

"Our Flag Is Still There..."

Let nothing fly over it but our own planes that protect it.

Those of us left at home may not have the fresh youth of the pilots of these planes, but we do have the same feeling in our hearts.

Today, on the eve of Flag Day, we at Fluhrer's join all other Americans in the prayer, "Long may it wave, o'er the land of the free and the home of the brave."

Our job at home is to provide the tools for Victory... in June to buy four fighter planes with Klamath War Bonds.

We will do it!
