## PAPER ADVERTISING INCREASED IN 1942

NEW YORK, March 25 (AP)—In spite of rationing and the curtailment of durable goods, advertising in 1942 showed only a 5.2 per cent decrease from 1941, with newspapers doing better than the general average.

According to estimates made by Dr. L. D. H. Weld, director of research for McCann-Erickson, Inc., published in "Printer's Ink," the total advertising investment for 1942 was \$1,820,000,000, or a drop of only \$100 million from 1941.

Newspapers were off only 5 per cent. The 1942 total for newspapers was \$580,000,000, causing them still to outrank by far all other media on value of advertising placed. Stringent decreases in automobile advertising and other items caused the percentage decrease suffered by newspapers to be considered surprisingly small.

Radio advanced 9 per cent, with \$245,000,000 for 1942, against \$225,000,000 for 1941.

Interesting Notes of Herald and News Advertisers, Their Products and Activities

Filling the thermos bottle for the worker's lunch box is becoming increasingly difficult for the homemaker. When coffee was rationed canned fruit juices and soups were frequently called upon. Now that they are point rationed, homemade soups and milk shakes will more often be used.

A delicious milk shake that can be easily and expertly made at home uses the new Mavis cola syrup to sweeten and lend rich flavor to the milk.

Two cups of milk, two scoops of ice cream and four tablespoons of the cola syrup blended together with an egg beater will just fill the average size thermos and leave one appetizing glassful for the homemaker's lunch.

This concentrated Mavis cola syrup has innumerable other uses in the home. It may be used to add zestful flavor to gelatin salads and desserts, as flavoring for egg nogs, puddings and cookies, and, of course, is the basis for making one of America's favorite drinks, the "coke" at home.

## California Law to Give Farmer Rights in Labor Question

The legislature, in passing the bill yesterday, emphasized that this sweeping state farm labor program, extending from the grass roots of the rural towns to the streets of the biggest cities, was to be a dirt farmer project.
