GERMAN WAR INDUSTRY HIT

(Continued From Page One) Duesseldorf, both described as "of very great strength." Continues

The offensive was continued by daylight today, RAF fighters sweeping out at dawn toward northern France.

At Jens, the speedy Mosqui-toes struck chiefly at the Carl-zelss instrument factory and the Schott glass works. First re-ports said both were sharply damaged. The works are rated as the most important of their kind in Germany.

Mosquito Raid

Darting out 500 miles from
their British bases, two formations of the Mosquitoes reached Jena just before dark and swooped down through a bal-loon barrage to 200 feet to make the attack despite intense op

position from ground guns.
Three bombers were lost.
British fighters on patrol aweeps over northern France and Belgium soon after dusk last night destroyed two enemy fighters and shot up communi-cations targets. One pilot was credited with attacking two locomotives, bombing canal lock gates, damaging two tugs and a barge and strafing a contingent of German troops.

Britain passed the night with-

out a single assault.
