

# STOCKMAN TO ASK FUNDS FOR OREGON JOBS

WASHINGTON, April 13 (AP)—Western members of congress are urging the house appropriations committee to provide funds for the completion of certain reclamation projects as an aid to greater food production.

The sticker is that the war production board must grant priorities for use of strategic metals, even if the appropriations should be made available. The committee, members said, seemed favorably inclined to finance projects which would be completed within a year or so.

## CATTLE, SHEEP ON NW RANGES AGAIN

PORTLAND, Ore., April 13 (AP)—Cattle and sheep are on Pacific northwest ranges again, and fear of heavy losses is over. A feed shortage, plus a late spring took a heavy toll in early lambing.

But the weather broke suddenly, and the range is green again. Stock is gaining back lost weight, and market experts predict the northwest meat supply will be up to normal this fall.

## NAVY SEABEES MAY EXPECT CALL SOON

Men who have enlisted in navy construction battalion and are awaiting call may expect the call either April 23, 24 or 26, it was reported by CBM C. J. Speakman, local navy recruiter, Tuesday.

## First Aid Club Holds Instructors Meeting Monday

The First Aid Instructor's club met at the Red Cross headquarters Monday evening at 7:30 p. m. The club welcomed Ernest and Eva Strong of Coos county as new members.

## ROPE-A-CRITTER DAYS

TWIN FALLS, Ida., (AP)—Sheriff Warren W. Lowery and Deputy Virgil Borden swung lariats in first-rate cowboy style as they rounded up calves and goats escaping from a railroad car.

# MEN AND WOMEN IN SERVICE

FARRAGUT, Idaho — Lloyd Lewis Smith, husband of Mrs. Janice Kathryn Smith, 323 Commercial street, Klamath Falls, Ore., is a new recruit to begin training in one of the camps at this naval training station recently.

Anton Suty, Jr., of Merrill has reported at Brooks Field, Tex., for the final stage of his flight training as a cadet flier. Cadet Suty took his preliminary training at Brayton flying field, Cuero, Tex., and basis instruction at Randolph field, Tex. He attended Oregon State, and is a member of Theta Chi fraternity.

MINTER FIELD—It was announced recently that James E. Barlow, son of Mr. and Mrs. Eldie Barlow, of 707 So. Sixth street, Klamath Falls, has been graduated from the army air force basic flying school, Minter Field, California, in the 43 F class. Cadet Barlow has been sent to an advanced training school and, upon completion of his instruction there, he will receive his wings.

Klamath Agency will be represented in the women's army by Miss Winifred Bishop, according to Portland's WAAC recruiters. She enrolled Friday and has returned home to await her call to active duty.

KEARNS, Utah — Hugh C. Kafton of 1821 Etna street, Klamath Falls, is now stationed at this army air force basic training center, it is announced by Col. Converse R. Lewis, commander. Private Kafton is the son of Mrs. Elona Kafton, and entered the army air forces, March 18, 1943.

Mrs. Maye Stilwell, 317 Martin street, has received word from her son, William Ray, who has been promoted from field musician first class to the rank of corporal. He has been selected as a colonel's orderly.

DYERSBURG ARMY AIR BASE, Tenn.—Carl M. Biehn, husband of Mrs. C. M. Biehn, 314 North First street, Salt Lake City, U., has been promoted to the rank of technical sergeant at the Dyersburg army air base.

MINNEAPOLIS, Minn.—Alton LeRoy Lee, 18, son of Mr. and Mrs. Edwin S. Lee, 628 Oak street, Klamath Falls, is learning how the huge engines which propel America's powerful warships operate at the navy's school for machinist's mates on the campus of the University of Minnesota here.

# Bomb to Pierce Six-Inch Armor Told by Admiral

DETROIT, April 13 (AP)—An armor-piercing bomb that can drive through the protective decks of a battleship and explode in her interior was described today by Rear Admiral W. H. P. Blandy, chief of the navy's bureau of ordinance.

But, he continued in an address prepared for the Detroit Economic club, to attain that ability to drive through half-foot of armor plate, explosive power must be sacrificed. "To get through heavy armor, a bomb, like a shell fired from a gun," he said, "must be especially designed for the job."

The principal features (of the new bomb) are a delayed-action fuse, a very thick wall and heavy nose, and consequently a small bursting charge. "It must have plenty of striking velocity. The latter can be achieved only by dropping from high altitude or by diving at extremely high speed. In either case, accuracy is difficult to achieve."

The planes push over at altitudes high enough to afford fair protection from the ships' guns, take advantage of cloud cover or a brilliant sun if available, and come down "like a bat out of hell" at an angle as steep as 70 degrees in the final dive. Blandy asserted that light-case bombs with their higher explosive charge cannot sink a battleship, but can cause severe damage to communication equipment, exposed stations, lighter anti-aircraft batteries and can pierce light upper decks starting fires. The same bombs, he continued, can sink lighter types of naval vessels and of course transport and cargo ships.

where the torpedo comes in handy." He told of the torpedoes being made of 5000 parts and intricate assemblies which can withstand dropping from a plane at high speed, and guide the "tin-fish" on its course at pre-determined depths depending on the type of vessel attacked. "All navies," he said, "recognize the serious menace of the torpedo plane, and see to it that its efforts are not ignored."

**COINCIDENCE**  
YUMA, Ariz., (AP)— Bert Parrish, Yuma businessman, feared his car had struck a pedestrian on the highway at night. He stopped, found an unconscious man beside the road, and hurried him to the hospital. Next day, officers found the lifeless body of David Garcia, 37-year-old farm worker, near the road. The coroner's jury ruled his death resulted from an unavoidable accident. The man Parrish took to the hospital? Uninjured—just dead drunk. Dietitians say peanuts are a good substitute for meat. Thereby recognizing the "nut" in nutrition.

### Socks and rayon hose deserve washing care

Rayon hose and socks don't really belong in the regular wash... that is if they are to give long wear. And long wear in anything is very important these days.

**TO WASH RAYON HOSE**—Turn them wrong side out and shake them. Be sure the water is no more than lukewarm, then add a mild granulated soap and agitate it with your hand into a foamy suds. Squeeze the hose through this suds for several minutes, then press out the water and rinse in at least two waters of the same lukewarm temperature.

**TO WASH SOCKS**—Turn them inside out, shake them, and wash after your stockings in the same mild warm suds. Mild soap and tepid water are a protection for the color and yarns.

WAX Johnson's Liquid or Paste, Pt.	59¢
WHITE MAGIC BLEACH 1/2 Gal.	19¢
PUREX BLEACH 1/2 Gal.	23¢
PALMOLIVE SOAP 3 bars	20¢
