

PAY-AS-YOU-GO DEDUCTS FROM WAGES TODAY

WASHINGTON, July 1 (AP)—Pay-as-you-go income tax deductions went into effect for all wage and salary earners today as the government embarked on a new fiscal year that will cost it the unprecedented sum of \$108,000,000,000.

Through payroll deductions the treasury henceforth will keep most taxpayers substantially up to date on their share of that figure—a share that probably will become increasingly large yet still remain only a small fraction of the total.

Virtually iron clad assurances have been given that for the rest of this year at least the 20 per cent to be withheld from paychecks after personal exemptions will not be increased.

But the rate may go up beginning next January as a result of conferences now in progress among treasury officials, congressional leaders and Stabilization Director Fred M. Vinson.

Secretary Morgenthau already has indicated the treasury will seek \$12,000,000,000 in additional taxes, and Randolph Paul, treasury general counsel, said in a speech at Newark yesterday that the greater part of new tax revenue must be drawn from personal incomes.

The yield from pay-as-you-go at the present 20 per cent levy is estimated at \$16,000,000,000 for the current fiscal year—an increase of \$3,000,000,000 over previous estimates.

More than a third of that increase, however, or \$1,100,000,000, will come from collection next March 15 of one-half of the uncollected portion of 1942 tax liability. Treasury experts say another billion of the increase will come from the higher income level this year over last and the remainder from the provision limiting abatement to the lower of 1942 or 1943 taxes.

Exemptions under withholding will be \$12 a week for single persons, \$24 a week for married taxpayers plus \$6 a week for each dependent.

LOAN RATE UPPED ON 1943 WHEAT

WASHINGTON, July 1 (AP)—The loan rate of 1943 grown wheat has been increased from \$1.22 to \$1.23 a bushel at the farm by the war food administration.

The increase was made to bring the rate in line with the June 15 parity price of wheat. When the loan rate was announced several weeks ago it was based on an estimate of parity.

The WFA also announced that the commodity credit corporation will buy wheat from farmers at the 1943 loan rate, where producers are unable to ship to their normal markets, where local storage is not available, and where the CCC owns bins in which purchased wheat may be stored. Purchases will be limited to wheat produced by farmers cooperating in the food program. This rule also applies to wheat loans.

Engineer Takes Oregonian North For Last Time

PORTLAND, July 1 (AP)—The Southern Pacific's Oregonian came all the way in from Klamath Falls yesterday with its engineers holding the throttle for the last time.

Engineer Jess Woodson of Eugene made the run from Klamath Falls, stepped out of the cab at Eugene and into retirement. Then Harvey Carpenter of Dallas, took over, brought the train into Portland and did the same.

Klamath Gives to Bend Scrap Drive

BEND, July 1 (AP)—Klamath county contributed to Bend's scrap pile this week—a 35-gallon moonshine still. It was the first donation of its kind to the local scrap heap.

The still was found in northern Klamath county by state police and Sheriff Claude L. McCauley of Deschutes.

We have won the past by hard work and honesty and self-reliance. There is no better formula through which we can win the future.—James A. Farley.

Liquor Rationing Then This—

PORTLAND, July 1 (AP)—More bad news for liquor-rationed Oregonians: Fifty-one cases of whiskey, all containing pints, have been stolen from the Union Pacific railroad between here and Pocatello, Idaho. The shipment was consigned to the Oregon liquor control commission.

JAP CAPITAL HIT BY SHARP EARTHQUAKE

By The Associated Press
The Tokyo radio reported that a sharp earthquake shook the capital and adjacent areas today, but damage was declared to be slight.

The broadcast, recorded by the Associated Press, said the epicenter was located near Shimotsu, approximately 50 miles northeast of Tokyo.

A DNB dispatch broadcast from Berlin reported high buildings in the "lower town" section of Tokyo swayed and trembled for one minute without causing serious damage. In some areas bricks were said to have been loosened, collapsing walls.

The Berlin broadcast pointed out that the earthquake coincided with a celebration observing creation of the "Greater Tokyo" municipal area.

It was the second earthquake reported from Japan in three weeks. The Japanese news agency Domei reported in a broadcast June 15 that the island of Honshu, on which Tokyo is situated, and Hokkaido to the north, had been shaken without serious damage.

FAVORABLE WEATHER IMPROVES CROPS

WASHINGTON, June 30 (AP)—The weather bureau reported today that the past week had been generally favorable for agriculture with most food, livestock feed and fiber crops continuing to develop satisfactorily after getting off to a poor start during the cool, wet spring.

Considerable improvement in it was said to have been made in previously wet interior sections. "Growth, especially of warm weather crops, truck and gardens, was very rapid," the bureau said, "though in north central sections high temperatures forced some small grains rather too rapidly."

The moisture supply situation was said to be generally good, except in the far southwest, where a long-standing drought was still largely unabated and unirrigated crops have suffered severe damage, and in some northeastern and middle Atlantic areas. The southwestern area affected includes western Texas, New Mexico, Arizona and southern Utah.

GAS RATION BANK USE CLARIFIED

Clarification of the gas ration bank accounts was issued today by the local war price and rationing board. Only individual users and company users of more than 960 gallons per month need to open ration bank accounts.

No change has been made in the manner the average small user receives gasoline for highway or non-highway purposes. Licensed distributors and intermediate distributors must open ration bank accounts.

Turkey Improvement Association Meets

CORVALLIS, July 1 (AP)—The annual meeting of the Oregon Turkey Improvement association

will be held at the poultry building, Oregon State college, Friday, July 9, Dr. C. E. Holmes, supervisor of the improvement program, announced today. The association members are

turkey breeders and hatcherymen of the state who handle more than 100,000 birds annually. The feed situation, marketing turkey eggs, and turkey disease control are among topics to be

discussed. An address by Dean W. A. Schoenfeld and election of officers are also scheduled. Ant-eaters use their tails as blankets while they sleep.

NO. 1 ALARMIST
TACOMA, Wash. (AP)—Immanuel Schroder, who is deaf, hitched his alarm clock to an electric motor which shook his bed at the appointed hour.

The alarm went off while he was away. It shook the bed so long and so hard that friction started a fire. The house burned down.
