

# PRICE OFFICE PRAISES WORK OF VOLUNTEERS

In praise of the splendid work done by volunteer workers, Price Administrator Prentice M. Brown, through the Klamath OPA office, directed public attention to the splendid way in which the schools handled the distribution of War Book 2 in February.

He said, "The unselfish manner in which literally millions of volunteers, local, government, and school officials, local boards, teachers, parents, and other members of the public pitched in and did a first class job in the short space of six days can never be praised too highly. Book 2 could not have been distributed by mail since it involved the removal of blue stamps for excess stocks of canned goods. Replacement Book 3 requires no such "tailoring" and, hence, the present plan of direct mailing is possible. It is our hope that the volunteer staffs for the planned 35 OPA mail centers which will distribute the new books will be largely composed of those same individuals who made such a fine record with Book 2.

Remember, your ration books are more valuable to you than money. Take care of them.

## Local Citizens Asked to Help Navy Find Lost Plane

U. S. NAVAL AIR STATION, Alameda, Calif.— Assistance of the public in locating a navy Dauntless bomber that has been missing nearly two months was asked today by navy authorities.

The lost plane, piloted by Lieutenant (jg) L. Parker Pelzer of Iowa City, Iowa, was last seen 15 miles southwest of Mt. Shasta by a pilot who was on the same flight. Both pilots were flying at 12,000 feet altitude above a heavy overcast during stormy and icing conditions.

Lieutenant Pelzer took off from Red Bluff on March 13 for The Dalles, Oregon. When last seen by the accompanying plane, he had left five hours of gasoline which would have given him a cruising radius of about 500 miles from Mt. Shasta. Hence, the plane could be anywhere in Western Oregon or Western Washington or Northern California.

A continuous search has been conducted by naval aviators

from naval air stations on the Pacific coast but without success; and now residents in these areas who may have information about the missing bomber or pilot are asked to communicate with the nearest authorities, whether civilian or navy.

## Loggers, Farmers Can Get New Trucks

Loggers and farmers, who can show need, may now obtain new trucks in most instances, according to word received by L. L. Lombard, local Dodge truck distributor. Up to the present time it has been almost impossible for anyone to get new trucks, Lombard said, but recent rulings have relaxed the requirements considerably.

## HOW I LICKED CONSTIPATION

Goah, did I suffer from constipation! All the purges I took gave me only temporary relief.

My constipation was the common, ordinary variety, due to lack of "bulk" in my diet. When I found that out, I also found that eating KELLOGG'S ALL-BRAN regularly gets right at the cause of such constipation and corrects it.

I eat KELLOGG'S ALL-BRAN for breakfast and drink plenty of water. And—I feel like a new man. If my trouble's your trouble, take my advice—get KELLOGG'S ALL-BRAN at your grocer and "Join the Regulars!"

## CALIFORNIA MAKES ALTAR ROAD SHORT

SACRAMENTO, Calif., May 6 (AP)—The road to the altar was shortened considerably today with the repeal of California's 15-year-old "gig marriage" law. Governor Earl Warren signed a bill making it possible for couples to obtain marriage licenses without waiting out a three-day period, required by statute since 1927.

The governor said that he had received many requests to sign the new law from chaplains in the armed forces, commanders of naval stations, county clerks and even mothers.

Another California statutory requirement still calls for premarital physical examinations, and this, said Warren, "is in itself a deterrent against hasty, ill-advised marriages."

This is the most important planting season in American history. We can still increase the number of acres we plant. In a very few days it will be too late. — Food Administrator Chester Davis.

## Cafes Must Post Ceiling Prices For Inspection

Beginning May 15, restaurant menus must have written or attached to them a statement that all prices listed are ceilings, unless otherwise indicated, in which case they are below the maximum ceiling price. The statement will also say that, by OPA regulation, ceilings are the highest prices from April 4, 1943 to April 10, 1943, and that

records are available for the customer's inspection. If menus are not used, the statement must be posted by a sign which can be read easily and is located near the cashier's desk or at the principal entrance to the restaurant.
