## German Military Believes Allied Invasion Threats

STOCKHOLM, Sweden, April 28 (AP)—The newspaper Aftonbladet in a Helsinki dispatch quoting a Finn just returned from Germany said today that German military circles believed the allies would launch an invasion across northern Norway into northern Finland in the vicinity of Petsamo, less than 100 miles west of Murmansk, Russia. Some observers speculated meanwhile that a break they expected in relations between the United States and Finland may have been held up by the Russian-Polish diplomatic breach.

## Land Describes "Greatest Shipbuilding in History"

NEW YORK, April 28 (AP)—Rear Admiral Emory S. Land, chairman of the United States maritime commission, reported today that nearly 19,000,000 deadweight tons of dry cargo vessels and tankers will be constructed in American yards this year as compared with more than 8,000,000 tons last year.

In an address prepared for delivery at a general session of the 31st annual meeting of the United States chamber of commerce, Admiral Land, who also is war shipping administrator, described the record made by American industry during the last two years as "the greatest shipbuilding chapter in world history."

He said that the nation has the capacity to build at least 20,000,000 deadweight tons of shipping annually as long as necessary and asserted that if the steel and essential manpower are available "we can produce approximately 2000 merchant ships a year."

*The rest-pause that refreshes*  
Welcome in peace...  
more welcome in war work

WAR production needs are pressing. No time can be wasted on the job. Rest-pauses planned and timed are the efficient way to make every minute count. They lessen tension, break monotony, and increase output. Add refreshment to a rest-pause and you promote worker-contentment.

Ice-cold Coca-Cola is refreshment that does more than quench thirst. Drink it and you feel and enjoy a refreshing after-sense. Its clean, exciting taste always pleases, never tires. Coca-Cola offers something extra. All the difference between something really refreshing and just something to drink.

Letters from plant managers from coast to coast emphasize that the little moment for an ice-cold Coca-Cola means a lot to workers in war plants. It's a refreshing moment on the sunny side of things... a way to turn to refreshment without turning from work.

You work better when you are contented on the job. Remember, contentment comes when you connect with a Coke.
