

# 13 KLAMATH STUDENTS ON DEGREE LIST

OREGON STATE COLLEGE, Corvallis, June 4—Among the 698 students receiving degrees in this college's second war class at the 74th annual commencement May 29, 13 were from Klamath county. Of these, eight were from Klamath Falls, two from Malin and one from Merrill.

The commencement exercises this year combined the graduation ceremonies, a brief formal inauguration for President A. L. Strand, and an observance of the 75th year in the development of Oregon State college. Even with the wartime reduction in student enrollment, the graduating class was one of the three or four largest in the institution's history.

Of those receiving degrees, 551 have completed the regular four-year courses for various baccalaureate degrees, while 57 received master's or doctor's degrees. Almost the entire number of men graduates this year will go directly into some form of military service, while the few remaining will all have places in advance that will be directly or indirectly connected with war industries. All senior ROTC graduates will receive commissions after brief specialized training. Those from Klamath county follow:

Alene Morris Williamson, Klamath Falls, received a master of science degree with a major in household administration. A 1926 graduate of Montana State college, her thesis was entitled "Attitudes of 100 High School Seniors Toward Preparation for Marriage."

Bachelor of science degrees in agriculture were received by Fred D. Peterson, Klamath Falls; Ray W. Drake, Malin, and Lawson L. Kandra, Merrill. Among the graduates in the school of engineering to receive bachelor of science degrees were Fred B. Sparks, William L. Wales Jr. and Deril T. Webb, Klamath Falls.

Jean Thompson, Klamath Falls, received a bachelor of science degree from the secretarial science department and Bob W. Cowbrough, Sprague River, obtained the same degree from the school of forestry.

Lettie E. Stewart, Klamath Falls, and Barbara Jane Grafton, Malin, also received bachelor of science degrees. Miss Stewart earned her degree in home economics and Miss Grafton in science.

Klamath county students received two bachelor of arts degrees. Margery Bell Johnson, Klamath Falls, earned one with work in science and Don B. Rice, Chiloquin, obtained one from the same major school.

Labor in Germany today, labor in conquered Europe today, is crucified. The once free worker of a once free Germany and Europe is now nailed to the crooked arms of the swastika cross.—Gerhart H. Seger, former Reichstag member.

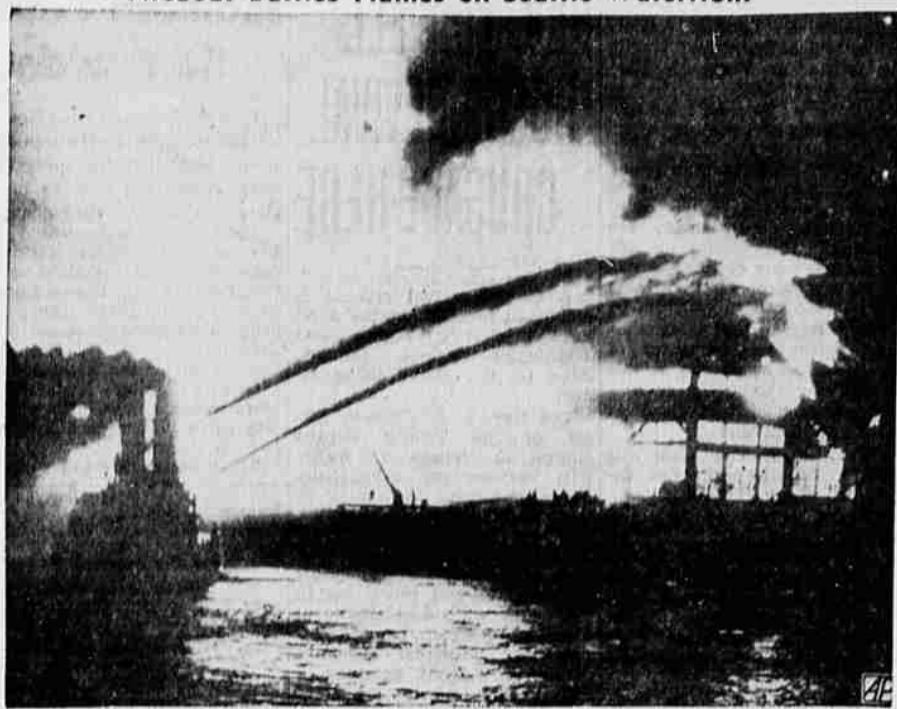

## What You Buy With WAR BONDS

All the safeguards which the ingenuity of our War Staff can devise are thrown about our troop transports. Hundreds of ships, loaded with thousands of men are being moved overseas to distant battle fronts. And when our boys step aboard transport ships their pay steps up 20 percent. War Bonds and War Taxes must provide that pay.

If you thought your purchase of an extra War Bond would save the life of one of these boys, you'd do it wouldn't you? And it is your War Bond purchases which give them the equipment to win a victory for Freedom. Buy that extra Bond. "You've Done Your Bit, Now Do Your Best." U. S. Treasury Department

## Fireboat Battles Flames on Seattle Waterfront

A fireboat (left), threw streams of water on the three-alarm fire which roared through three war-industry plants in Seattle's south end, in a blaze that fire officials estimated, would cause damage of hundreds of thousands of dollars.

## Light New Army Carbine Patterned Like Bee-Bee Gun

By HAROLD C. MCKINLEY  
PORT CLINTON, O., June 4 (AP)—The bee-bee gun, a toy with which most American boys have riddled empty tomato cans, provided ordnance and industrial gun designers with the idea for one of the army's newest weapons.

The new firearm—a vicious little 30-caliber carbine combining lightness, fire-power and accuracy up to about 2000 yards—was demonstrated to newsmen for the first time today by the war department's Cleveland ordnance district. Production is nearing full scale at the Standard Products Co.'s plant in this Lake Erie town.

The carbine is a short-bar-

reled rifle, only 36 inches long. It weighs less than six pounds, including strap and cartridge clip. That's about three pounds lighter than the Garand.

It spits 15 high-velocity slugs from one clip with deadly accuracy. The velocity of its bullets at ten feet from the muzzle is 1900 feet per second, ranking next to the Garand rifle's 2675 feet per second, and considerably above older types of hunting rifles which ranged less than 1800 yards.

"In combat, it has been the best weapon for the individual ever turned out," says Col. Forrest C. Shaffer, commanding officer of nearby Erie proving ground.

"The Carbine is especially

## Oregon Coal Fields May Be Operated as Emergency Measure

PORTLAND, June 4 (AP)—Preliminary examination indicates Coos county's coal deposits may be developed as an emergency fuel source, Director Earl K. Nixon of the state department of geology and mineral industries reported today.

The Coos deposits, in the Coquille area, contain about the same grade of coal as mined in Washington—better than lignite, inferior to bituminous, Nixon said.

**TRANSPORTATION POWER**  
A river with a current flowing six miles an hour has a transportation power 720 times greater than a river flowing two miles an hour.

good for jungle fighting. A soldier can carry four or five times as much ammunition for this gun as he can for the Garand. It's very effective at short range, having greater accuracy than the 45-caliber pistol which is handled expertly by only a few men at ranges over 50 feet."

# SAVE MORE by SHOPPING at Firestone

**"B" & "C" BOOK HOLDERS CAN NOW BUY NEW Firestone TIRES**

Yes sir, you are eligible to purchase Grade I Tires if you have "B" or "C" gasoline books and rations for more than 240 miles per month, provided your present tires can no longer be recapped! You just can't buy a better tire than the famous Firestone DeLuxe Champion—it's packed with thousands of extra miles—and it's so tough and rugged that it can be recapped time after time.

Come in and let us help you make application for a rationing certificate—and when you buy, buy the best, Firestone!

## Now! YOU CAN HAVE YOUR TIRES RECAPPED

No Rationing Certificate Required

For longest mileage and guaranteed quality, have your tires recapped by the Firestone Factory-Controlled Method. No rationing certificate is required. Factory-trained experts will do the job.

**KEEP 'EM SHINING**
