

HOUSE OKAYS PRESIDENT'S AUTHORITY

WASHINGTON, April 21 (AP)—The house today passed the senate-approved bill extending for two years the president's authority over a \$2,000,000,000 stabilization fund, but added an amendment which its author said would prevent use of the money in the proposed joint \$5,000,000,000 international banking fund.

The measure extends the president's authority over the \$2,000,000,000 stabilization fund but withdraws his power to devalue the dollar.

The house on a voice vote first approved the amendment offered by Representative Reed (R-Ill.) to prevent use of the fund in the proposed international stabilization fund and then quickly passed the measure on a voice vote, sending it for adjustment of the senate and house versions to a conference committee.

The coinage committee inserted Reed's amendment and the house approved it within a matter of minutes.

In so specifying, the committee said it had in mind possible post-war international stabilization efforts, perhaps including establishment of an international bank into which the stabilization fund might go, whereby direct control of it by the president might be lost.

The restricting amendment, offered by Rep. Reed (R-Ill.), provides, "such fund shall not be used in any manner whereby direct control and custody thereof passes from the president and the secretary of the treasury."

No effort was made by the committee in its action to include in the bill extension beyond June 30 of the president's authority to devalue the dollar. This provision was eliminated from the senate bill.

Mrs. E. A. Fredrick presented a musical program during the afternoon introducing the school orchestra, string trio, and various classroom groups.

Mr. Speirs announced that the second annual teachers' tea would be given Friday at 2:30 p. m., in the auditorium for mothers of Riverside children. Mrs. E. A. Fredrick is in charge of the program.
