STOCK MARKET RETREATS IN SLOW SESSION

NEW YORK, July 7 (AP)—The stock market retreated mildly today in a session marked more by the absence of buyers than by any increase offerings.

Steels and rails were among the more backward shares but losses were small going into the final hour. Chemicals and some pivotal motors also participated in the gradual decline. Most resistant spots were in the utility section.

Transactions amounted to about 650,000 shares.

Lower most of the day were U. S. Steel, Bethlehem, Chrysler, New York Central, Southern Pacific, Du Pont, Union Carbide, International Harvester, Woolworth and Westinghouse.

Yellow Truck, General Motors and Consolidated Edison drew occasional support.

Bond price trends were mixed.

WHEAT

CHICAGO, July 7 (AP)—Grain prices turned downward throughout most of the session today, but losses were mainly of a fractional nature and some support came into the wheat pit on mill buying. Hedging pressure increased. Transactions in all pits were on a much smaller scale than yesterday.

News that the senate had passed legislation to lift the corn ceiling from $1.07 to $1.40 a bushel, Chicago basis, came just at the close, and too late to influence prices. Wheat finished ½-¾c lower, July $1.48⅜, September $1.48¼-¾, oats were off ¼-⅜c and rye was 2¢c lower to 1 cent higher, July $1.13¼.

Portland Produce

PORTLAND, Ore., July 7 (AP)—BUTTER—AA grade prints, 46¾c; cartons, 47¼c; A grade prints, 46¼c; cartons, 47c; B grade prints 46c; cartons, 46¾c lb.

BUTTERFAT—First quality, maximum of .6 of 1 per cent acidity, delivered at Portland, 52-52½c lb.; premium quality, maximum of .35 of 1 per cent acidity, 53-53½c lb.; valley route and country prints, 2c less than first or 50-50½c; second quality at Portland 2c under first or 50-50½c lb.

CHEESE—Selling price to Portland retailers: Oregon triplets 29c lb.; loaf, 30c lb.; triplets to wholesalers, 27c lb.; loaf 27½c F.O.B.

EGGS—Prices to retailers in cases: A grade large, 44¾c; A medium 40¾c; A small 35½c dozen. Nominal prices to producers: A large 41c; B large, 38½c; A medium, 37c; B large, 34½c.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

DEER SEASON ASSURED CAL SPORTSMEN

SAN FRANCISCO, July 7 (AP) California deer hunters whose last season was ended by army decree before it got started were assured today by George P. Miller, executive secretary of the state division of fish and game, that "this year we'll have a deer season."

Miller said the army had again requested that certain areas of the state be closed to deer hunters in the interests of wartime precautions, but that undoubtedly a compromise would be reached at the fish and game commission meeting Thursday.

"It's my firm belief that this year we'll have a deer season," said Miller. "This year the army has made a request on the governor for the closure of certain areas, but there is a question this time on how extensive it will be.

"I doubt very much that the area will be as extensive as last year. There might be a compromise whereby certain forests may be closed—but in time to allow for a winter deer season."

The fish and game commission has been granted authority by the legislature to open a deer season as late as November 15 if it cannot open earlier because of army requests, he said.

SUMMER ORCHESTRA AT ALTAMONT HIGH

John J. Pasek, orchestra director at the Altamont Junior high school, is conducting two summer orchestras for the advanced and beginning musicians.

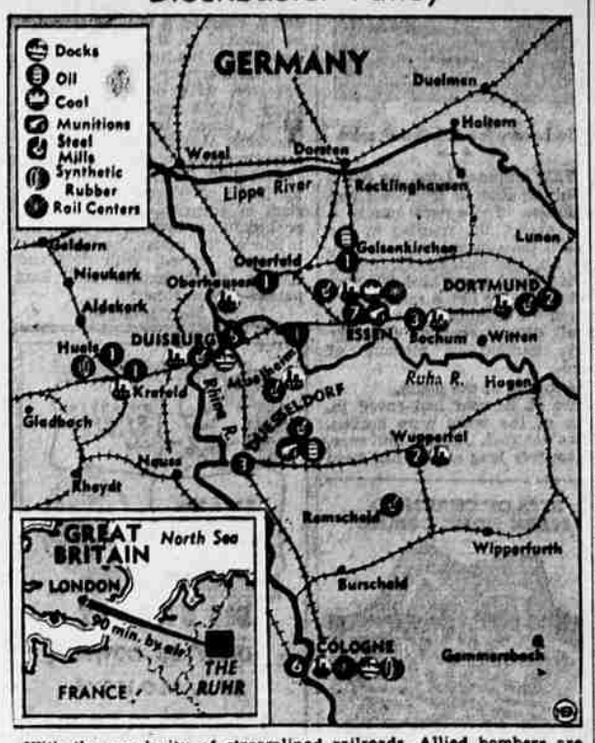
Music students with two years and more of orchestra playing meet on Wednesdays at 7 p m. Music beginners with three months and not over two years of playing experience meet on Thursdays at 7 p. m.

All musicians from Klamath Falls and vicinity are welcome to participate in these orchestras. The rehearsals take place in the Altamont Junior high school music room at Summers lane and South Sixth street.

A soldier eats twice as much canned goods as a civilian; an average of 80 cans a year as compared to 40 for a civilian.

Total consumption of non-alcoholic beverages in the United States is 11,000,000,000 bottles annually in normal times.

Blockbuster Valley



With the regularity of streamlined railroads, Allied bombers are pulverizing key industrial centers in Hitler's Ruhr on a schedule and on a scale that has forced Germany to admit damage is colossal. Numbered symbols on map state number of raids; picture symbols indicate specific industries which have been targets.

JUNE COOL, WET, SAYS WEATHERMAN

The month of June was cooler and wetter than the average June, according to the weatherman's figures. Mean temperature for the month was 55.3 degrees compared to 60.2 degrees, the mean for all years. The maximum was reached on June 29 when 86 degrees was recorded. Minimum was 33 degrees on June 12.

During the month, 1.11 inches of rain fell. This is 0.33 inches more than the mean June precipitation at this station.

Precipitation for the stream year to June 30 was 17.78 inches compared to 11.93 inches, the normal for all years over the same period.

Average railway president reaches his position after 30 years' railway experience.

The moon's surface extends 13,657,000 square miles.

Institutional Food Users May Get Adjustments

Institutional users of food, restaurants, boarding houses, etc., who have declared home canned food in their processed food inventory may now get adjustments on points, according to the local war price and rationing board.

A reduction of four points on each can declared will be made.

Institutional users of food were reminded that this is the last week possible to register for the July-August allotment of food.

Copper Production Stops With Strike

BINGHAM CANYON, Utah, July 7 (AP)—Processing of approximately one-third of the nation's copper production ceased today when the Utah Copper company's mills were closed because of a labor dispute.

D. D. Moffat, company president, said operations at the nearby Arthur and Magna mills had ceased because transportation of ore from the huge Bingham open cut mine to the plants ended with the walkout of 125 railroad men.

Bert H. Richardson, spokesman for members of the Order of Railway Conductors union (AFL), said the work stoppage resulted from a seven-year-old dispute with the copper company.

GAPS IN HIGH SCHOOL STAFF FILL RAPIDLY

Vacancies in the Klamath Union high school staff are being filled and only gaps now in the faculty are in the woodworking, mechanical drawing, and possibly in the Spanish divisions. Mrs. Helen E. Hoffman, who has taught at Keno, Bly and Sprague River, has accepted the position left vacant by the resignation of Mrs. Rachel Applegate Swan. Mrs. Hoffman, graduate of Philomath college and the University of Oregon where she received her bachelor's degree, will teach straight Latin.

Only seven and one-half weeks remain before the opening of school which is scheduled for August 30, according to Principal Stanley Woodruff. School is opening early in order that any call for high school labor in the harvest fields be accommodated.

The summer session at Klamath Union high school closed last week with the largest attendance on record, Woodruff stated. Some 50 boys and girls were enrolled, many trying to crowd graduation prior to their entrance into the armed forces, nurses training or some training connected with the war effort. Teachers were Mrs. Clarence Humble, Wendell Smith and Harold Palmer.

Henry Clay served in the United States senate at the age of 29.

The Giant's Causeway is a basaltic rock formation in Ireland.

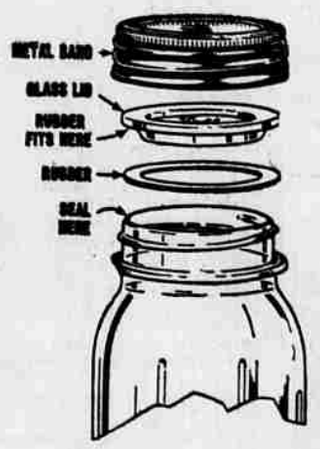
Brenda — Will You Step Out With Me Tonight?

I know I've been an awful grouch not taking you any place lately. But after standing all day at my new job, my feet darn near killed me with callouses and burning. Now, I've reformed — or rather my feet have — thanks to the Ice-Mint you advised. Never tried anything that seemed to draw the pain and fire right out so fast — and the way it helps soften callouses is nobody's business! Been able to get some extra overtime money — so what do you say, let's go dancing tonight. You can step on my Ice-Mint feet all you want.

IMPORTANT NOTICE
TO HOME CANNERS

The Glass Top Seal Fruit Jar Cap for Home Canning was developed as a Wartime product to conserve metal. It consists of a Metal Band, Glass Lid and Rubber Ring.

Because of the difference in the nature of these three materials this Cap must be used differently from any other fruit jar cap. If used properly it will give excellent results. If not used properly, results will be bad, including failure to seal and **breakage of jars.** Following are simple instructions for use of the Glass Top Seal Cap and must be followed carefully.



1. Do NOT use in Oven Canning.
2. If processing, (cooking in jar), leave **1 inch space** in top of jar. If using open kettle, leave ½ inch space in top of jar.
3. Fit rubber around projection on bottom side of lid.
4. Place lid so rubber lies between lid and top edge of jar.
5. Turn bands tight, then loosen slightly (about ¼ turn). Bands **must** fit loosely during processing (cooking). This is **Important** and must be done to insure best results. If using Open Kettle, screw bands tight as soon as jar is filled.
6. After processing, screw bands tight to complete seal. Remove bands 12 hours after canning.

DO NOT TURN FILLED JARS UPSIDE DOWN

For complete canning instructions send ten cents for your copy of the Ball Blue Book to Ball Brothers Company, Muncie, Indiana, U. S. A.

This information is published in the interest of home canning and preservation and conservation of food.
