## STEELS CLOSE MARKET WITH BRISK RUNUP

By VICTOR EUBANK  
NEW YORK, May 19 (AP)—A further general advance in stocks today was topped off by a brisk runup in the steel shares near the close.

A collection of high priced chemicals and other blue chips, including American Telephone, were the pace makers during much of the session. These moved ahead fractions to around a point and in a few instances 2 to 3.

Coming to life near the final hour, U. S. Steel and Bethlehem quickly extended minor gains by a good margin. Rails also picked up substantial ground approaching the finish.

There was a considerable expansion in volume on the upturn to approximately 1,500,000 shares after two sessions of less than a million.

A number of stocks reached new highs for a year or longer, among them Air Reduction, Du Pont and Eastman Kodak. Other prominent gainers included Chrysler, Goodyear, Allie Chemical, J. C. Penney, Loew's, Youngstown Sheet and North American. Case jumped more than 3 on light transactions. Nickel Plate Preferred, Santa Fe and Great Northern scored the widest advances among carriers.

Bonds were steady with rails working up spiritedly near the end.

## Whitelaw to Head Social Workers

PORTLAND, May 19 (AP)—John M. Whitelaw, executive officer of the defense health and welfare unit of the Multnomah county civilian defense council, is new president of the state conference on social work.

Other officers elected at the group's closing session yesterday: Ruth Newton, supervisor of the state welfare commission training unit, vice president; Jeanne Jewett, welfare commission staff assistant, secretary; Charles E. Royer, supervisor of the Catholic charities social service bureau, treasurer.

Miss Newton, named vice president of the state conference on social work, is the daughter of Mr. and Mrs. Almo Newton of Tulelake, and well known in Klamath Falls.

Remember the good old days when girls made poets out of men instead of rubbernecks?

### WHEAT

CHICAGO, May 19 (AP)—Grains weakened in the closing half hour today as fairly substantial liquidation came into the oats pit, erasing gains which at one time had extended to about a cent. The late selling was based on reports another steamer carrying oats from Canada had arrived here.

Selling of oats spread to wheat and rye, which had been steady earlier in the session. Interest in the market was light and the late liquidation uncovered an absence of bids. In the past two weeks, 4,223,419 bushels of oats have been loaded in Canadian ports for shipment to this country.

At the close, wheat was 1-1c lower, May \$1.44, July \$1.42-1, corn was unchanged, May \$1.05, oats dropped 1-1c and rye was off 1-1c.

Using as a basis the published minimum truck rates for Washington, the OPA set prices in accordance with mileage and the grade of road over which the logs are hauled.

Starting with a base rate of \$1.06 per thousand board feet of logs, the sliding scale per thousand feet per mile is:

Class A roads, 8 1/2 cents; Class A-1 roads, 9 1/2 cents; Class B roads, 13 cents; Class C roads, 16 cents, and Class D roads, 27 cents.

At the same time the OPA announced bonuses for extra length No. 1 and No. 2 sawmill logs in all species and in Douglas fir peewee logs, over 41 feet.

The following amounts may be added to the regular price per thousand feet: 42 to 50 feet, \$1; 51 to 60 feet, \$2; 61 feet and over, \$3.

These long-log additions may not be made, however, the OPA pointed out, on aircraft grade logs, peeler logs, Douglas fir special logs, Ponton logs and No. 3 logs, or logs sold on a camp run basis.

In a third change in the regulations, the OPA established at \$45 per thousand feet log scale the maximum price for Douglas fir ponton logs actually allocated by the war production board in all districts except the southern Oregon-Tillamook district where the maximum price is \$43.

The new price may be used only on logs actually allocated by the WPB for manufacture of ponton lumber. This is a special grade of lumber used almost entirely by the army for the making of ponton bridges. Ponton is the French for pontoon and is used in the U. S. army in all its specifications.

## LOG DELIVERY PRICE MARKS SET BY OPA

WASHINGTON, May 19 (AP)—The OPA established yesterday delivery price ceilings, effective next Monday, for west coast logs to destinations other than in towable waters in Washington and Oregon.

Using as a basis the published minimum truck rates for Washington, the OPA set prices in accordance with mileage and the grade of road over which the logs are hauled.

Starting with a base rate of \$1.06 per thousand board feet of logs, the sliding scale per thousand feet per mile is:

Class A roads, 8 1/2 cents; Class A-1 roads, 9 1/2 cents; Class B roads, 13 cents; Class C roads, 16 cents, and Class D roads, 27 cents.

## CITY BRIEFS

**In Training**—Word has been received from Charles Race, former principal of the Fort Klamath schools, who is now on the east coast taking naval officers training. He has resigned from the system for the duration and Mrs. Race, who is with her husband at this time, expects to return in the fall and will be connected with the county system. She has also taught at Fort Klamath this past year.

**In Eugene**—Mr. and Mrs. H. C. Sharp are spending a short vacation in Eugene, and expect to return here within a short time for the remainder of the summer. Mrs. Sharp has served as principal of the Keno schools and will be located at Bly this coming year. Mrs. Sharp has also taught at Keno and will be at Bly.

**Logging**—George Elliott, who has served as principal of the Bly schools and will be at Merrill in that capacity this year, plans to spend the summer months logging in the Bly area. E. E. Kilpatrick, who has resigned from the county system as Merrill principal, has gone into farming.

## MRS. BRYAN RESIGNS AS MILLS PRINCIPAL

Mrs. Agnes Bryan, for many years identified with the elementary school system, submitted her resignation to Superintendent Arnold L. Gralapp early Wednesday. Mrs. Bryan will reside in Berkeley, Calif. She has served as principal of Mills school since 1922.

Mrs. Bryan came to the city school system in 1915, and her first assignment was at Riverside where she taught the fifth grade for two years. She moved to Mills in 1917, and served as principal and fifth and sixth grade teacher. She did not teach from 1918 to 1920, and upon her return in 1920, was assigned to old Central school for a period of two years. In 1922, she moved to Mills school where she has been continuously since that time.

A tribute was paid Mrs. Bryan for her long years of service by Superintendent Gralapp, when he said that she had "served as principal at Mills school very efficiently and her retirement from the system will be deeply felt."

Gralapp said assignments of principals to the seven city schools would not be made until later in the summer.

Roller skates come with the summer, and the fall will come with the roller skates.
