

POLICY GROUP RECOMMENDED FOR LUMBERING

WASHINGTON, June 16 (AP)—Immediate creation of a lumber policy committee "supreme in all matters concerning lumber, such as price control, wages, production, procurement and other collateral matters" has been recommended by a house subcommittee whose chairman declared that a lumber shortage threatened to delay overseas shipment of war goods.

The committee, to handle all government requirements for lumber, "should be vested with authority to act on all lumber problems, subject only to the veto of the director of war mobilization and the director of economic stabilization on matters that come within their respective fields," the subcommittee declared in a report.

Chairman Jackson (D-Wash.) of the subcommittee predicted there will be a shortage of at least 6,000,000,000 board feet of lumber by the end of 1948 for use on this current minimum essential requirements.

The estimated shortage, Jackson said, amounts to about one-fifth of the nation's production. No serious effort, he added, has been made to return to production 1947 sawmills which are idle for other than seasonal reasons.

Jackson declared that the lumber problem has not been given sufficient recognition by chiefs of various federal agencies who are charged with its various phases. The manpower situation is bad, he said, due to the inability of the lumber industry to meet competitive wage scales under existing price ceilings.

Quake Reported in Aleutian Area

SANTA CLARA, Calif., June 16 (AP)—A two hour and 10 minute earthquake of severe intensity epicentered near the Japanese-occupied Kiska and the American held island of Attu in the Aleutians yesterday. The tremor was recorded at 11:28:40 a. m. (Pacific war time) on the seismograph at the University of Santa Clara. Dr. Albert J. Newlin reported. Volcanic activity has been reported recently on Kiska, he said.

Tulelake Dedicates Service Flag Carrying 128 Stars

TULELAKE—With a dedicatory litany, Rev. Hugh L. Bronson, pastor of the Tulelake Community Presbyterian church presented a service flag with 128 stars at the morning service hour, the stars representing service men of the Tulelake basin who are serving in the armed services. To the flag where blue stars were placed to symbolize the cross will be added others given at the service and those who will go until the

war ends. The beautiful flag, made by Mrs. J. Merton Brown, Mrs. Roy Urbach and Mrs. Herman T. Street was unveiled by Joyce Turnbaugh and Patty Gentry.

As the name of each service man was read, a relative or friend responded.

Scripture readings were offered by D. W. Turnbaugh for the church board of directors, Mrs. Ray Aiken representing the Community guild, Jim Nelson,

the Christian Endeavor, and Mary Robertson, the junior church.

The colors of Tulelake post, American Legion, No. 164, and the auxiliary colors, were presented at the opening of the service by Ralph Ganger, Merton Brown, Mrs. William Hooper and Mrs. Frank E. Mosebar.

Patty Gentry played an accordion rillitary number.

Rev. Bronson offered the prayers and vocal numbers were by the choir, under the direction of Mrs. Frank Bell.

AFL Strikers Hold Up Transportation

PITTSBURGH, June 15 (AP)—Strikes of AFL transportation workers in two western Pennsylvania industrial cities today obliged thousands of workers to thumb rides, double up with others owning automobiles, or fall back on shank's mare to get to their jobs.

The Johnstown ration board said supplemental gasoline coupons would be issued to war workers to alleviate conditions as a strike of 300 bus and street car operators, affecting a population of 250,000 in the John-

stown area, entered its third day. Disregarding a recommendation of their international union officials, members of the AFL Amalgamated Association of Street Railway and Motor Coach Employees there said they gave a "decidedly no vote" last night to a return-to-work proposal. They had walked out to protest a war labor board ruling giving them a minimum of 72 cents an hour, eight cents less than was allowed by an arbitration panel.
