

ELIGIBILITY RULES VOTED LESS STRICT

By RUSS NEWLAND
SAN FRANCISCO, June 16 (AP)—Drastic changes in the eligibility rules of the Pacific Coast conference were voted today by faculty athletic members who practically let down the bars in order to continue football at its highest possible peak.

The 10 school circuit agreed to permit any student coming under the army or navy programs to compete in any sport.

This means that a player who had previously had professional football experience, if he enrolled in one of the military programs and assigned to a school by one of the military branches, could play against those of strictly amateur status.

Rules pertaining to civilian students also were modified to include graduate students and special students as football eligibles. The conference last year voted to permit freshmen to engage in varsity competition.

A few exceptions were noted, however, in the case of civilian students. Those who have engaged in professional sports will not be eligible. A civilian student, however, competing on the same team with a professional enlisted in the military programs will not lose his amateur status.

Civilian students who have exhausted four years of athletic competition, likewise will be ineligible, as will a student previously declared ineligible and not yet reinstated to good standing.

To be eligible for athletic competition all civilian students must carry at least 12 units of work.

In the steel industry, home scrap is produced as a by-product of finishing operations.

TOO LATE TO CLASSIFY

FOR FATHER'S DAY, June 20th, buy him a Van Heusen shirt. Each shirt wrapped with gift card at Rudy's Men's Shop, 600 Main St. 6-19

Medford Council Approves Program

MEDFORD, June 16 (AP)—The city council last night approved the Medford American Legion's program for dealing with Japanese and urged immediate legislation to put it into force.

Under the plan Japanese would be prevented from returning to the Pacific coast during the war. Control of all Japanese in the United States would be transferred from civilian authority to the army.

Japanese would be barred from combat units. Every able-bodied Japanese male would be placed in agriculture in interior sections of the country under strict army control. Japanese farm implements, cars and tires on the Pacific coast would be released for war-time use under the law of eminent domain.

JAPS PREPARED, PREMIER SAYS IN DIET TALK

(Continued From Page One)
Burmese-Indian frontier and in the Pacific.

"Thus," he said, "the war situation has become increasingly tense and battles which repeatedly take place are more grim and terrific."

The diet, which has no voice in the formulation of Japanese policy and is little more than a rubber stamp for legislation decided upon by Tojo and his military advisers, was not permitted to question the premier concerning his report on the war.

Tojo asserted that the occupied regions of East Asia were giving Japan the "utmost cooperation" to bring the war to a successful conclusion and promised that Japan would exert every effort to help India "expel and eliminate Anglo-Saxon influences, which are the enemy of India in every true sense of the word."

The premier also promised the Philippines "independence" within the year and said that a new "independent" Burmese state would be set up soon.

He did not elaborate on these promises, but observers recalled that at the last session of the diet he had promised Burma independence with the qualification that she must continue thereafter to "contribute to the creation of a new world order in close concert with Japan."

Tojo expressed confidence in ultimate victory by Japan and her axis partners, and told the diet: "Our strategic position to assure victory in greater East Asia is being strengthened day by day, with the vast resources of the region being rapidly converted into our fighting power."

A Berlin broadcast, quoting from the Japanese premier's speech, said he "promises to fight shoulder to shoulder with Germany and Italy and their other allies in ever closer cooperation and assistance until common victory is won."

"I am firmly convinced of the success of the brilliant strategy of Germany and Italy," he was quoted as telling the diet.

Fort Lewis Soldier Wins Play Contest

FORT LEWIS, June 16 (AP)—PFC John O'Day of Fort Lewis who wrote and directed "Sound Off" the soldier-produced play that made quite a hit in Seattle last winter, is a winner in the John Golden play writing contest, participated in by soldiers all over the nation. His play, "Where'er We Go," was one of five one-act plays chosen for production on Broadway.

CIVILIAN MEAT SHORTAGE DUE, TAFT ASSERTS

(Continued From Page One)
taking 45 per cent of the country's meat supply.

At one time Brown said that if living costs remain stationary, a projected \$450,000,000 subsidy to offset decreases in the retail price of butter, meats and eventually coffee would "do the job."

He added: "But if costs increase, and I fear they will, I think it will be necessary to go much further."

Pressed by committeemen for a specific amount, the price control chief said he thought that "the president's \$1,500,000,000 program is what is necessary if we want to hold to the September 15, 1942 levels."

Subsidy Argument
Challenged by Taft to show authority for the payment of subsidies to hold down retail prices, Brown replied that it would be impossible to administer the price control act effectively unless such action is taken.

He said retail prices could be lowered by paying a subsidy to the farmer through the packers. "This subsidy will not increase production by one pound," Taft snapped.

"It will prevent us from doing what we have the legal right to do—rolling back the price at the farm," Brown replied warmly. He said he is certain congress doesn't want to follow the latter course.

CHICAGO, June 16 (AP)—The nation's armed forces, says the war meat board, are in "critical" need of beef, and the primary objective of the newly organized agency of the war food administration is to provide an adequate supply of meat to the military services.

At its second meeting since organization, the board yesterday discussed all phases of the meat situation, including plans for enforcement of a recent WFA order which will mean a cut in the supply of beef for civilian consumption.

Commenting on the beef situation, as related to the military services, the board said: "So critical has the need for beef by the armed forces become that purchasing agents at the army's 24 buying centers scattered throughout the country are ready to accept any quantity down to one full carcass of beef or veal meeting army specifications."

Labor Leader Acts Outright Treason, Official Declares
WASHINGTON, June 16 (AP)—Representative Anderson (R., Calif.) accused two California labor leaders, Harry Hook and D. F. Dillon, today of "outright treason" in a work stoppage in a war industry which he maintained they had continued in defiance of a war labor board order.

The Californian told the house the labor leaders had threatened workers of the National Motor Bearing plant in Redwood City, Calif., producers of vital war materials, with dismissal from their Machinists union, local No. 68, if they obeyed an order of the WLB directing their return to work.

Price Specialist Named in Portland

PORTLAND, June 16 (AP)—The appointment of Earl J. Peterson, former Portland food broker, as price specialist in the food section of the district OPA was announced today by Director Richard G. Montgomery. Peterson recently received an honorable discharge from the navy.

EPIC STORY TOLD OF HOME PROGRESS

(Continued From Page One)
he said, "I am convinced that we are in the midst of one of the greatest and most powerful developments in history—the development of an almost incredible striking power by means of aircraft."

"... I can report to you that from now on expenditures for our air force will exceed by far the expenditures for any other single military category, reaching before the end of 1943 an annual rate of some tens of billions of dollars."

From Price Administrator Prentiss M. Brown came the assertion that price control measures had saved the government \$25,800,000,000 by the end of 1942, and that that amount would swell to \$70,000,000,000 by the end of 1943 "if prices are held at current levels."

In the face of mounting congressional opposition to use of subsidies to keep down the cost of living, the OPA chief told the committee that it would be impossible to get prices back to their September 1942 level without their "substantial use."

His opinion drew from Chairman Cannon (D-Mo.) the observation that "we cannot escape the fact that congress has repeatedly in the last few weeks, three of four times by a record vote and overwhelming majorities, indicated its emphatic disapproval of subsidies."

Rubber Director William Jeffers reported that all the synthetic rubber plants should be in operation and producing by the end of the year, and that he was counting on an output of about 800,000 long tons of synthetic rubber next year.

He declared that there would be at the end of this year about 140,000 tons of synthetic and crude rubber, and estimated that production of synthetic rubber by early autumn of 1944 would reach the point where it could supply normal demands.

There was strong intimation, too, that the nation is in for some new rationing programs, but just when they will go into effect was left for speculation. Cannon noted that the OPA justifications called for several new programs.

In charge of rationing for OPA, Louis J. Kroeger reported that there were eight under contemplation, six of which are contingent upon directives yet to be issued. While both he and the committee shied away from discussing their nature in fear that they be upset by advance notice, he hinted that one of them may deal with coal.

"Conditions being what they are at present," he told the committee, "we have some plans under way here with respect to coal. Now, whether or not coal is going to have to be rationed is a question of many determinations. . . . But should it become necessary to ration coal, then, certainly, the coming up of another winter makes it imperative that we go to work right away and develop that program."

WORLD'S NO. 1 TREE FARM TO BE DEDICATED

Plans were announced at the chamber of commerce meeting Wednesday noon for the dedication of the world's largest tree farm, located in the Klamath area. The farm is owned by the Weyerhaeuser Timber company, including all its holdings in the Klamath district.

Chapin Foster, western public relations manager for the American Forest Products Industries, Inc., spoke at the meeting and announced the plans. The farm which occupies approximately 500,000 acres, will be dedicated by Governor Earl Snell in the last part of July or the first part of August.

The chamber of commerce will sponsor a dinner to be given after the dedication ceremonies.

OONA O'NEILL AND CHAPLIN WILL WED

(Continued From Page One)
child expected by her 23-year-old daughter, Joan Berry, also an aspirant to a screen career.

Shortly after the filing of the suit, Miss O'Neill, with whom friends said they had seen Chaplin, declared that she was acquainted with the comedian but had seen him only in the presence of her mother, Mrs. Agnes O'Neill.

"Charles is a wonderful teacher," she said, "and a wonderful man. But I must say our relations have been strictly esoteric."

Miss O'Neill will be Chaplin's fourth teen-age bride. Chaplin previously was married to Mildred Harris, Lita Grey and Pauline Goddard, all of whom he assisted to screen success. Divorce followed each of these romances.

HOLLYWOOD, June 16 (AP)—Joan Berry, movie-struck 23-year-old who filed suit against Charlie Chaplin alleging he is the father of her expectant child, became hysterical today, said one of her attorneys, when she was told of the comedian's impending marriage to Oona O'Neill.

John J. Irwin, the lawyer, said that he had called private detectives and nurses to attend Miss Berry. She is living in a downtown hotel.

Trial of the paternity suit was indefinitely suspended last week when the 54-year-old English comedian, although denying he was the father of the girl's un-

ARMY FARE GIVEN TO JAP EVACUEES

LOS ANGELES, June 16 (AP)—The Dies congressional subcommittee delved into the food situation at Japanese relocation centers today and brought out the statement that the inmates are served the same fare as members of the U. S. army.

The committee, which has been investigating conditions at the Poston, Ariz., center, has turned its attention to the Manzanar, Calif., camp, with Dies Investigator Thomas L. Cavett on the stand during the morning session.

Cavett, reading from camp requisitions, testified that last May meat deliveries at Manzanar totaled more than 20,000 pounds per week, or over two pounds each for the camp's 9143 residents.

Congressman Karl Mundt (R-S.D.) asked whether during May there were ample civilian meat supplies for California civilians.

CANDIDATE NAMED FOR QUEEN CONTEST

(Continued From Page One)
June 26 by a committee of three judges, two men and one woman. Basis for the choice will be beauty and personality. There will be no riding ability requirement.

Queen contestants should be single, attractive, and a local girl. The queen will lead the grand entry at the rodeo and will ride in the parade. She will be the guest of civic clubs at their luncheons, according to Bernie Heidemann, captain of the Commandos, who are sponsoring the Queen's ball this year.

Tickets for the ball will help a dozen servicemen to attend the Fourth of July celebration here. Most of the men are from the east coast and have never seen a rodeo before.

Improving—Allen Casabier of Midland and a resident of Klamath Falls for 15 years, is very ill at the Lightfoot hospital with pneumonia. His friends will be glad to know that his condition is somewhat improved today.

DAVIS SCORED BY 2 MEMBERS OF CONGRESS

WASHINGTON, June 16 (AP)—Two members of congress criticized Elmer Davis, chief of the office of war information (OWI), yesterday, one accusing him of seeking to be a "propaganda minister," the other saying he ought to be investigated.

The outcry, not the first aimed at Davis since he relinquished a radio broadcasting job to take the OWI helm, arose over a speech in Boston in which Davis said Washington news coverage was inadequate.

Senator Bridges (R-N.H.) told the senate yesterday that Davis was "trying to silence the press to cover the sins of maladministration on the part of the new deal in the war effort." He said the newspaper reporters in Washington were to be "commended, not criticized, for their outstanding effort . . . their masterful accomplishment of a difficult task."

Bridges said Davis was objecting, perhaps, because "they have uncovered some news about Washington which does not look too well outside of Washington."

Davis, addressing the American Newspaper Guild, declared that capital newsmen were overlooking the big story of the war—production—while paying attention to interdepartment bickerings. To this Bridges retorted:

"Nowhere can be found a more loyal group of American citizens than the men and women who today report the news of this nation for the great wire services and the many newspapers . . . Mr. Davis finds recourse in seeking to smear Washington correspondents and the press in general. He seeks to make this country believe the unbiased news reports from Washington of faulty administration on the home front, of OPA, of foodstuffs, of rationing, are too much bunk. Well, I know it isn't bunk. We all

know it is the truth . . . reported by talented and able men and women."

Bridges said OWI has "prevented industry from telling the full story of production, just as it has prevented the truth from being told in Washington when the people had the right to know the truth." He said "OWI, its policies and its personnel should be thoroughly investigated."

Rep. Short (D-Mo.) told the house meanwhile that it seemed to him "Davis now conceives his real title to be that of American propaganda minister." He suggested that Davis retire from government office, adding that the press had "discovered propaganda emanating from the OWI which went far beyond the field of war information."

In defense of Davis, Majority Leader McCormack (D-Mass.) said propaganda had become a necessary part of war.

VISIT VIEWED AS PRELUDE TO EARLY ACTION

(Continued From Page One)
announced that the sovereign was visiting the British 1st and 8th armies and "welcomed this opportunity of seeing the United States armies and air forces with whom his own forces have been so closely associated in the recent memorable victory."

Budget Committee—There will be a meeting of the Budget committee tonight at 7:30 o'clock in the city council chambers in the city hall. All interested citizens are invited.
