## DOWN TREND STOPPED IN LATE TRADE

By VICTOR EUBANK  
NEW YORK, June 9 (AP)—Motors and steels turned resistant in the final minutes of stock market dealings today and many prominent shares finished slightly ahead after running behind much of the day.

The main trend had been irregularly lower through the greater part of the session with only occasional spurts.

While the majority of investors continued cautious pending more definite news from invasion fronts, some buying apparently was deemed in order in view of a marked lightening of selling pressure.

Transfers were at the rate of about 800,000 shares. Price changes were narrow at the last.

Farm equipments were among resistant issues but did little.

Backward most of the way were Goodrich, Montgomery Ward, United Aircraft, American Can, General Electric, Standard Oil (N.J.), Santa Fe and New York Central. Ahead at times were Chrysler, U. S. Steel, General Motors, J. I. Case, American Telephone and Texas company.

In a mixed curb Cuban Atlantic Sugar and Arkansas Natural Gas "A" stumbled while Lehigh Coal and Navigation edged upward.

### LIVESTOCK

**SAN FRANCISCO, June 9 (AP-USDA)**—Cattle: 50. Nominally weak, past two days steers 50¢ lower, few cars medium to good 119¢ lb. fed steers \$14.00-14.75; medium to good heifers and range cows unchanged; medium sausage bulls \$10.00-11.00. Calves: none. Nominal.

Hogs: 225. Generally 25¢ lower; bulk good 200-240 lb. barrows and gilts \$14.35; odd good sows \$13.25.

Sheep: 700. Steady; deck choice 91 lb. spring lambs \$15.00, deck medium 69 lb. spring lambs \$13.50, few decks shorn lambs \$12.00-13.00.

**CHICAGO, June 9 (AP-USDA)** Saleable hogs 14,000; total 28,000; generally 10-20¢ lower than Tuesday's averages; bulk good and choice 180-360 lbs., \$13.80-14.00; few choice lots \$14.05-10; extreme top \$14.10; most good and choice 150-180 lbs., \$13.00-85; sows 15-25¢ lower; bulk good 360-550 lb. sows \$13.50-75.

**Saleable cattle 7000;** saleable calves 700; generally steady market on all grades fed steers; both local and outside buying interests in trade; bulk \$14.75-16.50; early top \$16.00; but several loads held above \$1.00; stock cattle firm; replacement buyers competing with killers at \$15.25 down; heifers weak to 25¢ lower, mostly 10-15¢ off; comparative supply largest of week; bulk \$14.00-15.75; \$16.50 bid on choice offerings; hardly enough cows here to make a market; scattering supply firm; mostly on outside account.

**Saleable sheep 2000;** total 3500; fat lambs fairly active; just good to choice fed western clipped lambs with No. 1 and 2 skins \$14.25-15.25 paid for five decks strictly good to choice 102 lb. Iowa-fed lambs; spring lamb quality plain; few just good to choice 70 lb. weights \$15.75; nothing strictly choice offered; few late Tuesday \$16.25; sheep about steady; choice shorn native ewes \$6.00 down; few at \$7.50 and under.

### Oats Contracts Hit Season Highs

**CHICAGO, June 9 (AP)**—A report that the Dominion shipping board of Canada had prohibited the use of ships for transporting any grain except wheat into the United States brought good demand into the oats pit today and all contracts rose to new seasonal highs. The July delivery sold at a peak since 1928.

Strength in oats was reflected in wheat and rye, although gains were held to moderate proportions. Houses with northwestern connections were on the buying side of wheat, which firmed following reports several large eastern chain bakeries were in the market for more than 100,000 barrels of spring hard and soft wheat flour.

At the close wheat was 1-1/4, July \$1.45-1.46, September \$1.45-1/4, corn was unchanged, July \$1.05, oats were ahead 1-1/4 and rye was up 1-1/4.

### LEGAL NOTICES

#### NOTICE OF HEARING OF FINAL ACCOUNT

Notice is hereby given that John N. Adams, executor of the Last Will and Testament of R. Paul Roberts, deceased, has filed his final account of the administration of said estate and that July 12, 1943, at the hour of 10:00 o'clock a. m., in the Circuit Court room in the Court-house in the city of Klamath Falls, Oregon, has been set as the time and place for hearing objections thereto.

## WOOL SUPPLY IMPROVES TO MEET NEEDS

WASHINGTON, June 9 (AP)—Prospects of avoiding clothing rationing brightened noticeably today with the war production board's decision to double the amount of wool that may go to civilian wools and worsted fabrics.

Barring difficulties with manpower and machinery shortages, both described as "serious obstacles," WPB said that the improved wool supply picture guaranteed sufficient raw material to meet all essential civilian and military needs.

The clothing produced, moreover, will be warm and long-lasting, for WPB yesterday eliminated the provisions that made part of each manufacturer's wool supply contingent on his mixing the fiber with rayon, cotton or other substitutes.

**Situation Reverses.**  
It appeared that the textile situation had reversed itself, and that the rayon and cotton which WPB a year ago was urging manufacturers to blend into their fabrics to stretch the wool supply now appears likely to become scarcer than wool itself.

Some officials said there was virtually no danger of rationing this year and possibly not for the duration. The pinch in rayon will not become severe until next year, when soaring military demands for super-duty rayon cord for synthetic rubber tires will cut deeply into civilian supplies.

A. D. Whiteside, WPB's director of civilian requirements, already has voiced a conviction that the country can get by without clothing rationing which, because of the bleak outlook, probably would have been ordered into effect last year if rationing machinery then had been adequate.

**Australian Wool.**  
Meanwhile, however, unexpectedly heavy shipment of wool in munitions boats returning from Australia—a continent which appeared last spring likely to be lost to the Japanese, or at least cut off from shipping connections—and careful conservation of the domestic wool clip have boosted the raw wool stockpile to about 1,800,000,000 pounds, greater than ever before.

Wool growers' spokesmen have estimated that this huge stockpile and the U. S. clips in 1944 and 1945 would meet this country's entire wartime needs until January, 1946, without any imported wool arriving at all.

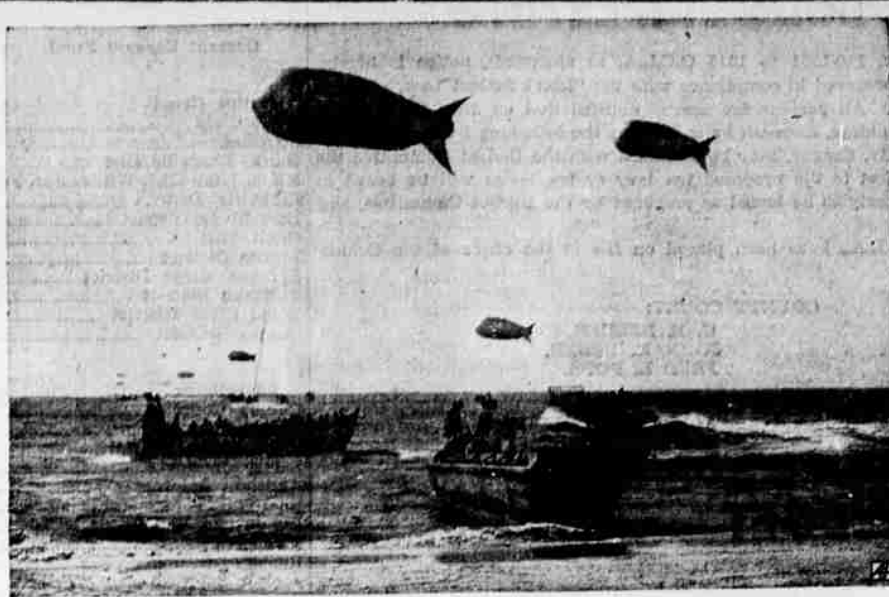

### Potatoes

**CHICAGO, June 9 (AP-USDA)** Potatoes, arrivals 40; on track 53; total US shipments 1017; supplies very light, demand very good and exceeds available supplies; market unsettled and confused; California Long Whites 100 lbs. sacks US No. 1 and commercials \$4.25; Louisiana Bliss Triumphs Victory grade \$4.00-10; Mississippi Bliss Triumphs Victory grade \$3.90; Oklahoma Bliss Triumphs generally good quality \$4.10.

Rubber chemists say the tires made within the last five years were so good that they could stand in a garage for four years or more without the deterioration amounting to more than 15 per cent.

A tire overshoe made from brake lining asbestos is being used by a New York man apparently with satisfactory results.

Indians are less "taste-blind" than white people.

PORTABLE AIR PROTECTION—Army Amphibious Engineers tow low altitude barrage balloons during Florida maneuvers. Balloons prevent strafing by enemy aircraft.

OVERSEAS TOGS—Neva and Vilma Verner (left to right) model the first official overseas U.S.O. Camp Show uniforms for entertainers of the U. S. armed forces in battle areas. Neva wears the dress suit and Vilma a slack suit.

## Neva Goeller Joins WAVES, Awaits Call for Training

Neva Nannette Goeller, 125 Pine street, Klamath Falls, has enlisted in the WAVES, women's service of the U. S. navy, and is awaiting assignment to a training school at one of the nation's leading colleges. It was announced here today by Recruiting Specialist D. T. Schrieber, in charge of the U. S. Navy Recruiting substation here, which handles applications for both WAVES and SPARS in the Klamath Falls area.

Miss Goeller was formally sworn into the WAVES at the Portland branch. She completed her final tests with an outstanding record.

On reporting to the WAVES indoctrination school, to which she will be assigned soon, Miss Goeller will receive a \$200 allowance for the stylish WAVES uniform, creation of Mainbocher, the famous designer. There she will begin her work of learning the job of replacing a navy man for active service at sea. On completion of this indoctrination training she will be assigned to advanced school for specialized work or to active duty at a U. S. navy station. Her scale of pay starts at \$132.50 a month, including allowances, and she will be eligible for advancement to higher ratings paying up to \$220.50 a month.

In 1938, Miss Goeller gradu-

ated from Klamath Falls Union high school. She attended Southern Oregon College of Education from 1938 to 1940. She was a member of the Dramatics club, Glee club, Hiking club, and served as president of Gamma Delta sorority.

For the past three years, Miss Goeller has been an elementary school teacher, teaching the second grade and music for all grades at Altamont school.

For the past year, Miss Goeller has handled an important war job here, serving as weather observer for the weather division of the Department of Commerce at the Klamath Falls airport—collecting vital weather information for army, navy and air transport fliers.

Miss Goeller has been active in community and war work here, serving as troop leader for Girl Scouts, as a volunteer worker on Red Cross bandage and other programs. She is a member of the Klamath Falls Presbyterian church and the Business and Professional Women's club of Klamath Falls.

Miss Goeller is the daughter of Mr. and Mrs. Harry E. Goeller, Klamath Falls.

For stings or itches, those mosquito torments that so often spoil summer fun, get Mexazone, formerly Mexican Heat Powder.

## KUHS SHOP OPEN TO WOMEN ENROLLEES

The vocational machine shop at the high school can accommodate 10 new enrollees in supplementary training, men or boys 16 to 60 or women 17 to 45 years of age.

Supplementary training is set up to help the worker who is employed to solve some of his problems in machine tool operation and in turn help him to advancement in his job. Women may take the training

with the intent of going into local industry or to find their place in industry. At present we have four women enrolled in machine shop. They are learning to operate the drill press and lathe. This type of training is very essential to the war effort as women are making a place for themselves in this type of work.

General sheet metal and welding classes also have openings for students wishing supplementary training. Hours may be arranged to suit the individual. Please call 7595 or come to the school entrance on Alameda street for an interview with the instructors in charge.

There are a hundred "private" streets in New York City.

# The rest-pause that refreshes

## Welcome in peace... more welcome in war work

WAR plant managers will tell you that anything that contributes to contented workers makes better workers. In plant after plant it has been found that a rest-pause breaks monotony, lessens tiredness and tension.

When you add refreshment to a rest-pause, you not only have a pause that rests, but refreshes, too. A moment for ice-cold Coca-Cola makes a rest-pause take on more meaning... promoting contentment that leads to more work and better work. Yes, contentment comes when you connect with a Coke.

Close work brings the need to pause. Ice-cold Coca-Cola brings singling refreshment to make any pause the pause that refreshes.

### The best is always the better buy!

Letters from plant managers from coast to coast emphasize that the little moment for an ice-cold Coca-Cola means a lot to workers in war plants. It's a refreshing moment on the sunny side of things... a way to turn to refreshment without turning from work.
