Earl Green who was injured seriously some time ago is able to be moved back to his home here.

Mr. and Mrs. Jess Green are moving near Eugene, Ore., this week.

"SO I CAN BRAG"

EL PASO, Tex., (AP)—Lieut. Gen. George S. Patton, Jr. wrote a 10-year-old Texas boy who wanted to be an army mascot that "You can be sure there will be more wars . . . And I feel convinced that being a boy from Texas you will give a good account of yourself . . ."

The boy, Bill Patton, (no relative), had added to his note volunteering as a mascot: "Please answer . . . So I can brag to the kids in school."

This year, more than ever before, we should honor the dead by protecting the living.

—Col. John Stilwell, president National Safety Council.

First state college chartered in America was Franklin college, in Georgia, in 1785.

It's important to make Your Home a safer Health Stronghold!

Cultivate the Healthful Habit of Hygienic Home Cleanliness!

HEALTH TODAY is more important than ever. Important to the well-being of your family! Important to the producing power of your country!

Consider this: U. S. Public Health Service estimates that each day illness keeps one million workers from their jobs . . . delaying production so vital to Victory. That's one reason why health authorities urge you to take greater precautions against germs . . . germs which can cause sickness, even epidemics. It's a patriotic duty to cooperate!

One efficient precaution is the use of a household disinfectant in the cleansing of home germ "danger zones", especially in kitchen, bathroom, laundry. Yes, and such precaution is a health safeguard . . . like washing hands, brushing teeth, bathing. Make your home a health stronghold for your family . . . and for America.

The CLOROX WAY is the easy, effective way to Greater Home Sanitation!

Combat Kitchen Germ Dangers! Kitchens may look clean, yet harbor millions of germs. Clorox disinfects, deodorizes, removes stains from dishes, glassware, tile, enamel, linoleum, wood surfaces; it bleaches and removes stains from dishcloths . . . makes them hygienically clean.

Make Bathrooms Sanitary! Bathrooms are often the most dangerous of all home "danger zones" and may menace health unless made hygienically clean. For added health protection, use Clorox in routine cleansing of washbasins, bathtubs, toilets, floors, tile, woodwork.

Linens . . . Longer Life, Sanitary! Today, when linens must wear longer they need Clorox more than ever. For Clorox lessens rubbing, prolonging life of linens . . . it gently bleaches white cottons and linens (brightens fast colors), makes them fresh, sanitary . . . an added safeguard to health.

WHY TAKE CHANCES!

"When it's CLOROX-CLEAN it's hygienically clean!"

CLOROX is ultra-refined, free from caustic, an exclusive quality feature. It is pure, safe, dependable . . . efficient yet gentle in use . . . concentrated for economy. Follow directions carefully . . . avoid waste of a product so valuable in protecting health. There is only one Clorox . . . order by name.
