

FAVORED FEW GATHER GOOD BUYING POWER

By VICTOR EUBANK
NEW YORK, June 24 (AP)—Scattered favorites attracted fairly strong buying power in today's stock market while a number of leaders failed to follow through on yesterday's rally.

A revival of bids for farm implements and rubbers in the final hour brightened the trend picture appreciably. Rails and assorted industrials which were under water during the greater part of the proceedings also stiffened near the close. Gains of fractions to a point were in the majority.

Transfers were around 700,000 shares.

Touching best levels for the year or longer were International Harvester, U. S. Rubber and Goodyear. Better performers included J. I. Case, Oliver Farm, Deere, Chrysler, General Motors, U. S. Steel, Bethlehem, American Telephone, Western Union, Consolidated Edison, Southern Pacific, Northern Pacific and Sears Roebuck.

Among intermittent laggards were Dow Chemical, Texas Co., Standard Oil (NJ), Kennecott, Allied Chemical, Johns-Manville, Eastman Kodak and Boeing.

Bonds were a trifle mixed with profit-taking appearing in several rails.

Potential Invaders Practice for Airborne Attack

Ruhr Valley "Most Bomb Battered Area in World"

By JAMES F. KING
LONDON, June 24 (AP)—A deadly cargo of more than 15,000 tons of bombs has been unloaded on Germany in the past month by giant British bombers, two-thirds of which have fallen on industrial centers in the Ruhr valley where the nazis themselves admit "incredible" devastation.

According to British figures, 10,000 tons of explosives rained ruin in the period from May 22 to June 22 on seven arms centers in that area—Dortmund, Wuppertal, Bochum, Oberhausen, Krefeld and Mülheim.

Joining the RAF in this German-described "battle of the Ruhr," American four-engine bombers struck the synthetic rubber plant at Huls June 22 in their first venture into the highly industrialized valley, of which Propaganda Minister Paul Joseph Goebbels once said: "The destiny of the Ruhr is the destiny of Germany itself."

The valley already has become the most bomb-battered area in the world and the British say there is more still to come in the steadily mounting allied air offensive against all axis-dominated Europe.

The Ruhr, which has 54 per cent of the hard coal of axis Europe, 37 per cent of the pig iron, 34 per cent of steel ingots and castings, still remains, in the words of one high British official, "the world's best target."

"You can't pick up a coal mine and carry it away," he declared. "And Germany's transportation is strained already to such an extent that moving plants would seriously impede production."

Only three Ruhr towns of any consequence—Gelsenkirchen, Hamm and Herne—have not felt a blow by a major RAF force, one big enough in the air ministry's own words to wipe out a city of 200,000 population in one night.

Industrial production in the Ruhr was said on June 9 to have fallen about 35 per cent under 1942.

WHEAT

CHICAGO, June 24 (AP)—Grains had an easy undertone today, wheat slumping to a new low price May 15, but a rally toward the close cancelled part of early losses. Hedging pressure and an absence of buying support featured trading.

At the close wheat was unchanged to 1/4¢ higher, final prices being at about the day's highs. July \$1.41 1/2, September \$1.42 1/4-1.42, corn was unchanged, July \$1.05, oats finished 1/4¢ lower to 1/4¢ higher and rye was off 1-1 cents.

These armed sailors from the nearby Naval Arsenal were strung across a roadway to clear the street for traffic when race rioting broke out in Detroit. BOMBS SHOWER ON ENGLISH PORT CITY

HULL, England, June 24 (AP)—Fifteen German raiders pounded this northeast England port city of 250,000 last night, showering down thousands of incendiary bombs in an attack that lasted more than an hour and caused fires that were not controlled until today. A museum and its valuable exhibits were destroyed, and part of the theater and residential property were damaged.

The casualty toll still was climbing as rescue squads dug out the bodies of those buried in the wreckage of their homes.

Hundreds fled to air raid shelters clad only in night-dress.

Hull was one of the first English towns raided in the war. It had hundreds of alerts and underwent between 70 and 80 raids during the winter of 1940, during which 1050 were killed.

America cannot, in charity or justice, reject the hand of friendship from any sister state. Indeed, the course of recent history makes the fullest collaboration with Russia a matter of compulsion.—James A. Farley.
