mission, a headquarters communication said.

(A British naval communiqué issued yesterday at Malta said light surface forces had carried out a coast reconnaissance of the island Sunday night. London sources, although unable to reconcile the time difference were inclined to believe the two announcements referred to a single amphibious operation.)

Isle Hit Again

Two field guns and a number of machine-guns were said to have engaged the commando patrol Monday night. The landing party returned to British vessels off shore, all of which escaped damage.

Allied air forces blasted Pantelleria yesterday for the 18th successive day, and a Cairo announcement said American heavy bombers ranged across the Mediterranean to attack air fields at two points on Sicily, Gerbini and Catania.

McNary Blocks Rollback Move

WASHINGTON, June 10 (AP)—Senator McNary (R-Ore.) blocked at least temporarily today the intention of the senate banking committee to recommit legislation to prohibit subsidy payments on rollbacks of food prices.

Although committee members had voted to recall the bill, unanimous consent of the senate was needed to carry this through. McNary refused to agree, expressing satisfaction with the bill as it stands. Committee members said the purpose of the recall was to tighten limitations of the anti-subsidy provisions.

Himmler Grips Nazis Tighter As Morale Sags

STOCKHOLM, June 10 (AP)—Heinrich Himmler's police are tightening their grip on Germany because of sagging morale, reliable reports coming out of Germany indicated today, and for this reason keen observers here believe a crack-up in Germany is unlikely until absolute military collapse also is at hand.

Supplementing the stories that leak out of Germany is the plain fact that Nazi leaders and party orators are stumping the country, setting up a strange screen of appeals for faith in victory and threats that "weak" Germans will be purged.

THRUST AT JAPS IN OFFING, SAYS CURTIN

sance over Nabire, Dutch New Guinea, yesterday.

The bombardier decided to try his luck on some buildings 12,000 feet below him. His 500-pound bombs struck squarely on two of them. There was a terrific explosion. More than two miles up, the big four-engine Liberator was rocked by the force of it. Smoke from the buildings rose 8000 feet.

Even when the Liberator was 75 miles on his way back to its base, its crew still could see the resultant fires.

NEW DELHI, June 10 (AP)—A British communiqué today said:

Small scale patrol activity continues in Arakan, but otherwise there is nothing to report from this front. In the Kalemoy area the situation remains unchanged and there has been no fighting for several days.

Yesterday, June 8, a formation of RAF Blenheims bombed objectives at Kalewa and in the vicinity. One of our aircraft is missing.

WASHINGTON, June 10 (AP)—The navy reported today a new air attack against the enemy air base at Munda on the New Georgia island in the central Solomons of the South Pacific and said also that known enemy losses on Attu island in the Aleutians now stand at 1845 men killed and 20 taken prisoner.

POTATO SCALE TENTATIVELY SET AT MEET.

A tentative wage scale was set for the fall potato harvest at one of the largest meetings of the year of the Tulelake Growers' association held last night in Tulelake.

A tentative hour wage has been set at one dollar per hour and a sack scale of eight cents per sack. These figures will be submitted to a conference of the Farm Security administration and the US employment service, and will be discussed at that time.

FR TURNS OVER SHIP TO GREEKS

WASHINGTON, June 10 (AP)—President Roosevelt turned over to the Greek government today an anti-submarine patrol ship as an expression of American hopes and prayers that it would hasten the day "when liberated Greeks will again maintain their own government within the shadow of the Acropolis and Parthenon."

In a ceremony at the Washington navy yard, the Greek ambassador accepted the Gray PC-622 for his government. The ship was delivered under lend-lease arrangements and christened King George II, in honor of the Grecian monarch.

In a brief broadcast address the chief executive told how the Greeks had been given three hours on October 28, 1940, to decide whether to accept axis slavery or resist. Their choice, he said, would have been the same if they had had three years.

Some 100 zooters and other juveniles clashed with approximately 90 service men, mostly sailors and marines, in outlying Watts early today. It was unclear what started the battle.

The zoot-suited lads were detoured before military police reserves succeeded in quelling the riot.

Go Easy on Shoe Buying, Asks OPA

PORTLAND, June 10 (AP)—Don't purchase shoes unless you really need them, the district OPA said today as a rush requisited to make use of stamp No. 17 before the Wednesday expiration date.

Most persons buying shoes are doing so to use up the stamp rather than to replace unserviceable footwear, the agency said.

ODDS AGAINST CALL OF DRAFT-AGE DAD

By CHARLES MOLONY

WASHINGTON, June 10 (AP)—A draft-age father's chances of being inducted into the armed forces before next year appeared today to be about 17 out of 100.

And the chances next year may be even lower unless heavy casualties require unexpectedly large replacements.

Farmer fathers generally will be deferred for occupational reasons, but the outlook for others sums up like this on the basis of latest war manpower commission-selective service figures.

Drafting of those with children born before last September 15 is not expected to begin before August 1, and even if it starts then it is unlikely to be other than general and heavy for another month at least.

There are nearly 6,000,000 draft age (non-farm) fathers—only about 4,000,000 of them at most could be expected to be physically acceptable—and the armed services will take in but about 1,500,000 men in all between August 1 and January 1, 1944.

PENALTIES FOR WALKOUT WILL AID CHARITIES

(Continued From Page One)

Under the contracts, the penalty money goes to selected charities.

Warning Given

Ickes, adding that fines would again be levied if another walkout takes place before or after the present truce ends at midnight, June 20, declared that before last week's walkout "we told the miners we were going to fine them if they went out again."

The fines, he said, will be taken out of the next pay envelopes issued to the miners since, he reported, their latest wage payments already had been made when the walkout started June 1.

Although the UMW contends no contract was in force after midnight, May 31, Ickes said the fines would be levied under the terms of the contracts because he had declared in taking over the mines for the government April 1 that the contracts were being extended indefinitely pending agreement on a new contract.

The government mine boss declined at a press conference to say whether he would recommend an increase in price ceilings which reportedly would be called for to put into effect a tentative agreement on a new contract by Lewis and some Pennsylvania soft coal operators.

One Group Breaks

One group of coal operators broke from the deadlocked Appalachian joint wage conference today and made a separate peace with John L. Lewis and his United Mine Workers.

The agreement, between the Central Pennsylvania Producers association, employing 65,000 men, and the UMW, was reported to call for a wage boost of \$1.30 a day for underground travel time. Lewis originally sought \$2.

Broad Anti-Strike Measure Emerges

WASHINGTON, June 10 (AP)—An anti-strike bill so broad it might be used to outlaw walkouts in any war industry emerged today as a congressional challenge to labor controversies that interrupt production on the home front.

Its punitive features polished by a joint conference committee, the measure goes today to a house that often has voted restrictions on organized labor only to see them languish and die in the senate.
