

SCOUT FUND WORKERS TO HAVE BANQUET

More than one hundred volunteer workers for the Scout-Camp Fire fund drive will be guests of the Willard hotel this evening at 8:30 p. m. at a dinner meeting designed to launch the 1943 campaign for funds to support the work of the Boy Scouts of America, the Girl

Scouts and the Camp Fire Girls. John Ebinger, campaign chairman will preside at the meeting assisted by Vern Owen, general drive chairman, and Mrs. Percy Murray, assistant general drive chairman. This year's drive for funds comes at a time when all youth agencies are redoubling their efforts to include more youngsters in their programs of character building and citizenship training in order to stem the rising war time tide of juvenile delinquency. All three agencies in Klamath Falls are actively involved in war work of various kinds and are steadily increasing in membership.

Donald Nelson Reports Record Production Month

WASHINGTON, May 4 (AP)—Record-breaking production totals in aircraft, warships and merchant vessels were rolled up in March, Donald M. Nelson reported today, but first-quarter arms output still fell far short of the rate needed to meet military plans for 1943.

Aircraft output soared to 6200 planes and heavy four-engine bombers topped the 500-a-month rate for the first time, the war production board chairman disclosed in his ninth monthly production report.

Naval and cargo ship construction was "the greatest on record," Nelson said, noting the completion of the 43,000-ton battleship Iowa in March and hinting, in these words, that more are coming:

"It is expected that from now on many of the larger warships started early in the war effort will be coming into active service."

A report of increased production came also from Secretary of the Navy Knox, who told his press conference that the nation has "arrived at the peak period" of war production and that navy

plane and ship output in April set new records. Combat aircraft delivered to the navy, Knox said, "ran to four figures for the first time."

Moreover the number of new vessels of all classes except landing craft completed by the navy during the first four months of this year, the secretary said, was equivalent "to a 25 per cent increase in the numerical strength of the fleet and its auxiliaries, over January 1 of this year."

February, although the daily rate change was small because February was three days shorter. Taking the first three months together, however, Nelson was able to say:

"In the first quarter of 1943 we produced almost 18,000 artillery pieces, including more than 7000 anti-aircraft guns and more than 8000 anti-tank guns. Our factories also turned out about 235,000 machine guns and more than 1,000,000 rifles and sub-machine guns."

Nevertheless Nelson warned that steel production is nearing its peak and that the armament goals cannot be met unless the production pace is accelerated 50 per cent beyond the first-quarter records.

Escaped Convict Captured In North

WALLA WALLA, May 4 (AP) Wilbur Land, 29, who escaped from the Washington state prison Sunday, was captured yesterday between here and nearby Waitsburg following a tip received by prison officials. He was the fifth convict to escape in recent weeks and the second of the group to be retaken. Land entered prison on a burglary conviction in King county.
