Eighty-nine Klamath county 4-H club members returned Friday night from an 11-day summer school session in Corvallis. Emphasis was placed on food production and preservation, and classes in food dehydration included boys as well as girls.

Two Klamath county members, Harold Ogle and Buddy Rueck, tied for first place in the forestry judging contest. A Klamath county quintet from the Fairhaven district was a popular feature at the summer session, said Clifford Jenkins, county club leader. They sang a song written by Barbara Zinn, entitled "All Over the World," at the formal dance and at an assembly attended by all 1900 delegates to the school. The assembly was broadcast over station KOAC. Girls in the quintet included Barbara Zinn, Norma Chandler, Margie Mikkeson, Gloria Bunnell and Shirley Marander.

Chaperones attending the session with Klamath county delegates included Mrs. Edwina Henry and Mrs. A. H. McClain. Definite plans concerning the 4-H club summer camp usually held at Lake of the Woods have not been made, pending settlement of transportation problems. Buses are usually furnished by the county school system to take members to the camp, but arrangements must be made with the office of defense transportation, Jenkins said.

If the camp is to be held, it will take place during the last week of July and the first week in August, Jenkins said.

WRA DESCRIBED AS 'DOG FIGHT' VICTIM

PORTLAND, Ore., June 14 (P)—The war relocation authority, which operates the Japanese relocation centers, was pictured by one of its officials today as "in the middle of a dog fight not of its own choosing."

The official, Dr. Phillip Webster, San Francisco, WRA assistant field director, told a Portland business men's club that one section of the public clamors for "tougher treatment" of Japanese while another, led by farming interests, demands that Japanese of American ancestry be allowed entire freedom.

"Why, in one state a big sugar beet concern was hammering for more Japanese labor at the same time a candidate for governor was campaigning on a platform that no Japanese

should be allowed to set foot in the state," he said. The problem is a military matter, Webster said, all WRA does is run the centers.
