PROFIT SELLING LOWERS STOCK RESISTANCE

By VICTOR EUBANK
NEW YORK, April 7 (47)—
Another wave of profit selling in stocks today lowered the mar-ket's resistance but a late recovery crased a fair part of earlier losses in many of the leaders.

Many rail and industrial fa-vorites were off 1 to 2 points at the worst. On the turnsbout coppers and golds made the best showing and some of these had moderate net gains in the final hour. Anaconda and Kennecott attaining new highs for a year or

Steels, motors and carriers had a moderate comeback from the bottom levels and did better than the general run of indus-trial specialties. Dealings were around 2,000,000 shares.

Off a point or so near the close were Air Reduction, DuPont, General Electric, Allied Chemi-cal, American Can, Westing-house and New York Central. Northern Pacific cancelled a considerable part of a 2-point de-cline. Cerro de Pasco and Phelps Dodge moved up with other cop-pers. Dome Mines and Homestate were the best of the golds. Goodrich was a firm spot among

	the rubber.

We'll bet you never heard of Pequop, Nevada. But we know Mrs. Charles Moore of San Francisco has.

Mrs. Moore is the mother of Private Eugene Moore of the U. S. Marines-the man who was beaten, stabbed and mauled by a small army of Japs in the Solomons-and lived.

Eastbound on Southern Pacific's Train Number 88, Mrs. Moore had given up hope of seeing her son again, when a telegram from her husband was delivered to her on the train at Wells, Nevada. It said:

"GENE IS HOME. COME BACK."

Mrs. Moore ran frantically through the train, found the conductor and cried, "I've got to get back-my son is home safe!"

Now conductors are used to emergencies, and they try to be as helpful as they can. But when Conductor Fred C. Snooks found out that the son was indestructible Moore of the U. S. Marines, he really went

Quickly comparing his train orders, Snooks saw he would meet the first westbound train at Icarus, Nevada, but he knew he wouldn't be able to get his flagman far enough ahead to stop the other train in time. So he decided to take the siding at Pequop, a small station west of Icarus, and make the transfer there. It would delay two trains, but what of it? The important thing was to get Mrs. Moore back to her son.

Approaching Pequop, Snooks signalled his engineer to stop and take the siding. His head brakeman ran forward a quarter of a mile and flagged down the westbound train. Conductor Snooks transferred Mrs. Moore to the care of Conductor Linton and sent her speeding westward, back to her son.

This incident has nothing to do with Southern Pacific's part in the war effort. It simply shows that a railroad is more than trains and tracks-it is people. And no matter how busy or hard-pressed railroad people are, they are still human beings, and their hearts are in the right place.

To get \$25 a month starting in 10 years, buy an \$18.75 War Bond every month
