

# REDS BATTLE NAZI RAIDERS ABOVE GORKI

MOSCOW, June 9 (AP)—Dramatic acts of heroism have been performed night after night by red army pilots who have roared into the milky "white night" above Gorki to protect that vital munitions center from German raids, dispatches from that thrice-bombed city said today.

The dispatches, describing the third raid in five nights on the production plants 250 miles east of Moscow, said seven enemy bombers were shot down and that dwellings had been damaged.

(The Moscow dispatch did not say when the last raid was made, but German broadcasts recorded in London said the big "Molotov" tank factory there was last raided Monday night. Aerial reconnaissance had shown the factory "almost completely destroyed," and Monday night's raid completed the destruction, said the broadcast.)

Long-range Russian bombers retaliated immediately for the Gorki attacks, smashing at enemy airbases northwest of Bryansk where German planes, ammunition dumps and supplies were reported destroyed.

Land fighting along the vast front was confined to feller stabs and softening-up blows from heavy artillery as the opposing air forces continued to drive home blows expected to pave the way for the start of the 1943 offensive.

(The German high command asserted today that Russian forces had suffered heavy losses in the lower Kuban during the past fortnight and indicated that fierce soviet attacks were continuing there.)

(Its communique, broadcast from Berlin and recorded by the Associated Press, said that in addition to heavy losses in men, the Russians lost 100 tanks and 350 aircraft.)

(It said the Russians attempted to land forces behind the German lines yesterday, but that nazi planes sank 47 soviet landing boats off the east coast of the Sea of Azov.)

(Neither the midnight nor midday soviet communique, which were recorded at London by the soviet monitor from Moscow broadcasts, mentioned fighting there.)

**SIGHTED SAME**  
MIDLAND, Tex., (AP)—Navy Coxswain Tom Cain arrived on the saddest mission of his life—that of telling the parents of his old buddy, Bill Cottrell, that Bill was being dead.

He had watched Bill's ship go down in the Pacific. As he got off the bus, he ran into Bill.

Sooty terns, carried in the holds of ships to a point 1000 miles away, returned to their nests within five days.

### ME CONSTIPATED? NO LONGER!

Boy, how fed up I used to get with myself! I just wasn't any good. I used to use medicinal laxatives. But my constipation came back just the same. Then I found out why—it was due to lack of "bulk" in my diet!

So—I began eating KELLOGG'S ALL-BRAN regularly and drinking plenty of water. That swell cereal got right at the cause of my constipation and corrected it! It helped me "Join the Regulars!" Maybe it could help you, too. Ask for it at your grocer's today. ALL-BRAN is made by Kellogg's in Battle Creek, Michigan.
