store has given away 28 cows in this contest. However, from now on the project will be revolving with the winners of the animals of one year supplying the calves for another year.

ARMY ANNOUNCES TRAINING PROGRAM

An army program similar to the navy V-12 has been announced locally by Dwight French of the high school for youths between the ages of 17 and 22 who will be trained as doctors, engineers, pharmacists, etc.

This program, like the navy program, is open to high school seniors, graduates and college students who pass the qualifying examination which will be held in room 324 of the high school April 2 between 9:30 a. m. and 11:30 a. m.

All men interested are asked to contact French immediately either at the high school, phone 4814, or at his home, phone 3790.

POLITICAL PUZZLE

JACKSON, Miss. (AP)—A letter from State Senator Lucius Sommers of Hoagland, Ind., addressed to "the republican floor leader, Mississippi senate," has Secretary Bob Brown puzzled.

He doesn't know to whom to give it since the last republican in democratic Mississippi's legislature served in 1920-24.

Sommers suggested that the republican floor leader introduce a resolution proposing limitation of presidential terms to two or four years each.

GENEROSITY
COOKSVILLE, Ill. (AP)—To their point rationing conscious city cousins, the people of this

small farm community offer an example of good neighborliness. For Mr. and Mrs. Robert McKeown, whose home burned recently, a Methodist church group

gave a canned fruit and vegetable shower. From the 25 members who attended came 87 cans of foods as

well as a variety of kitchen utensils. First state prohibition law was enacted in Maine in 1851.

We can produce more ships than at present if we can get the materials. We haven't reached the limit of our manpower yet.—Shipbuilder Henry J. Kaiser.
