

SPECIAL WAAC OFFICERS HERE FOR RECRUITS

Klamath Falls will be the headquarters for a special WAAC recruiting staff who will conduct an intensive recruiting campaign in southern Oregon for one week starting Wednesday, April 14, and ending Thursday, April 22.

Three uniformed representatives of the women's army, Warrent Officer Lester Ottaway, Auxiliary Nina M. Keeney, and Auxiliary Cieta Berkemer, will make sorties into the southern Oregon district from their Klamath Falls headquarters in the army recruiting offices at the post office building. The intensive drive to enroll the hundreds of women who are needed now by the United States army will include calls to Medford, Grants Pass, Ashland, Pinehurst, Keno and Lakeview. One of the representatives, however, will remain on duty throughout the week in Klamath Falls.

Assisting the traveling staff will be Mrs. Clara Jester who is the volunteer WAAC recruiting chairman for this city. Mrs. Jester has been cooperating with Sergeant Frank Huhin, local sub-station commander. They have indicated the absolute necessity of recruiting many more women from the southern Oregon area. The women's army is a part of the total strength of the United States army it was explained, and military plans are counting on certain numbers of women soldiers to do non-combatant jobs.

Leonard Houston, Former Klamath Resident Dies

FORT KLAMATH—Friends will be grieved to learn of the death of Leonard Houston, who with his wife and family lived here on the Mordecai Hess ranch and was engaged in dairying before moving to Notus, Ore., last fall. According to information reaching friends here, Houston suffered from a severe attack of influenza in February which left him with a serious kidney infection, with jaundice later developing. His condition became so grave that he was removed from his home at Notus to an Ontario hospital in March, but he gradually became worse and passed away there on April 1. His aunt, Mrs. Jack Houston, was a visitor at the Houston home during his illness and subsequent death. During their residence in Fort Klamath, Mr. and Mrs. Houston were a very popular and well-liked young couple, and sympathy is extended Houston's widow and two small daughters in their sad bereavement by their many friends in Wood River valley.

Plastic screening, an entirely new type mesh screen with definite advantages over wire screen, has been announced by the Firestone company. The screen is made of Firestone "Velon" plastic and is already in stock at the company's local store.

The new screen will not rust or corrode, will not streak nor stain house exteriors, and is not affected by temperature, moisture, acid fumes or salt air. Being flexible, it yields under

blows that would break ordinary screen, it is said.

Tests by three different laboratories under all possible conditions, including temperatures as high as 200 degrees F. and as low as 85 degrees below zero, show no deterioration.

According to Firestone, it will outwear any metal screen now on the market.

The nation's highways, too, are doing their part for victory. In addition to the large volume of military traffic, the bus lines carried *three-quarters of a billion* passengers in 1942—nearly six times the population of the U.S. And still more are riding this year.

These millions are not traveling for scenery or pleasure. Most of them are selectees, military personnel, and war workers. Others are farmers, nurses, teachers—people in nearly every walk of life whose trips in some way or other are essential to the national welfare.
