

BUSES MAY BE USED BY 4-H SUMMER CAMP

Plans for 4-H club summer camp forged ahead after an announcement by the school board that buses would be made available for the trip to Lake o' the Woods. Use of the buses is subject to final clearance by the office of defense transportation, however.

Dates for the summer camp were set for July 25 to July 31 for the girls, and the week of August 1-7 for the boys. Attendance this year was limited to 100 each week, because of damage done by snow to buildings at the camp. A dormitory and a crafts building were put out of commission and will be replaced by tents, which cannot house as many.

Members of the club nine years old or older may attend the camp either on scholarships or by paying their own way. Members with scholarships will be given priority over those who pay their own way if the 100 limitation is reached. Reservations for those awarded scholarships will be held open until July 15, and after that anyone may apply.

Plans are underway to use older members of the club as counselors at the camp to assist in taking the groups through their respective programs, to handle camp fire programs, and to work with the campers in their living quarters.

Older members who wish to go to camp as counselors should contact Clifford Jenkins, county leader for the 4-H clubs as soon as possible. There will be a meeting of the counselors on July 17.

In determining whether or not there would be a summer camp this year, the county war board, the directors of the chamber of commerce, the county court, and all 4-H club leaders were contacted for their views. They were all of the opinion, said Jenkins, that the camp should be held because of the need for this type of education particularly during periods of stress and war.

Jenkins and Mrs. Winnifred K. Gillen will be in charge of the camp. It will be held at its regular organizational camp site at Lake o' the Woods. Reservations have already been made for 75 campers.

SP NEEDS MORE PART TIME HELP

The urgent need for more spare-time workers to help Southern Pacific maintain its tracks in this vicinity was emphasized again today by J. E. Bick, local agent for the company.

"Southern Pacific is short several thousand section men for its full-time crews in the Pacific coast area," Bick said, "and is appealing to business and professional men, students and others, who have time to spare on weekends, to help relieve the shortage."

The proper maintenance of railroad tracks, he pointed out, is necessary for the speedy handling of the ever-growing war traffic. For this reason, persons who are able to devote time to track work will be contributing directly to the country's war effort.

Since the campaign to enlist the services of spare-time workers on section crews was launched by Southern Pacific several months ago, Bick said, much valuable assistance has been received, but the company has immediate need for many more trackmen.

Weekend and holiday employment on the railroad offers local men not only an opportunity to engage in vital war work but also to earn extra money. Full information regarding this work may be obtained from Local Agent J. E. Bick.

E. G. Childers, Southern Pacific employe, is on his vacation. He is expected back about July 15.

Giacomini Wins Pet Contest in Parade

Anthony Giacomini of Merrill emerged as the winner of the pet contest in the Buckaroo Days parade on Monday.

His entry was a small rubber-tired cart drawn by a Shetland pony. It was driven by three small girls.

If Anthony has not yet received his prize, it is waiting for him at the chamber of commerce.

Elementary Lesson in How to Keep Cool

Lacking an "old swimmin' hole," these lads and lassies on New York's lower East Side find fire hydrant makes a good substitute. They turned the hydrant into a fountain by placing a barrel over the spout to direct stream upward.

Follow Instructions for Best Food Canning Results Using Wartime Jar Caps

Housewives doing home-canning with wartime jar caps are cautioned to follow explicitly the instructions of the cap manufacturers if they wish to avoid unhappy experiences and waste in their patriotic effort to conserve. Spoilage of food and breakage of jars is certain to result, if instructions are not followed to the letter.

Proper methods and careful canning will insure excellent results, more important in the present food situation than at any other time.

The Glass Top Seal fruit jar cap, a wartime product developed to conserve metal, requires careful use, according to the home service departments of fruit jar manufacturers. This cap consists of a metal band, glass lid and rubber ring. With these three widely varied materials making up its component parts, the cap must be used according to important but easily followed instructions. First of all, the cap is not recommended for and must not be used in oven canning.

If the food is processed (cooked in a jar), one inch of space must be left in the top of the jar when filled, in order to allow room for expansion. If an open kettle is used, one-half inch space must be left in the top of the jar.

The next step is to place the rubber around the projection on the bottom side of the lid, and the lid must then be placed so that the rubber lies between it and the top edge of the jar. All jars on which top seal closures, either glass or metal, are used must have smooth top edges.

The band is then applied tightly and immediately loosened slightly, about one-quarter of a turn. Bands must fit loosely during the processing, or cooking. If an open kettle is used, the bands are to be screwed tight as soon as the jar is filled. After the processing is completed, the bands are screwed tight to complete the seal. The bands may be removed 12 hours after the canning operation. At no time should the filled jars be turned upside down.

The housewife who takes no chances on variance from any one of these simple but important steps is assured of success and the enjoyment of the delicious flavor of home-canned foods this winter.

OREGON BPW HEAD GOES TO EASTERN MEET

Isabelle Brixner, president of the Oregon Federation of Business and Professional Women, left Sunday for New York City where she will represent the state federation at a national board meeting. Mrs. Brixner, who expects to be away about three weeks, serves as Klamath county school supervisor and was elected state executive of the BPW at the spring convention.

Winnifred Gillen, president of the Klamath Falls BPW, has not yet announced a complete list of her executive board, but stated this week that it will be ready for publication within a short time.

The Klamath Falls club will hold no meetings during July, according to present plans, but Mrs. Gillen said that the annual summer picnic will be held the latter part of July or fore part of August at the country home of Catherine Brumbaugh on the Olene road. Date of the picnic will be set following the return of Mrs. Brixner.

COD WITH EXTRAS

SANTA CRUZ, Calif., (AP)—Harry Moorefield landed a 29½ pound ling cod.

He said the fish had its teeth firmly fastened in a 7½ pound ling cod, which had its teeth firmly fastened in the 6-0 hook which was attached to Moorefield's line. . . . Monotonous, isn't it?

SCOUT CAMP TO HAVE FULL ATTENDANCE

Present reservations for the summer camp attendance at Camp Makualla, operated by the Modoc area council, Boy Scouts, promise a full attendance of 60 Scouts each week for three weeks.

Robert H. Lamott, Scout executive, indicated that a fourth period would be opened if necessary to accommodate additional Scouts providing they indicate their desire to go before July 18, when the first period opens.

The first week will be mainly filled by Klamath Falls Scouts with a number remaining over for the second week. The second week will be composed mainly of Scouts from Bend, Redmond and Prineville. The third week will be occupied by Scouts from Alturas, Likely, Canby and Cedarville, Calif., and Lakeview and Paisley, Ore. The fourth week is being held until 30 or more Scouts indicate a desire to go during this week.

Troy Cook, prominent potato grower, will serve during the first two weeks as waterfront director. He will have charge of boating, swimming and life-saving instruction and activity. L. Parker Martinez, assistant Scout executive, will be in charge of the camp program which will include pre-ranger training recommended by the Boy Scouts of America nationally. Boys who become Scouts before the time camp opens are eligible to attend even though they are not now Scouts.

Office Workers Stranded in Tower By Elevator Strike

NEW YORK, July 7 (AP)—An estimated 28,000 office workers and visitors were stranded yesterday in the towering structures of Rockefeller Center by a 55-minute strike of 225 elevator operators.

Some waited out the strikers, fretting and pushing elevator buttons as they did so, while others including some of the 200 persons in the RCA building's observation tower made their way down stairs on foot.

Bob Sester, a Radio City guide, who led the group from the observation roof down 75 flights of stairs, reported the trip took 30 minutes.

French peasants often ate cats until recent times. In China, both cat and dog carcasses are pickled whole and then eaten.
