Beauty IS YOUR DUTY

By RITA WHISENANT

ARE you dolling up for Easter with the handicap of a dried-out mop of hair that's anything but lovely? Cold spring winds can "burn" your hair... lack of exercise or a disturbed diet can give the same result.

Regular daily care of the hair at home is most important in overcoming a burned-out hair condition. There are just three simple steps—cleansing, stimulating, and lubricating.

Takes care of any loose dandruff that's lurking around and spoiling the shoulders of your new Easter suit. Stimulating is done with a specially designed long-bristled brush.

LUBRICATING is beautifully accomplished with a rich pomade on the scalp and around the hairline, plus a creme-set for the surface of the hair and to transform the ends into ringlets.

THIS "make-up" for the hair is really a wonderful idea—it's not sticky, but leaves the most wonderful gloss and sheen on the dulllest hair.

A DASH of perfume on your finished coiffure is the final touch. Make-up builds morale.
