County Road Supervisor George Perkins was kind enough, when blading the south road past the town dump grounds, to push the cans and debris back to the west side of the grounds so that it is safe to drive in with a car, or pick-up, and unload trash. We are taking the liberty to advise citizens to please refrain from dumping any smelly substance, dead animals or garbage on the grounds or health officers may close the dump. It is advisable to burn or bury any refuse that may contaminate the air around the dump grounds.

A Little Extra Service

Day after day, uniformed men pour into the Union Station at Omaha, Nebraska. They come from New York, Chicago, San Francisco... from Albert Lea, Minnesota... Brady, Montana... and other points from coast to coast.

To them, Omaha is a city of strangers; just a "stop-over" on their way to a destination. So, to help them feel at home, the railroads serving the Omaha Union Station have provided air-conditioned quarters for a recreation room, shower baths, canteen, and first-aid station in charge of Registered Nurses. Local concerns and townspeople have contributed complete equipment and supply refreshments daily. Volunteer workers give generously of their time. Day and night, a neon sign displays this greeting—"Service Men's Center—Everything Free."

This is a small thing as compared, for example, to the vital job the railroads are doing in transporting war materials and troops. But it is one way in which we on the home front can give a little extra service to our men who are fighting for their Country.
