SNOW SURVEY SHOWS WATER CONTENT GOOD

LAKEVIEW — Snow surveys taken during the first week in March by the soil conservation service under the direction of T. A. Work, indicates that there has been a greater depth of snow and consequently a greater water content than for several years past. Reservoirs in the county will all be filled, assuring plenty of moisture for crops.

At Mill Creek, tributary to the Chewaucan river, the snow contained 8.6 inches of water compared with 6.4 in 1942, representing an increase of 123 per cent.

The Silver Creek snow course, tributary to the Silver Lake irrigation vicinity, showed an increase of 211 per cent with 7.9 inches of water content against 3.7 per cent last year.

On Summer rim which is part of the Sycan marsh branch, the measurements showed 20.7 inches of water compared with 13 inches in 1942, a gain of 160 per cent.

LAKEVIEW RANCHERS RECEIVE AAA MONEY
LAKEVIEW — County Agent Vic Johnson reported yesterday that up to March 24, 218 Lake county ranchers and farmers who had participated in the AAA program in 1942, had received cash benefit payments to a total of \$38,799.50. In 1941 there were 317 farmers and ranchers or 63 per cent of all the operators in the county who received \$48,998.91 under the AAA program.

LAKEVIEW — The two big 240 and 380 h.p. diesel units from the California Public Service company plant here are on their way to government defense projects. The last one was shipped Tuesday evening. The government took them for important war work, leaving the owners little to say in the matter. Their destination was not made known.

The two units were originally installed in Lakeview in 1930, together with other engines, supplying power here until October 1936, when connections were made with California-Oregon Power Co. In the last 18 months the engines have been used but 30 minutes.

Loading the diesels on flat cars and other work connected with the shipment was a big job, as the largest of the two units weighed 78,000 pounds and represented the heaviest piece of equipment in Lake county. With a caterpillar used to drag the engines onto the cars, it required a crew of men 18 days to complete the task.

We are determined to prove for ourselves and to the world that the capacity, the spirit and productivity of free labor is far superior to that of coerced labor. — AFL President William Green.

GOVERNMENT GETS DIESEL POWER UNITS

LAKEVIEW — Partial returns available of funds raised in Lakeview and outlying communities reveal that Lake county is well on its way toward going over the top in the Red Cross war fund drive held during March. Complete figures probably will not be available until sometime during April, as several organizations have planned entertainments to be held during April with proceeds going into the fund, according to Milton Fisher, chairman of the drive.

Scouts Pass Exams In Outdoor Cooking

SPRAGUE RIVER — The Girl Scouts had a picnic and wieners roast on the river bank Sunday. Myra and Mildred Chandler, Joana Fuller and Daisie Krider passed their outdoor cooking tests and received their badges. All girls in the troop are now second class scouts.

Those attending were Mrs. Esther Young, leader of the group, Mrs. Ed Santerre, Girl Scouts Joana Fuller, Beulah Santerre, Velma Lee Pool, Sally Zadow, Daisie Krider, Myra and Melba Chandler, and one visitor, Joyce Fuller.
