Algiers became in effect the provisional capital of France.

LONDON, May 31 (A)—The French naval squadron at Alexandria came over to the allies voluntarily following negotia-tions with Gen. Henri Giraud, it was officially confirmed here

These sources said the Vichy charge that the squadron had been starved into submission was "quite untrue." The report of the fleet joining the allies was first broadcast yesterday by the Ber lin radio.

The squadron has been tied up at the Egyptian naval base since the fall of France in June, 1940, under an agreement between the British and French Vice Admiral Rene Emil Godfroy.

It consists of the 20,000-ton

battleship Lorraine, the heavy cruisers Duquesne, Tourville and Souffren, the light cruiser Du-guay-Trouin, three destroyers and a submarine.

There was no comment on German reports that the squadron would join the 35,000-ton battle-ship Richelieu, which arrived in the United States for repairs last

tended once before, March 18, until midnight tonight. Government officials, it is known, have been watching the negotiations closely and are prepared to step in if a favorable "break" does not develop today.

HARLAN, Ky., May 31 (R)— More than 800 coal miners walk-ed out of four southeastern Ken-

tucky soft coal mines today. Ed Bean, United Mine Work-ers representative at the Harlan office of District 19, said the men were dissatisfied because no agreement had been reached at the Washington union-operator conference.

George Ward, secretary of the Harlan County Coal Operators association, said he feared there would be no mine work done in the county tomorrow unless word of an agreement reached here by 3 p. m. today. He explained that it would be difficult to get word of an agreement to all the miners if an announcement were made later than that hour.

Tokyo Idealizes Defeat

A subsequent Tokyo broad-cast, seeking to idealize the de-feat, asserted that "Japanese troops launched the final attack on Attu after shouting 'Banzia' for the emperor and making bows toward the imperial palace in Tokyo." The broadcast told of gaps developing in Japanese ranks until "only a few more than 100 men remained and they sent a message to Tokyo 'remem-bering the honor of Japanese soldiers, we are going into the fight and only death can take our weapons out of our hands."

Greater Force

It was indicated that the enemy force was far greater than the "few more than 100" men tioned by Tokyo, for the navy declared "preliminary reports indicate that the Japanese casualties were high."
Soldiers unable because of ill-

ness or wounds to take part in the final offensive killed themselves, the enemy radio said, add-ing that every man who could fight died willingly rather than "bring disgrace to his name."
