SAFEWAY Homemakers' Guide

Let peanut butter be the home front standby

It's time we realized the importance of peanut butter as a nutritious food, and not as a delicious snack food. Its flavor is only one of the things in favor of peanut butter. It is a protein food and that means that it can take the place of meat on the menu. It is a food high in energy value. The kind of food that gives that power needed for heavy work. As for minerals and vitamins, peanut butter scores high. It is particularly high in some of those all-important B vitamins. Let it be your standby food when the menu needs building up in flavor and heartiness. Here are just a few of the many ways you can put peanut butter to work in a nutritional way.

PEANUT BUTTER CUTLETS—Combine 1 cup hot medium thick white sauce and 1/2 cup peanut butter. Add 1 well-beaten egg and mix well. Add 2 cups soft bread crumbs and seasonings and mix well. Form into cutlets or patties, dip in beaten egg, then cracker crumbs and fry until well browned. Serve with cheese sauce.

PEANUT BUTTER IN SOUPS—Add 2 or 3 tbsps. peanut butter to cream soups for additional nourishment and tempting new flavor.

PEANUT BUTTER SAUCE—Blend in 1 to 2 tbsps. peanut butter into white sauce, tomato sauce and gravies. It adds extra richness and intriguing nutty goodness.

DESSERT SAUCE—Blend together 5 tbsps. peanut butter and 1 cup powdered sugar, then add well-beaten egg yolk and 1/4 cup lemon juice or some other fruit juice. Just before serving, fold in stiffly beaten egg white. Serve on fruit, pudding, custard or cake.

PEANUT BUTTER PUDDING—Mix 1/2 cup of cornstarch with a dash of salt and 1 tsp. sugar, and 1/2 cup cold water. Combine 3 tbsps. honey or corn syrup with 4 tbsps. peanut butter. Mix with cornstarch mixture, and cook in double boiler for 10 minutes, stirring constantly. Then cover and cook 15 minutes longer, stirring occasionally. Cool, pour into sherbet dishes and chill.

PEANUT BUTTER AS A SPREAD—Serve peanut butter on the table instead of butter. The family will like the change. . . . When making sandwiches, spread the bread with peanut butter-salad dressing combination. It supplies added food value, and is good around lunch-time. . . . To make portion go farther, cream it, add an equal portion of peanut butter, and blend well, mold and chill. Grand for toast, hot biscuits, waffles, muffins, and as a between meal snack.
