

MASSACULT CAPTURED BY ALLIED ARMOR

(Continued From Page One)

ments on both flanks of the offensive movement maintained their pressure on the German and Italian lines. A French high command communique said operations of the French African corps moving along the Mediterranean coastal sector in the direction of Bizerte were developing favorably and in the south in the Pont du Fahs sector, "a small enemy attack was repulsed."

Field dispatches indicated thousands of men and machines, hardened by months of campaigning in the mountains, were striking the German-Italian lines on a salient of 30 or 40 miles.

Shell Ferryville Long range artillery is shelling Ferryville, the bomb ravaged naval dockyard and repair and refueling depot of Bizerte, a delayed dispatch from the field said. Flying Fortresses left fires raging in waterfront and railway yard wreckage in Tunis and La Goulette.

Observers said the whole valley east of Mateur, American-held junction between Bizerte and Tunis, appeared alive with smoke and flame from artillery shells seeking out German positions.

Heights Taken American and French infantrymen captured strategic heights both north and south of Lake Achkel in a powerful drive supported by tanks, field guns and bombers.

Observers at allied headquarters said they expected a special communique would be issued later today to cover these and other developments.

"Second Front" Sure This Summer, Says OWI Chief

(Continued From Page One)

Tunisia were the result of operations allied in fact as well as in name. "It is the continuous pressure on all parts of the Germans by British, French and American troops that produced breakthroughs on one or another part of the front," Davis said.

The axis fear of imminent invasion is apparently the reason for new and feverish propaganda activity from Rome and Berlin, Davis said, and apparently accounts for the propaganda, for home consumption, that American flyers have machine-gunned Italian civilians.

"They are obviously expecting an attack and an invasion, and I think the zeal with which they go at this indicates that they are afraid we will meet with a good deal of sympathy among the Italian people who probably got tired of having their country run by the Germans."

They are obviously expecting an attack and an invasion, and I think the zeal with which they go at this indicates that they are afraid we will meet with a good deal of sympathy among the Italian people who probably got tired of having their country run by the Germans."

able to get along in the future with this man Stalin and the powerful and realistic Russia he has created.

Another highlight of today's news: Tojo, speaking in conquered Manila, says Japan has now "strengthened a strategically important base in Greater East Asia and is prepared to deal a decisive blow at the enemy (meaning us)." Exactly, you see, what MacArthur has been warning us about.

Tojo, of course, may be trying to scare us into withdrawing strength from Europe and thus lightening the pressure on his alleged pal Hitler. Also, he may be prepared to carry out just what he is threatening. If he does that, and we lack the strength in the Pacific to resist him, there will be ANOTHER BATAAN.

GENERAL ANDREWS, killed in a plane crash in Iceland day before yesterday, is the EIGHTH American general to lose his life since we went to war.

In proportion to the total number involved, casualties among generals have probably been higher than among privates. In this war, the general DON'T sit back in safe places.

GEN. DEVERS HEADS EUROPEAN THEATRE

(Continued From Page One)

to the entire European, North African and Middle East theaters of war.

LONDON, May 6 (AP)—The Iceland plane crash in which Lieut. Gen. Frank M. Andrews and 13 others were killed Monday occurred when the "weather was bad with a very low ceiling and poor visibility due to rain and low clouds," it was announced today by the United States army.

The announcement said the plane struck a hill in an isolated section near Grindavik and was demolished. The only survivor was the rear gunner, Staff Sgt. George A. Eisel.

Besides Lieut. Gen. Andrews, commander of United States forces in the European theater of operations, those killed include Bishop Adna W. Leonard of the Methodist Episcopal church of Washington D. C.

"It is not known who was piloting the plane at the time of the crash," the announcement said.

MUSIC WEEK NOTED BY KIWANIS CLUB

Music week was observed by the Klamath Kiwanis club Thursday with the presentation of a program by the local public school music department.

The high school chorus, directed by Andrew Loney, sang several selections, as did the junior high school girls' glee club under direction of Lillie Darby. Fred Southwell was chairman of the day.

Erwin Wisenback, Klamath man who escaped from Nazi Europe after his Flying Fortress was shot down, spoke briefly in response to questions from Freeman Schultz, his host at the meeting. He described the parachute jump he made when the ship was hit by flak over western Europe. His father, James Wisenback, was also a guest at the luncheon.

WLB STARTS HEARING ON COAL DISPUTE

from Lewis that the operators had taken "French leave" of the negotiations. Labor is represented on the panel by David B. Robertson, president of the Brotherhood of Locomotive Firemen and Engineers, which, like the UMW, is an independent union. The employer member is Walter White, assistant to the chairman of the business advisory council, department of commerce.

Retracting some of the ground it covered in a brief session last week, the panel announced it was accepting as exhibits a transcript of last month's negotiations in New York. Charles O'Neill began the presentation of the case for the northern Appalachian operators.

During the closed session a member of the staff of the office of war information, Halcolm Ross, was permitted to remain.

FFA ADOPTS HUGE WARTIME PROGRAM

(Continued From Page One)

PORTLAND, May 6 (AP)—Oregon's Future Farmers of America adopted an ambitious wartime food production program today.

They will try to induce hens to lay an average of 18 eggs per month, attempt to keep mortality among baby chicks to 8 per cent, endeavor to produce 180-pound pigs in six months on pasture and 200-pound porkers on grain.

They hope to produce an average of 8 pigs per litter, keep the monthly dairy herd production average above 30 pounds of butterfat and 900 pounds of milk, raise at least 60 per cent of the feed for their livestock and grow a good victory garden.

Tojo Threatens Invasion; Japs Drive On China

(Continued From Page One)

Marshal Sir Archibald Wavell's forces dislodged Japanese troops from a hill near the Maungdaw-Buthedaung road, north of the big enemy base at Akyab, and inflicted casualties on the Japanese in minor fighting.

Infiltration Attempts Despite the imminence of the monsoon rains, when military operations become almost hopeless, the Japanese have been persistently attempting to filter through British defenses in a drive toward the Indian frontier.

On the Australian front, Gen. Douglas MacArthur's headquarters said nine Japanese bombers tried to intercept U. S. Liberators raiding Wewak, New Guinea, but all the bombers got home and one of the enemy was damaged.

Dutch-manned bombers carried out a fire-setting raid on Japanese barracks and the wharf area at Toel in the Kai islands, due north of Australia, and a single Australian flier attacked Timika in Dutch New Guinea.

To Santa Ana—Dr. and Mrs. E. D. Lamb will leave tonight, Thursday, for a week's stay in southern California, meeting their son Calvin, who is an aviation cadet at the Santa Ana air base. They will be in Los Angeles and San Francisco before returning home.

There's a lot of good in some people—because it has never come out.

Incessant Bombing Keeps Jap Airfield Uncompleted

By WILLIAM L. WORDEN

AN ALBUQUERQUE ISLAND BASE, May 2 (Delayed) (AP)—An incessant aerial pounding by American bombs has kept the Japanese from completing the air field that has been under construction for several months on Kiska island.

The bombing pace reached a record rate during April to make the rocky Aleutian island the most consistently bombed spot in the Pacific.

(A compilation from navy communiques shows an even higher tempo for May, with 31 bombing raids in the first three days of the month, bringing to 330 the announced raids since February 1.)

The bombers and fighters—the latter often carrying bombs, too—winged westward on their bombing missions on every April day when the weather permitted.

New Florida Law Gives Husbands Right to Alimony

TALLAHASSEE, Fla., May 6 (AP)—Husbands as well as wives can sue for alimony in Florida if a bill passed yesterday by the state senate is enacted into law.

Such a provision was written by amendment into a bill to give married women the right to manage their own property. The amendment, proposed by Senator Hal Y. Haines of Lake Butler, also would grant "courtesy rights" to a husband when property is left by his wife. They correspond to a widow's dower rights.

Senator Haines said the amendment gives both husband and wife equal property rights, and remarked that if a woman has the same privileges as her husband, "then she should be under the same obligation" in payment of alimony or for the support of their children.

RETROACTIVE PAY HEARINGS SLATED

(Continued From Page One)

have insisted on making September 1 the retroactive date, it was learned, while operators have suggested September 26, a November date, and other dates later than that.

"Little Room for Choice," Says Treasury of Taxes (Continued From Page One) its advantage over the house bill," he added.

Paul said that while the Carlson bill would produce some additional revenue in the fiscal year 1944, "this aspect is more than offset by the factor of inequitable treatment of the 1942 tax."

"The treasury therefore believes that the Ruml-Carlson bill is definitely inferior to both the ways and means committee bill and the house bill," he continued.

In the important aspects of collection at the source and the current tax payment provisions, Paul said "the treasury believes there is little room for choice between the three major bills."

"All three provide for the fundamental change in tax payment methods which is necessary in our tax law," he added.

Air Base Chief Held Following Shooting of Private

SELDRIDGE FIELD, Mich., May 6 (AP)—Headquarters of this army air base announced today Col. William T. Colman, in command of Selfridge field since April 23, 1942, has been relieved of the command and is under arrest at the army's Percy Jones hospital, Battle Creek, Mich., following the shooting of Private McRae a negro soldier.

REDS HAMMER AT ROAD TO NOVOROSSISK

(Continued From Page One)

German forces had frustrated heavy Russian attacks in the Kuban bridgehead, destroying 20 soviet tanks, and that they had halted several sporadic thrusts made by the Russians south of Novorossisk. The broadcast was recorded by The Associated Press.

Two major gains were achieved by the capture of Krymskaya, 17 miles northeast of the former Russian naval base.

Reds Polsed It poised the red army in a position menacing the city and it cut the German-held railway between Novorossisk and Protoka, which is 36 miles northeast of the port. At Protoka the railway connects with a highway that leads westward to the Kerch straits, across which lies the Crimean peninsula. Protoka also is a junction for a railway that runs northward to the Sea of Azov.

Patman Urges Punishment for Production Delay WASHINGTON, May 6 (AP)—Punishment as criminals for those who conspire to delay production in any war plant was urged today by Rep. Patman (D-Tex.) as the house received the senate bill to give official blessing to government seizure of strike-bound war plants.

The senate bill, by Senator Connally (D-Tex.), provides stiff penalties for instigating work stoppages in plants that have been taken over by the government, Patman argued that it does not go far enough.

Liberators Pound Wewak During Lift In Stormy Weather ALLIED HEADQUARTERS IN AUSTRALIA, May 6 (AP)—Pounding opportunely upon a weak, New Guinea, during the briefest lift of prolonged stormy weather, Liberator bombers set a Japanese ship ablaze and left it sinking, today's noon communique disclosed.

The account was a delayed one of a raid which occurred on Tuesday.

Strike Closes Jacksonville Transit System

(Continued From Page One)

JACKSONVILLE, Fla., May 6 (AP)—Public transportation in the Jacksonville metropolitan area, embracing 205,000 persons, was thrown out of gear today when 175 buses of the Motor Transit company ceased operation as the result of a machinists' strike, involving 80 workmen.

The navy used its own vehicles in transporting workers and personnel to the local air station and similar steps were taken by the army air base.

Stalin Wants Independent, Strong Poland
