

LEGION TAKES STAND ON JAP SITUATION

Fred Hellbroner was elected commander of Klamath post No. 8 of the American Legion at a meeting held on June 15. Other officers elected at that time were Walter Wiesendanger, first vice commander; Dr. M. E. Cooper, second vice commander; executive committee, L. L. Lombard, Keith Ambrose, Fred LaForge, C. F. O'Loughlin, and J. R. Fowler.

The election of adjutant, finance officer, and delegates to the department convention will be held on Tuesday, July 6.

The post passed a resolution to be sent to congress in regards to the Japanese situation. The main points are as follows:

1. Protesting the release of any Japanese in the Pacific coast area.
 2. Transfer of the control of the Japanese camps from civilian to army control.
 3. Abandoning the idea of creating Japanese combat units.
 4. Place every able-bodied male Jap in agricultural help in the interior under strict military control.
 5. Release all Japanese farm machinery, cars, tires, for wartime use. Under eminent domain.
 6. Release impounded money (\$2,000,000) belonging to the imperial Japanese government, for use in promoting the war.
 7. Conduct thorough investigation of all Jap activities in the United States before and since Pearl Harbor, and establish congressional committee for the study of the post-war disposition to be made of the Japs based on investigation.
- All civic clubs are urged to adopt a similar resolution, which should be sent to Klamath post No. 8, American Legion, post-office box 650, not later than June 29.

Revivalist

A record audience heard Rev. S. L. Tidwell speak at the Vox theatre revival crusade over the weekend. The revival crusade is entering its second week of services.

BIG AUDIENCE HEARS REVIVAL CRUSADE TALKS

A large Monday night audience attended the Klamath Revival Crusade at the Vox theatre building to hear S. L. Tidwell speak on the subject, "The School of Grace," according to C. C. Brown, pastor of the First Baptist church.

A record attendance at revival meetings was reported over the weekend as the crusade entered its second week. The pastor states that the present series of meetings has received the most enthusiastic response from the public of any such campaign in his connection with the church.

"Hell, What is it? Where is it? And who will go there? Is the subject upon which the evangelist will speak tonight at the Vox. Pastor Brown says that the Rev. Tidwell has charmed, thrilled and amazed his audiences with the power of the gospel. "He has a way of going into the greatest depths, reaching the greatest heights, and upholding the greatest challenge in the Christian life."

Services will continue each night at the Vox at 8 o'clock with half an hour of old-fashioned singing led by H. G. Shlrey. The public is urged to join in this evangelistic crusade.

DEATH RATTLE

BISBEE, Ariz.—"Tojo Is Dead" screams a headline over a news item in this week's issue of The Buffalo, official publication of the 92nd division stationed at Fort Huachuca.

Instead of the notorious Japanese, the deceased turns out to be a former pet of the 92nd's special services section. It was a rattlesnake.

An eight-foot fence is used to keep out deer on the Broadmoor golf course in Colorado Springs, Colo.

Rationing Board To Open at New Location Saturday

The war price and rationing board will be open at its old location at 434 Main until Saturday, June 26, when it will move to the office of price administration quarters in the Balsiger building. The war price and rationing board will be closed Saturday, and will re-open Monday.

STOVE DEALERS TO MEET AT CHAMBER

An important stove meeting will be held at the Klamath Falls chamber of commerce Friday evening, June 25, at 8 p. m. All domestic heating and cooking appliance dealers from Klamath Falls, Merrill, Malin, Keno, Dorris and Tulelake, are expected to attend. The war price and rationing boards' chairmen, chief clerks and fuel oil panel members, who will be in charge of issuing certificates for stoves, of all listed towns, are also invited to attend. The meeting is under the auspices of the Oregon Retail Furniture association, and is to be sponsored here in Klamath Falls by Ernest Mullis of the California Pacific Utilities company.

Charles B. Maxfield, district stove rationing representative of Portland, will explain the new stove rationing program in detail. Dealers and board members will have the opportunity to ask questions and express opinions.

The Dalles Gets Next Eagles Meet

SALEM, June 21 (AP)—Salem members of the Oregon Fraternal Order of Eagles said today that the 1944 convention of state aeries had been voted to The Dalles.

RESOLUTIONS STUDIED AT AFL MEETING

EUGENE, June 22 (AP)—Oregon State Federation of Labor committees today studied 23 resolutions introduced here in the annual state AFL convention.

They attacked everything from the Little Steel wage formula to the OPA meat quota system. Of the wage formula, set up by the war labor board to limit pay increases to 15 per cent of the January, 1941 level, President Paul E. Gurske said, "... (Labor) cannot silently accept a program which limits wage increases to 15 per cent while permitting increases in living costs far in excess of that."

Elimination of the meat quota was asked because "large packers refused to kill their full quota, thereby creating a false meat shortage."

Delegates heard L. C. Stoll, Oregon war manpower commission director, compliment them for aid in supplying war workers. Stoll added that Oregon now is "over the hump" in easing the labor shortage. He estimated 150,000 are engaged in war work in the state, compared to 3800 early in 1941.

A resolution to congress asked that Japanese loyal to the United States be segregated from relocation camps and given training in government at special camps. After the war, they would be sent to Japan to become a nucleus for democratic reorganization of that country. Japanese found disloyal to the United States also would be deported to Japan after the war.

No Gas-Driven Vehicles in Jaycee Sponsored Parade

A return to the Gay Nineties was sounded Monday night by members of the parade committee, when they decided that no gas-driven vehicles would be allowed in the parade on July 5.

Wagons, buggies, bicycles and horses will take the place of the old-fashioned automobile for parade float uses, and marching groups will come into their own. The decision was made as a result of the shortages of gasoline and rubber and the desire to save as much as possible.

John Maguire, in charge of entries for the Junior chamber of commerce-sponsored parade, also said there would be less hunting displayed on floats this year because of a war-time shortage. The fact that many farmers would be in town on July 5 and would not be using their horses will make it easier for those wishing to enter floats to use horses, Maguire said. Anyone wishing to enter floats or other entries may contact John Maguire at 1005 Pine street, or by phoning him at 3212 or 7417.

Portland Legion Proposes American Japs for Japan

PORTLAND, June 22 (AP)—The Portland American Legion post No. 1 proposed last night to turn Japan over after the war to Japanese from this country. A resolution to congress asked that Japanese loyal to the United States be segregated from relocation camps and given training in government at special camps.

After the war, they would be sent to Japan to become a nucleus for democratic reorganization of that country. Japanese found disloyal to the United States also would be deported to Japan after the war.

FULL HIGH SCHOOL COURSE BY MAIL

EUGENE, Ore.—As a war emergency measure it is now possible to take a full high school course without setting foot in a high school. Cooperating with the office of Rex Putnam, state superintendent of public instruction, the correspondence department of the general extension division of the state board of higher education is now offering the full 16 credits of a high school course by correspondence.

Basic requirements for college entrance, such as English, Latin, science, history, and mathematics are offered as well as courses in business, social sciences and art. The student who is world-minded, may enroll for world history, civics, economics, and social problems. At the present four English courses are being revised.

You bet....we're going to buy **4 Fighter Planes** But....it means we all have to **Buy MORE Bonds**

Everybody Pitch In... The "Klamath Pelican" Needs An Escort

In the Home... At the Front... In War Plants Dairy Products Are Doing a Job!

The problem of supplying dairy products... milk, cheese, butter... for civilians and the armed forces has not been a simple one. The nutritious qualities of these products has made them vital to everyone, and so with a shortage of new equipment and an increased production schedule, dairymen everywhere rolled up their sleeves and pitched in to MAKE production schedules work.

Dairy products are perishable... so dehydrating was developed. Tires are precious, so home delivery schedules were cut. And yet, everyone is finding that with a little advance planning, they are getting their dairy needs in sufficient quantities.

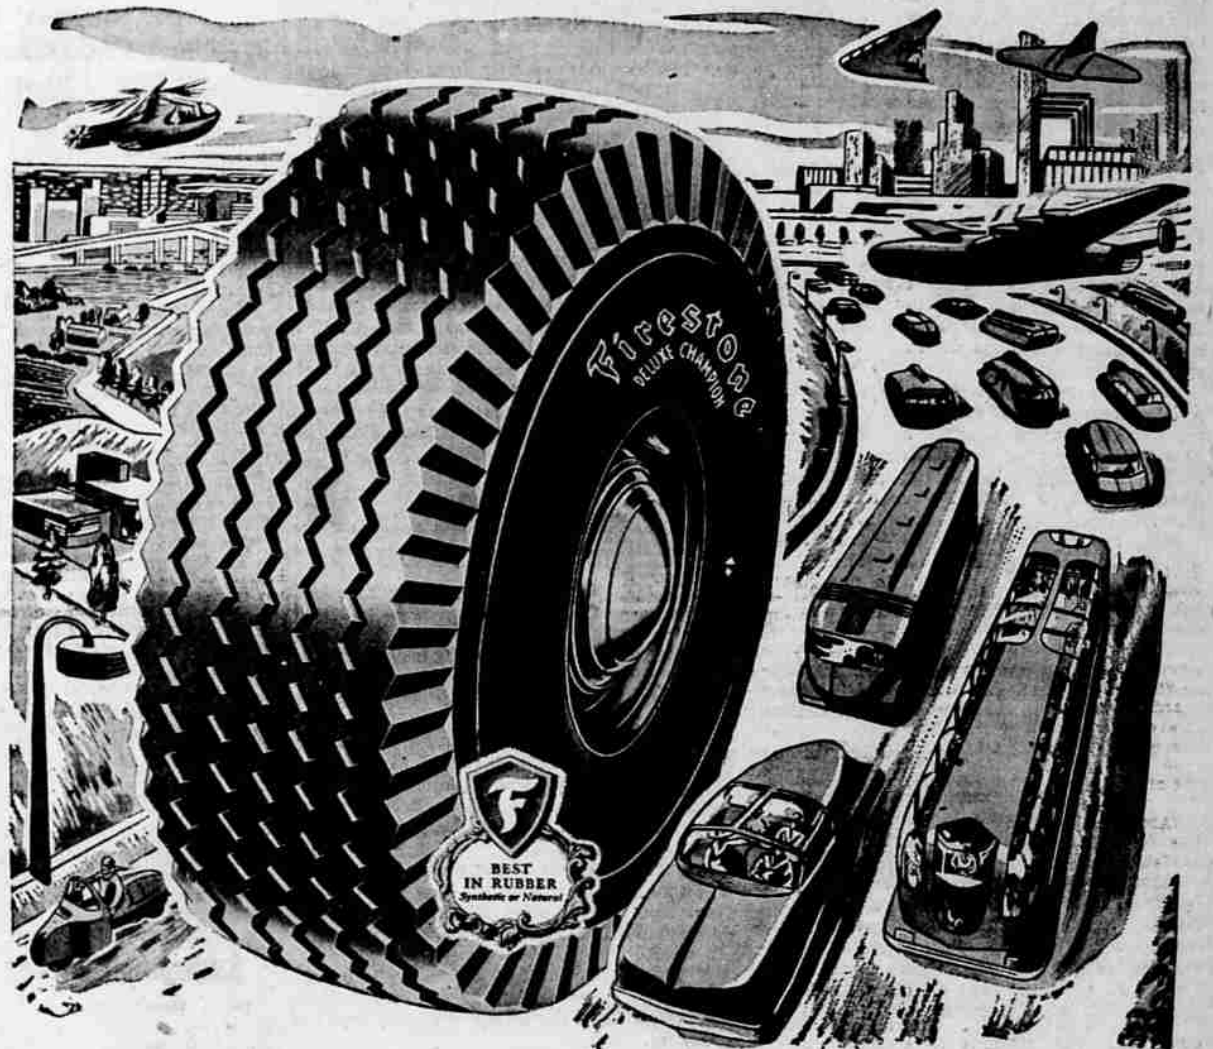

This is National Dairy Month and during this time dairymen everywhere are taking the opportunity to tell you they realize that without your cooperation, dairy products could not have played so important a part on both the home and fighting fronts as they are doing today.

The **TIRE** OF TOMORROW is here **TODAY!**

THE WORLD-FAMOUS FIRESTONE DeLuxe Champion TIRE IS NOW BEING MADE WITH Firestone Butaprene THE MARVELOUS New SYNTHETIC RUBBER

JUST as you'd expect, Firestone is FIRST to build the tire of tomorrow for the car owners of America. It is only natural that Firestone should be the leader in working out new processes, in creating new compounds and in building better tires from American-made rubber, for Firestone has always been the pioneer in developing new materials, new methods and new machines that have resulted in tremendous advancements in tire design, construction and performance.

From Firestone have come such revolutionary improvements as the FIRST straight side tire, the FIRST rubber non-skid tread, the FIRST commercial demountable rim, the FIRST patented Gum-Dipping Process, the FIRST balloon tire, the FIRST Safti-Lock Cord Body, the FIRST Super-Speed Construction and the FIRST practical pneumatic tractor tire.

In 1933, Firestone built the FIRST synthetic rubber airplane tires for our armed forces. In 1934, Firestone built its FIRST synthetic rubber passenger car tires. In 1940, Firestone FIRST went into production on synthetic rubber passenger car tires and began the manufacture of its own synthetic rubber, called

Butaprene, the same type that was later adopted by the Government. In 1942, Firestone became the FIRST company to produce synthetic rubber in a Government-owned plant and later became the FIRST to make synthetic rubber using butadiene made from grain alcohol. And today Firestone is making synthetic rubber tires for passenger cars, trucks, buses, airplanes, tractors, farm implements and all types of war vehicles.

All of these years of experience, all of the knowledge that made these FIRSTS possible have been called upon in producing the new Firestone DeLuxe Champion Tire made with Firestone Butaprene. It is now ready for the car owners of America as released by the Government. But do not think that the crisis is past. America's greatest rubber supply is still on the wheels of its 27,000,000 cars. So you must continue all of the rubber conservation measures that have been so effective. However, if you are eligible and require new tires, remember this — in mileage, in strength and in safety the new Firestone DeLuxe Champion Tire upholds the Firestone tradition of "Best in Rubber — Synthetic or Natural."

Listen to the Voice of Firestone with Richard Crooks and the Firestone Symphony Orchestra, under direction of Alfred Wallenstein, Monday evenings, over N. B. C.
