

SPUD MEN TO CONFER WITH U. S. SENATOR

TULELAKE — Chester L. Main, president of the Tulelake Growers, and Dan Crawford, secretary, will confer Saturday in San Francisco with U. S. Senator Sheridan Downey, member also of the military affairs committee on problems that face local farmers in the crop year just ahead.

Senator Downey, in a recent request to Mayor A. A. Rodenberger, asked for specific information on labor needs, shortages of machinery and facilities for medical care and hospitalization. The data will be used in a nationwide survey by the military affairs committee in an effort to clear the way for co-operative effort between the federal government and farmers in producing a maximum amount of foodstuff this year.

A survey of labor needs during the harvest next fall placed a conservative estimate at 3000 men and women. From 4000 to 5000 have in past years been used at the peak of the potato harvest.

Three avenues for procuring help were also suggested at a meeting of the committee this week which drafted a list of the problems. The first embraced use of Japanese labor from Newell. Second employed use of Navaho Indians, a few having been used and found satisfactory here last fall. The third and last possibility is use of Mexican laborers.

Main and Crawford will cover also the need for farm machinery, particularly trucks now frozen in the hands of dealers in the Klamath basin. A report prepared by Dr. J. R. Barr on the lack of hospital facilities will also be presented to the senator.

L. E. Tillotson, local representative of the Pacific Coast Dehydrated Products company, Oakland, reported to the committee that a survey has been made of an area on the Great Northern right-of-way on Ewawna lake at Klamath Falls for the building of a dehydration plant provided priorities can be cleared in Washington. Representatives of the company conferred here with Tillotson last week.

Locations in Merrill, Malin and Tulelake were also considered. The company finally decided in favor of the Klamath Falls location. Provided materials for construction can be obtained without serious delay, the plant should be in operation by September 1. Potatoes only will be dehydrated the first season. Tentative plans call for preparation of carrots and rutabagas at a later date.

The plant will be operated when completed on a 24-hour a day basis employing 150 persons. Capacity of the plant will be 1600 sacks of potatoes per day, each 100 pounds of potatoes producing 12 pounds of the dehydrated product.

Mrs. Henry Grimes, who has been a patient at the Klamath Valley hospital, is showing marked improvement the last few days.

Lake County Sure To Make Second War Loan Quota

LAKEVIEW — "There is not going to be any question about Lake county making its quota of \$630,000 in the second war loan campaign," said C. F. Sandler, co-chairman with Ray Harlan, Thursday. To date, total sales to resident individuals, firms and corporations of Lake county totaled approximately \$330,000. To this amount will be added the allocation of bank and other investments for the county.

NEW PINE CREEK SELLS WAR BONDS

NEW PINE CREEK — "New Pine Creek is definitely in the race to do its part in raising the nation's gigantic quota of \$13,000,000,000 by May first," said Irvin L. Faris, local chairman.

Out of the few citizens that have thus far been contacted fifty per cent have purchased bonds and others have promised to before the deadline of May 1. Others are working on a budget plan of buying so many stamps per month for their books, as they don't have any large amounts of money to invest in bonds all at once. So far \$1281.50 has been turned in for bonds. Included in this amount is \$74 for a class "F" \$100 bond purchased by the East Side Grange at their meeting held last Friday evening.

It is suggested by Mr. Faris that if all persons in the community and those residing on the Star route between here and Lakeview who have not yet purchased bonds in the present drive but who are planning to do so in the near future, would stop in at the post office, it would facilitate the matter of contacting everyone. It would also give the community a better showing in the drive. Anyone who has books partly filled can leave the books and the unfilled stamp amount in cash and it will be counted in the drive just the same as cash.

AGENCY NURSES SIGN FOR DUTY WITH MILITARY

KLAMATH AGENCY, April 23 — Nellie M. Akse, Darzina Georgi and Julia B. James, registered staff nurses of the Klamath Agency government hospital, have signed up for military service and have tendered their resignations to the commissioner of Indian affairs to become effective on or before May 31, 1943, depending upon receipt of orders from the war or navy departments.

They prefer over-seas duty but may serve in this country for some time prior to departure for foreign service. The remaining nurse of the staff, Miss Wilhelmina L. Kasten, has not decided, it is reported, just what steps she will take to serve the armed forces or to continue with the agency service.

If all four depart this will leave the agency hospital without nurses and with little prospect of securing a new staff for the duration of the war. The number of patients at this time of the year varies from four or five to 16 or 20. The hospital capacity is 25. As far as is known at this time the government physician, Dr. R. M. Lukens, will remain and continue to have charge of all health matters on the reservation. Also the field nurse at the government clinic at Beatty, Mrs. Bessie K. Houts, will continue with the Indian service and serve the Beatty and Sprague River districts.
