

COAL PEACE STIMULATES STOCK BUYING

By VICTOR EUBANK
NEW YORK, June 23 (AP)—Termination of the coal labor deadlock mildly stimulated buying in the stock market today and most leaders recorded modest advances.

Steels, motors, rubbers, rails, aircrafts and specialties had fairly consistent support, but the steels were hard put to hold their gains near the finish. A few stocks pushed up a point or so while the majority were only fractionally better. Transactions amounted to about 800,000 shares.

In the plus division were Chrysler, General Motors, Good-year, U. S. Rubber, Goodrich, Douglas, Santa Fe, Southern Pacific, Southern Railway, Great Northern, DuPont, Phillip Morris and Owens-Illinois.

Aluminum, Ltd., pushed up more than 4 points in the curb. Slightly ahead were American Gas and Electric, Glen Alden Coal, Humble Oil and Creole Petroleum, New Jersey Zinc dipped.

Bonds were steady.

WHEAT

CHICAGO, June 23 (AP)—An easy undertone prevailed in wheat and other grains today, hedging pressure appearing in the December contract of the bread cereal. Favorable crop reports and poor flour business restricted buying interest.

At the close wheat was 1-1/2 lower, July \$1.41 1/4, September \$1.41 1/4-1/2, corn was unchanged, July \$1.05, oats were unchanged to 1c higher, and rye finished unchanged to 1c lower.

Biological Survey Plays Big Part in Attu Campaign

WASHINGTON, June 23 (AP) Credit for supplying exclusive information which "played an important part" in the recent successful campaign to recover the island of Attu from the Japanese, is claimed by the biological survey of the interior department.

The statement was made to the senate appropriations committee during hearings on the department's appropriation bill. "It may now be pointed out," the department said in a letter urging restoration of \$100,000 by which the house reduced the allowance for the biological survey, "that, in the successful prosecution of the campaign on Attu island in the Aleutians, information obtained by the department from naturalists of

BUREAUS HIT AT GOVERNOR CONVENTION

By GEORGE KIENZLE
COLUMBUS, O., June 23 (AP) Gov. Herbert D. Maw (D) of Utah today urged the nation's governors to map a finish fight against the "greatest lobbying power in Washington — the federal bureaus."

Administration of federal aid programs must be wrested from these "non-political" agencies and placed in the hands of the state governments after the war to maintain the "sovereignty of the people," Maw asserted in an address prepared for the closing session of the 35th annual governors' conference.

"I am talking to a group of men and women who know the stern fact that the states can never again be brought into their own until the greatest lobbying power in Washington—the federal bureaus—have been overcome," the Utah chief executive declared.

"The problem is not a political one," he added. "It is bigger than politics, for it is difficult to think that either political party will take a chance on antagonizing three million federal employes and the five or ten voters that each of them can influence by making a political issue of the subject."

"If anything is to be done, we must do it. Fortunately, the combined strength of the 48 governors, equally divided between the two major political parties and supported by a public who will sustain us if we will fight for them, is far greater than the combined power of all the federal bureaus in Washington."

Log Shortage Closes East Mills

WASHINGTON, June 23 (AP) The shortage of logs, manpower and equipment shut down 27 per cent of the country's 31,814 sawmills in May, mostly in eastern states.

In a survey on production, the U. S. forest service and the lumber division of the war production board disclosed today that of the 9740 mills closed for other than season causes, 9052 were in the east and 688 in the west. Small mills made up 86 per cent of those idle.
