FIRE DESTROYS HENLEY HOME ON WEDNESDAY

HENLEY—The home of Mr. and Mrs. Harold Slaughter was destroyed by fire of undetermined origin late Wednesday afternoon.

Mrs. Slaughter succeeded in rescuing their infant sons, Don and Jon, and little daughter, Bonnie. Another son, Robert Murphy, was burned on the neck and ears when a part of the burning garage fell on him. The family car was also burned as well as all household and personal belongings.

The family is staying at the home of Mrs. Slaughter's parents, Mr. and Mrs. R. C. Short, until other living quarters can be arranged.

A miscellaneous shower will be given for the family at the Henley schoolhouse Wednesday afternoon at 2 o'clock. Everyone is invited to attend.

At this time recommendations will be heard for an antelope and deer season, and whether or not we are to have an open season on does.

Monday was the first day of the May term of the circuit court. Judge Combs called the docket and found several cases ready for trial. However, owing to the late season and the fact that the farmers have not finished planting the spring crops, the judge fixed June 21 as the time for holding a jury term of court. This date seemed to be most desirable as it will come before haying and late enough to all the planting of the spring crops.

Irrigation water was turned into the south Drew's canal on May 14, and into the north canal on May 15, according to Harry Sandquist, manager of the Lakeview Water Users corporation. Farmers, particularly south of the Lakeview-Klamath Falls highway, are urged to check the soil moisture conditions in their alfalfa fields. North winds experienced during the last month have dried out the soil at a rather alarming rate and many fields should be irrigated immediately. S. R. Hanson, president of the Water Users cooperative, started irrigating his alfalfa the fore part of the week.

Hal Johnson, rancher and cattle buyer of Winnemucca, Nev., was injured Monday afternoon in

the stockyards at Willow Ranch when a bull rushed in, knocked him to the ground and pinned him there until Golden Coffin was able to affect a rescue. Coffin had just got Johnson to the stockyard fence when the bull again charged, but they were able to get out of his reach. Johnson was immediately rushed to Lakeview Public hospital and is reported to be recovering in a satisfactory manner.

KEEP OREGON GREEN NAMES KLAMATH MEN

Reaching into nearly every Oregon county and into many walks of life, Governor Snell this week has selected 75 state leaders to serve on the general state-wide Keep Oregon Green committee and three working or policy forming committees. The main idea is to enlist the support of every man and woman in Oregon to help prevent careless, man-caused fires in our valuable forest lands.

Selected from this county are Mrs. E. D. Lamb, H. H. Ogle, V. E. Reeder, and Walter Wiesendanger, all of Klamath Falls.

"This year we must keep smoke from our skies," the governor stated as he picked the men and women on whose shoulders will fall the responsibility of reducing man-caused forest fires to the zero point. "Smoke from forest fires would make an ideal smoke screen to cover enemy attack on our state, and would likewise keep our eyes of the airforce from reconnaissance."

Know How Justice Works In Axis-Land?

Well, one man is judge and jury over there. One Nazi gang—his personal political party—runs everything. Business, religion, education—all human activities are under the same political management. What they tell you to do, you do. If you go to the police, they are the police. If you go to court, they are the court. The cards are stacked against you. You haven't got a chance.

Today, we're battling that brutal system for all we're worth—to prove that our way of life is better—a way of life which respects the rights of individuals, allows them to work, create, and live their own lives—in freedom.

Here is a boy who starts as a core-maker's helper in a steel mill, and becomes president of his company. Here is a girl who learns to sew and becomes a famous dress designer. Here is a man who enters government service and becomes a cabinet member. All of them advanced by their own ability and initiative. That's the way it ought to be. It's right, and fair, and just.

It's the business of business men to run our industries. It's the business of public officials to regulate them in the interest of the people. Yes, it's a great system, this American business management. It's great because it works. It works so well that right today America leads the world in many things, and one of them is the production of electric power.

There is no substitute for War Bonds, either!
