SIDE GLANCES

Don't misunderstand me—I'm hanging this hammock here by the garden so I can see a weed as soon as it appears and pounce on it!

LOGGERS GET ADDED RATION OF MEAT, FISH

WASHINGTON, May 24 (AP)—Extra meat and fat rations for loggers, miners, fishermen, shepherders and others remote from fresh food supplies were announced today by the Office of Price Administration.

This is the equivalent of better than a 75 per cent increase in the 16 points a week received by the ordinary civilian. If used for hamburger, it would command more than 2 1/2 pounds a week. The decision came after weeks of wavering by OPA and strong pressure from mining and logging areas where workers were reported quitting because meat rations assertedly were inadequate to sustain them.

Today's Roundup

WORKERS were returning Monday to four important Akron, O. war rubber plants, after a stoppage resulting from a protest against a War Labor Board decision.

War production is such an immense activity, carried on by millions of workers in thousands of plants, that the effects of single interruptions, due to strikes, inefficiency, management mistakes, absenteeism, or any cause, may seem small, indeed.

Names for the Memorial
The gleaming white shaft that is Klamath's memorial to its war dead is now virtually completed.

A permanent memorial for the dead of this war will be planned later. But the shaft now completed was wisely conceived; it is most appropriate and community appreciation should go to the committee which worked on it.

Mrs. Isabel Brixner of Klamath Falls is the new president of the Oregon Federation of Business and Professional Women's clubs. It is an honor that does Mrs. Brixner justice, and it's a cinch she will do the job justice.

News Behind the News

WASHINGTON, May 24—The devious Mr. John L. Lewis figured out a smooth one when he filed application to return to the American Federation of Labor just at this time. His role was far from that of a penitent returning to the fold.

Tobin and Lewis
MR. TOBIN is supposed to have political control of the executive council. His teamsters are the key union in it, and their affiliates in the building trades, etc. give him, the friend of the president, a probable majority vote in most matters.

AFL Wants Him
THE Lewis smoothness, therefore, seems to have been ruffled and partly upset by the president as far as bringing the AFL to the help of Lewis in the current strike or general political situations.

CHASE ON TAXATION

KLAMATH FALLS, Ore. (To the Editor)—I have not bothered you or the public with any of my opinions for several weeks, but at this time I very much desire further opportunity of free speech through your paper about the much discussed income tax proposition. In the first place, there is a general misconception about this "pay-as-you-go business."

Great Northwest Yields Lumber for Bombers

Wood for war is rolling out of the great Pacific northwest forests, including those of Canada's Queen Charlotte Islands, which supply spruce for RAF Mosquito bombers. Here two riggers wave from the top of a 250-foot spruce after trimming the top branches. Swinging an ax to beat the axis, right, is husky lumberjack Ollie Brackoo.
