PEACE STOCK

**BUYING MAKES** 

MARKET BRIGHT

By VICTOR EUBANK NEW YORK, May 29 (P)— Buying of peace stocks contin-ued to give the market a bright

appearance in today's brief preholiday session.

While the list had to contend

with further profit taking on the lengthy advance to 3-year peaks, this was absorbed in most cases without a great deal of unsettlement. Short covering

helped prop most departments.

Blocks of low-priced issues ran to 20,000 shares for Commonwealth & Southern which held around Friday's quotation

of \$1. Gains of fractions to a

point or so, with assorted fav-orites in new high ground since

early 1940 were in the majority near the close. Transfers ap-proximated 600,000 shares.
