

HOW TO GET CERTIFICATES OF BIRTH TOLD

Under a recent law passed by the Oregon legislature, birth certificates can now be secured by persons born in or residents of Oregon, by applying at the county clerk's office in the courthouse here.

Below is a copy of the law, giving complete instructions as to procedure to follow in securing a birth certificate:

BIRTH RECORDS JUDICIALLY ESTABLISHED (Chapter 118, Oregon Laws, 1943) AN ACT

Critical Period Seen in Short Manpower Situation

PORTLAND, April 14 (AP)—The next half-year will be the critical period in the manpower situation, Dr. William Heber warned Oregon employment service officials yesterday.

The labor utilization planning specialist for the war manpower commission said, "the next six months will tell whether we can stick to the traditional voluntary system, shift to the British method of compulsion by consent, or resort to some system of compulsion through the national selective service act."

He declared critics of the manpower program did not realize

TRUCKERS GET WARNING OVER GAS BORROWING

The practice of borrowing transportation gasoline coupons by truck operators must be stopped.

This warning was issued today by Marshall E. Nauman, district manager of the Office of Defense Transportation, when he said this misuse of gasoline coupons had been on the increase in the southern Oregon district area.

He declared that ODT was making a careful check of mileage claimed against actual gasoline consumed by operators and that those who have had excess gasoline allotted them will be reissued Certificates of War Necessity providing less fuel and mileage.

what has been accomplished. In the past 16 months war workers have increased from 7,500,000 to 18,000,000, another 8,000,000 have gone into the armed forces and the greatest food crop in history has been harvested.

Heber estimated another 2,700,000 will be needed by industry this year. Approximately 2,000,000 will be women, he said.

With rationing putting more cars in the garage and less liquor on the market, there will be fewer blowouts this summer.

Pride of Workmanship

A ship launching is an occasion for pardonable pride on the part of every person, man or woman, who drove a rivet, sawed a board, or had anything else to do with completing the job. When some lucky lady smashes that bottle against the hull, even old "Poker Face," the timekeeper, can't help but feel a slight surge of emotion. And rightly so. Any man worth his salt has pride in good workmanship. That's certainly true of railroaders. We're quitters that every Union Pacific employee—in shops, offices, stations, or on the rails—realizes the need for top-notch efficiency and takes pride in the fact that his railroad, with his help, is doing a bang-up job of transporting vital war materials and trainloads of troops.
