

WALLACE RAPS RFC HEAD FOR BLOCKING BEW

(Continued From Page One)

10 per cent of our purchases and commitments for these materials have been initiated by BEW. RFC commitments for foreign purchases have been approximately \$3,500,000,000 of which not more than 10 per cent was originated by BEW. We have actually received and paid for materials to the value of \$1,600,000,000 of which less than 5 per cent can be credited to BEW initiative.

Obstruction
"2. That RFC and I have obstructed and delayed programs of development and procurement initiated by BEW. There has been no serious delay by us of any vital program."

"I will answer the statement in detail and be glad to have a committee of congress fully investigate the facts."

Wallace said Jones had created a "false impression" in testimony before the congressional economy committee headed by Senator Byrd (D-Va.).

Prevent Harm
"It is time to prevent further harmful misrepresentations of this nature," Wallace said, adding:

"Although the president, on April 13, 1942, transferred full control over the programming of imported strategic materials from the reconstruction finance corporation to the board of economic warfare, which operates under broad directives received from the war production board (WPB), Mr. Jones has never accepted that authority."

Obstacles
"He and his personnel down the line have thrown a great many obstacles in the way of"

BRITISH AIM EXPLOSIVES AT WAR FACTORIES

(Continued From Page One)

showed of these 239 were American and 1098 British. Thundering over the scene of the world's first 1000-bomber raid for the 17th time, the RAF left fires leaping up towards the overhanging clouds.

Cathedral Hit
The German high command, in its regular communique broadcast by the Berlin radio and recorded by the Associated Press, asserted that "the Cologne cathedral suffered heavy damage from explosive and incendiary bombs" and that Cologne's population "suffered losses."

The German high command called the Cologne attack "another serious terror raid against residential quarters."

A Berlin broadcast of a DNB dispatch recorded by the Associated Press asserted the dome of the famous Cologne cathedral was hit and a part of the Gothic structure, begun in 1248 and completed in 1880, was damaged by explosions and fire.

Second in Month
It was the second raid of the month against the great Rhineland industrial center which the nazis have been reported working avidly to restore. The 1000-bomber raid was reported to have driven out 200,000 of the city's 800,000 population and wrecked 250 factories.

The German communique reported property damage in both Cologne and Hamburg and said 26 of the attacking bombers were shot down. Thickly populated parts of Cologne were said to have been destroyed as a result of a great number of explosive and incendiary bombs.

The official bulletin gave no results of the attack on Hamburg, last hit March 3 and an air target nearly 100 times since the war began.

In secondary night sweeps, fighter command aircraft attacked enemy shipping in the channel, damaging one small supply vessel and two escort craft, the communique said. At the same time intruder patrols attacked railway targets in France.

Last night's raid was the eighth British assault on German targets in 10 days.

Fellow France Blow
The twin foray by the British bombers followed up a two-way attack yesterday by strong formations of American Flying Fortresses on two enemy targets in occupied France—the submarine yards at St. Nazaire and an enemy fighter airbase at Beaumont-Le-Roger, 30 miles southwest of Rouen.

Such allied air blows on the French homeland, the Nazi-controlled Vichy radio declared today in a broadcast recorded by the Associated Press, have made more than 18,000 persons homeless. The report also said that fatal casualties averaged 15 daily from June 25, 1940 to June 21, 1943.

Kentucky Miners Struggle Back To Coal Pits

(Continued From Page One)

miners were working, and about 4000 were in the pits in Alabama.

About 3500 more men left their jobs in the anthracite fields of eastern Pennsylvania but this was largely offset by a back-to-work move which appeared to be gaining momentum in other sections of the same area.

The return of miners in western Pennsylvania's soft coal fields reduced the number of idle there to around 45,000 out of 117,000 employed.

It's fine to be a person with a heart of gold if it doesn't stop you from having some of the stuff in your pocket.

WLB RULES OUT ALTERATIONS IN STRIKE BILL

(Continued From Page One)

The tripartite war labor board was agreed today on at least two points of potential controversy in the new Connally-Smith-Harkness strike control bill:

1—The act will not alter the present participating roles of labor members.

2—It will not interfere with the present policy of ordering maintenance of membership clauses written into labor contracts.

The board, composed equally of public, industry, and labor representatives, devoted half of yesterday to a study of the act, passed over presidential veto, in consultation with Lloyd Garrison, general counsel. An opinion on these will be sought from the attorney general, too.

The board's interpretation, backed by the attorney general, would not necessarily preclude a court challenge on these points, but official sources believe the united front would carry some weight in court, particularly in view of the three-unit nature of the WLB.

U. S. AERIAL BLOWS SMASH AT KISKA

(Continued From Page One)

22 Raids
Sunday's raids on Kiska raised to 22 the number of separate air actions carried out over that enemy North Pacific outpost in a four-day period.

While there was no explanation for the decline in activity on Monday, it was assumed here that the weather had closed in again. The attacks against Kiska are regarded as pre-invasion, softening-up raids, preparing the way for the amphibious expedition that some day is expected to smash the last Japanese hold on the American island chain.

Germans Losing Air Battle at Gates of Leningrad

MOSCOW, June 29 (AP)—Violent aerial battles are swirling over the approaches to Leningrad with the Germans losing "a big number of planes" in the past 25 days, battlefront dispatches reported today.

German losses were so heavy the nazis have changed their tactics, increasing fighter escort for bombers, and varying the times of raids, it was said.

From the front farther north on the Rybachi (Fisher) peninsula other dispatches pictured fighting complicated by weather and the fact that darkness never occurs.

Parachutes require about 150 yards of cloth.

Kiwians Sure To Best Bond Sale Quota

(Continued From Page One)

will go toward the Chiloquin-Fort Klamath district.

In the list of communities, from which four names will be secured for the fighter planes, leaders were Merrill, Keno, Malin and Henley, with Sprague River in fifth place; Gilchrist, sixth; Chiloquin-Fort Klamath, seventh; Bly-Beatty, eighth; Bonanza, ninth. Surprises may be in store following tonight's purchases. Commandos will assist during the program.

The box score on the community standings is printed on Page 1.

FBI PRISONER PLEADS GUILTY OF ESPIONAGE

(Continued From Page One)

cerning national defense with the intention of having Lehmitz forward it to Germany, Conroy said.

De Spretter met with Lehmitz on a number of occasions, Conroy related, and gave to him his observations on shipping in the New York harbor. Lehmitz was charged under the wartime espionage act with sending such information, written in invisible ink between the lines of innocuous letters to persons in neutral countries, for axis consumption.

Plans Formed to Care for Working Mothers' Children

(Continued From Page One)

and also supplement their incomes by taking in children.

When the survey is complete, confidential records will be filed at the Klamath County Welfare commission located in the Memorial building, and mothers wishing to place their children, can go there for a list of available homes.

Nursery School

The Mills school nursery, which it had been hoped would be open by July 1, has been held up briefly by formalities, but should be ready to take youngsters after the Fourth.

Between 40 and 60 children of pre-school age, that is, between 2 and 6 years, can be accommodated at the nursery, with arrangements for enlarging to 80 if necessary.

In WPA Rooms
The project will be held in the same rooms as those formerly occupied by the WPA nursery. The initial investment, the purchasing of extra supplies, etc., will be made by the Soroptimist club, which has done much in the establishment of the nursery. Personnel, which will include a head teacher with nursery school training, two assistant teachers, a cook and a janitor, will be paid by funds from the Lanham act and will be under supervision of the board of education.

Bids Opened

Bids for gas and oil to be used by the city were opened with low bid for gas going to Associated and those for oil to Union and Standard. These two companies both submitted equal prices so each will get a contract for six months.

A request by the Retail Trade bureau for permission to stencil slogans on sidewalks, mostly on Main street, to assist in selling

DANCE HALL LAW ARGUED AT COUNCIL

(Continued From Page One)

not be permitted at a public dance on the premises unless accompanied by a parent or legal guardian. This brought up the question of how one would be able to determine the age of the youngsters, as some children look old for their age and others, who are older, look younger than they actually are. Also brought up was, would this regulation bar youngsters under 16 from attending high school dances and affairs such as DeMolloy puts on during the year. City attorney J. H. Carnahan said that he did not think that dances of this nature were public dances, inasmuch as they were more or less invitational and were not operated for profit.

Councilman A. H. Bussman said that his conception of a public dance was any affair to which admission was charged.

Licensing Hit

Almost the same arguments arose over the licensing of public dance halls. The ordinance states that any lessee or operator of a dance hall or dance must pay a \$50 a year license fee and exhibit the license somewhere in the hall. This brought up the question as to whether school dances would have to be licensed or if fraternal organizations would have to pay the fee. Carnahan again said that these were not considered public dances in his opinion.

The second new provision in the much debated ordinance was that anyone leaving a public dance after 11 p. m. would have to pay a full admission charge to get back in. This, Police Chief Earl Heuvel explained, was to prevent persons from running in and out of the dance hall to drink.

Intermissions Hit

A woman in the audience representing the Eagles auxiliary wondered how this would affect intermissions. She said that her intermissions were at 11:30 o'clock and would they have to charge the people who came back after this was over? Mayor Houston said that intermissions could be held a little earlier.

After considerable more discussion on various other parts of the ordinance, it was put aside until next meeting. Mayor Houston said that anyone who had any more questions or grievances should appear next Tuesday (Monday, the usual meeting night, is a holiday), when there will be a second reading of the measure.

SENATE GIVES OKAY

WASHINGTON, June 29 (AP)—The senate passed and returned to the house today the \$71,500,000 war department appropriations bill after charges of "waste and extravagance" were heard and Senator Byrd (D-Va.) announced his joint economy committee would investigate army and navy expenditures.

war bonds for the July drive was granted by the council.

The owner of a wildlife exhibit was granted permission to locate at 627 Main street for an indefinite period.

Winnie Hoak was awarded the bid for meals for city jail prisoners and guards.

Councilman A. H. Bussman asked for permission to put up signs at Main and Ninth streets, Klamath and Ninth streets, Second and Main streets advising trucks which may go in an effort to keep them off Main street. This was okayed by the council.

WASPIR PRISONER SAID SUICIDE IN PORTLAND

(Continued From Page One)

Richard Henry Stone, 38, for a number of years a resident of Klamath Falls, died of self-inflicted wounds at his home in Portland late Monday night, according to word received here. Stone was employed in 1926 for Stone's grocery, and in 1930 worked as clerk for Murphey's seed store.

The Stone family lived in Chelsea addition. The young man was also employed for a time by Pelican Bay Lumber company, Dunn and Baker, and other concerns. In addition to his wife, Alice, and two sons, Bob and Delbert, Stone is said to have a brother, Albert, living in this city.

FORTRESSES BOMB LEGHORN INDUSTRY

(Continued From Page One)

said 175 persons were killed and 300 injured.)

Garding Airfields
Meanwhile American medium bombers and fighters concentrated on airfields in Sardinia, setting buildings ablaze and pounding dispersal areas, and RAF Wellingtons raided San Giovanni near the toe of the Italian mainland.

Photographs of the Leghorn raid showed "one hit and two damaging misses on the cruiser, and picture interpreters also reported many hits on the oil tanks," the official report said. "Also hit by numerous bombs were the railroad lines leading to the marshalling yards and tracks east of the city, a bridge, sheds, a storage depot or two." Hits were also scored near an iron foundry and torpedo factory.

EDITORIALS ON NEWS

(Continued From Page One)

hit submarine docks and air fields in France. Six of them fail to return.

NOTE our persistence in the face of losses that are admittedly heavy. This is important because it indicates we have the necessary reserves to KEEP UP the air battle.

If we didn't have the reserves, we COULDN'T keep it up.

IN the Mediterranean, 100 of our Fortresses bomb the port of Leghorn, in northern Italy. Leghorn is believed to be a base for the mysterious and elusive Italian fleet.

All the Fortresses come back safely, their crews reporting relatively little opposition.

They flew 1100 miles to make the attack.

THE steady, day-by-day bombing of Sicily, Sardinia and the toe and instead of the Italian boot goes on relentlessly.

MAJOR FERDINAND BISHOP, of the marines, back in Seattle on leave, says the Japs captured by the AMERICANS in the South Seas are the lucky ones—those taken by the head-hunting natives of the Solomons don't fare so well.

(In our treatment of Jap captives, he reports, we continue to adhere strictly to the provisions of the Geneva convention.)

THERE aren't TOO MANY Jap prisoners, he says, as under their Samurai code they are required to choose death in preference to capture. (Our men have been generally reported as cooperating with them accommodatingly on this point.)

Once a Jap is captured, Major Bishop says, he ceases to look upon himself as a superman and becomes just an ordinary human being.

But, he adds, the Jap captives appear to be calmly confident of Jap victory.

GETTING back to the home front, the coal miners are reported today to be straggling back to work. About 149,000 of them, the dispatches say, still remain idle out of more than a half million.

The weight of public opinion is beginning to be felt.

THE British have a new quip, and London is reported to be chuckling heartily over it.

"The trouble with Hitler's fortress is that it LACKS A ROOF."

VITAL STATISTICS

ALLEN—Born at Klamath Valley hospital, Klamath Falls, Ore., on June 29, 1943, to Mr. and Mrs. Steve Allen, 1026 1/2 Jefferson street, a girl. Weight: 8 pounds 9 1/2 ounces.

Yes—the healthiest Soldier in History

But He Needs YOUR Health . . . Tool

Of course . . . we exult that our U. S. soldier of today is the healthiest the world has ever seen. But let us remember that he depends upon healthy workers at the home front to maintain him at his great job.

Every "hour off for illness" we take lets him down! From our good health he forges a vital war weapon. We must not neglect that health!
