

# NEWS WORRIES INSPIRE STOCK PROFIT TAKING

By VICTOR EUBANK  
NEW YORK, May 20 (AP)—Stock market in-and-outers today found enough news worries to inspire profit-taking on the two session upswing and early gains running to a point or more were reduced or converted into losses near the close.

The most hopeful element, from a bullish standpoint, was that selling never was urgent. Turnover was around 1,300,000 shares.

Among excuses for lightening commitments here and there was the spread of walk-outs in soft coal mining districts in the face of official extension of the union labor trouble. Chilling also were sporadic strikes in other fields. Offsets were seen in a revival of investment demand for high-grade stocks.

Among stocks posting top marks for the year or longer—some finally backed away—were Nickel Plate Common and Preferred, Texas Co., Loew's, Warner Bros., Air Reduction, Westinghouse, Dow Chemical, Omnibus, Sears Roebuck and Union Carbide. Occasional declines were shown for U. S. Steel, Bethlehem, Chrysler, General Motors, Santa Fe, Sperry, International Harvester, Allied Chemical, Western Union and American Smelting.

# LAWYER TELLS OF FUTURE AT KIWANIS CLUB

A three-pronged program for the period lying just ahead was proposed by R. C. Groesbeck, local attorney, in a talk to the Klamath Kiwanis club Thursday noon.

His major emphasis was on: 1. Win the war. 2. Maintain free enterprise. 3. Maintain the functions of popular government.

Groesbeck argued against the encroachment of government into the field of free enterprise, asserting that too often regulation, which is necessary and proper, is expanded into an invasion into management.

He asserted there are leftist planners whose rosy schemes will be pressed fervently when the war is over, to the detriment of free enterprise and the competitive system which have built the country.

The speaker also warned against a tendency to continue "government by directive." "That sort of thing is all right in war time," he said, "but once it is established it will be difficult to stop. If it continued into the period of peace, we will have a totalitarian or dictatorial form of the government. We must keep our country so that your voice and mine can be heard right through to the top. We must protect the functions of popular government."

# RAF Bombs German Dam, Looses Floods on Industrial Areas

In one of the most daring and destructive blows of the war, the British royal air force bombed and broke two great German dams supplying power for the Nazi Ruhr and Eder industrial areas and unleashed millions of tons of water that swept in waves down the two valleys. Shown here is the Eder dam, near Waldeck, which was blasted by big British four-motored bombers.

Workin' on the Railroad

It may be dated, but it's mighty useful. Three soldiers push this small steam locomotive on a turntable at the end of the line on an island in the South Pacific. Constructed in 1910, this narrow-gauge line had been abandoned, but now hauls Army supplies.

## TWO ORPHANED TRAINS WANDER THROUGH FLOOD

CHANUTE, Kas., May 20 (AP)—Two orphans of the flood—a couple of passenger trains trying to get from St. Louis to San Antonio—wandered on from Chanute today in their roundabout odyssey, hopeful of achieving their destination in the near future.

The two trains—the Frisco Meteor and the Katy Texas Special—left St. Louis Monday night on a journey that normally would have put them in San Antonio the following night.

But then came the floods in Missouri, Kansas, Oklahoma and Arkansas and today found the iron horses still plodding around through Kansas, far from home. The two trains, carrying nearly 1000 passengers, mostly soldiers on leave, panted into Chanute last night on the Santa Fe tracks and put up for the night.

Tuesday they were at Parsons, south of Chanute. They then

# WHEAT

CHICAGO, May 20 (AP)—Flood news provided some bullish enthusiasm for grains today and prices advanced moderately, although inability to estimate the extent of crop damage served to limit buying. Wheat was in good demand and paced the upturn.

With trading in May contracts ending tomorrow there was considerable short-covering in May wheat, and that contract was up more than a cent at times. Rumors that flour ceilings might be advanced and reports the government had bought some cash wheat locally for distilling use aided the advance.

At the close, wheat was 1-1/2c higher, May \$1.45-1/2, July \$1.43, corn was unchanged, May \$1.05, oats were 1c lower to 3c higher and rye was up 1-1/2c.
