

BOY SCOUTS TO TRAIN IN 1943 CAMP PROGRAM

The Modoc area council, Boy Scouts of America, has made preliminary announcement of its plans for the 1943 camping season in a bulletin released this week to the scout leaders throughout the six counties covered by the council.

According to Arnold Gralapp, chairman of the camping committee, the emphasis this year will be on the training for skills incident to serving the country, whether at home, on the farm, or in the armed forces. The traditional skills taught by the scout movement such as signaling, compass and map making, first aid, pioneering, and physical development will be intensified. Special attention will be given to swimming and life-saving instruction for scouts who show aptitude for such work.

The council's camp site is on Crescent lake in the Deschutes forest. The camp will open July 15, and will run for four periods of one week each. Reservations for camp attendance will be made by each troop on a "first come, first served" basis. Troops are urged to make reservations early so that food rationing details can be worked out well in advance.

Scout Executive Robert H. Lamott will act as camp director, ably assisted by a group of trained men and older scouts, including Rev. Eugene V. Haynes, Joseph Wolfminger, and others. In addition to the week's training for each scout who attends camp this summer, scouts will work on Victory gardens and will fit into the farm production program wherever their services may be desired. Several local reforestation projects are being planned and will be announced in the near future.

VFW to Provide Recreation Room For Air Students

Pelican post No. 1383, Veterans of Foreign Wars, has decided to prepare a recreation room at the airport where there are 100 boys undergoing training for the air forces of the U. S. army, navy or marine corps.

"At present there is no place where these boys may sit down and study in quiet, or where they may play games or read a story when it is stormy outside," said Jim Souther, head of VFW.

"It is because of this that we, the veterans of the last war are trying to make things a little more pleasant for these boys today."

"We find that we are in need of the following articles:

One radio, small table model preferred; one table, small and solid; one coffee maker, silex preferred; one electric plate; three or four card tables; several chairs, both easy and straight; checker and chess boards and men; other small games, such as dart boards, cards games, etc.; four floor lamps; books and magazines.

"Anyone having these articles, or who know where they may be secured, and who is willing to donate them for the use of these boys here at our own home, may phone during the day to 7153, or evenings to 6084, giving the names of the articles you have, and your address where they may be called for.
