Farm Groups Advertise

T'S startling to note that farm organizations (which always have been more or less distrustful of the methods of business) are starting to employ advertising agencies.

The Oregon State Grange has retained Botsford, Constantine and Gardner, the outstanding agency in our own neck of the woods. Such ads as Olympia Beer, Snow Flake Sodas, Sego Milk. Shreddies, Shredded Wheat and M-D Tissue that you see in this paper are prepared by Botsford, Constantine and Gardner.

The American Dairy association employs the Campbell-Mithun agency of Minneapolis.

When he got to Hendricks drug store he met state police Officer Walter Walker, told him there had been a fight, that a man had been hurt, and that he wanted Walker to take Bowman to the hospital.
