

WAR TRAINING CLASSES OPEN FOR ENROLLEES

A new class in electrical repair and maintenance will start Monday at 7 p. m., March 29. The purpose of this class is to train men for local industry as well as for war production industries. Ten men are needed to fill this class.

Other classes that need enrollees are the day class in welding, day or night classes in aircraft sheet metal and general sheet metal.

Anyone may train, regardless of their occupation. Supplementary training may be taken in the above classes for those who are already employed. Our purpose is to prepare workers for the war effort either local or national.

Enrollment may be made at the high school during the day or evening, ask for the instructor for enrolling.

No Coupon Necessary, But Restaurant Steak Rationed

WASHINGTON, March 25 (AP)—You won't have to give up a ration coupon when you order a steak at your favorite restaurant—but it will be rationed, too. Restaurants and other institutional eating places will be limited to 75 per cent or less of the amount of meat, butter, cheese and similar products they used last December when the point rationing program goes into effect Monday, the office of price administration says.

THREE VEGETABLES UNDER PRICE RULE

CORVALLIS, March 25 (AP)—Three more Oregon vegetables came under the minimum price regulations today when the state USDA war board announced support prices for beets, cabbage and carrots for processing. Support prices for peas, corn, tomatoes and snap beans had previously been announced.

Prices—beets, \$28, \$21, and \$12 per ton for grades 1, 2 and 3, respectively; cabbage, \$12 a ton, field run with culls out; carrots, \$22 field run with culls out.

Processors who pay at least these prices to growers will be eligible to participate in the government purchase program aimed at keeping consumer prices in check while returning a fair price to growers, said R. B. Taylor, state war board head.

Two mathematical methods will be used to determine the restaurant ration, OPA said last night in making the announcement. One is to cut 7 per cent off the number of persons served during December, and the other trims 25 per cent off the point values of products used. Which ever gives the smallest total determines the establishment's allotment.

Individual portions aren't restricted yet, but the agriculture department is considering such a limitation.

Oh! Unhappy Man—Thieves Steal Meat From Cold Storage

PORTLAND, March 25 (AP)—Leonard J. Popma of Clackamas was very unhappy today. Thieves broke into his cold storage locker last night and took three large hams, three shoulders of pork, 50 pounds of beef, 30 pounds of lard and 25 pounds of butter.

Many sorrowful faces were seen in school yesterday as the report cards gave their bad tid-

ings. Just grin and bear it, there are only 41 more days of school this year.

Some beautiful (?) and unusual figures were seen yesterday as the K club had their initiation. The boys were dressed like hick girls and they didn't leave out anything. They were rolling in the halls for the older members of the club and their

faces were painted bright red with lipstick. The poor things certainly did have sweet aromas, they had onions hanging around their necks and they had been eating limburger cheese. Old KUHS smelled like a Chinese glue factory.

REFRIGERATOR PRICE CHANGES ANNOUNCED

The Klamath Falls district office of OPA today announced several important changes in the maximum price regulation of used household mechanical refrigerators, effective April 15.

Prices on 1940 or earlier models have in some cases been slightly raised, and the guarantee period for a reconditioned machine has been reduced from one year to 90 days. Ceilings on 1941 and 1942 models are placed at 70 per cent and 75 per cent respectively of the manufacturer's list price, and provision is made for the addition of \$5 on sales made in the western states.

The new regulation also provides for specific rental charges, depending upon the ceiling price of the refrigerator. The monthly rentals range between \$2.50 and \$6.00 on popular models, but may exceed \$6 on large machines whose maximum price is higher than \$125.

The new provisions are applicable to sales by householders. Previously, only prices charged by dealers were governed, but the ceiling prices now apply to any sale.

The local district office of the OPA has copies of the regulation available for inspection.

"The total number of known dead is now 10," an official announcement said. "All other employees of the depot have been accounted for."
