# GREEN LIGHT TO UTILITIES, SPECIALTIES

NEW YORK, July 8 (AP)—Selected utilities, a few rails and specialties had the go-ahead signal in today's stock market while many leaders elsewhere continued hampered by the red light of speculative and investment doubts.

Individual situations accounted for strength of assorted issues.

Inflation temperatures rose slightly in the wake of the senate's vote lifting ceilings to $1.40 a bushel. Commodities enjoyed an early brisk run-up but subsided when the house committee killed the senate decree and left the grain price matter up in the air.

Dealings, fast at intervals, slowed frequently but transfers were around 900,000 shares.

Touching best levels for the year or longer were American Airlines, Texas and Pacific Railway, Sinclair Oil, Paramount Pictures, Pepsi-Cola, and the preferreds of American Power and Light and Alleghany Corp. Supported were Grumann Aircraft, Santa Fe, Sears Roebuck, Western Union and Consolidated Edison.

Reorganization carrier bonds hardened.

# WEATHER FAIR FOR CROPS IN OREGON AREA

By The Associated Press

Crop conditions continued generally fair over Oregon during the week ending July 6, the weekly bulletin of the department of commerce and weather bureau showed today.

The week was the warmest of the season with maxima in the 90s in some areas. Precipitation was infrequent and light but only a few areas were entirely without rain.

Conditions remained good for small grain which is developing normally. Some rye has been cut. Higher temperatures helped corn.

Cane fruit picking continued with considerable delay because of shortage of help. Cherry picking is complete in a few districts. In many western localities cherries were cracked by rain. Later fruits are developing well.

Haying showed further progress although delayed here and there by rain and lack of help. Rains did slight damage. Cutting of oats and vetch for hay is underway.

Pastures are better than average in western counties and have improved east of the mountains. Livestock is in good condition and some early lambs have been marketed.

Fiber flax is maturing. Potatoes continue to become more plentiful. Development of mildew in hops has been checked by better weather. Peas are being harvested for canners.

## WHEAT

CHICAGO, July 8 (AP)—Grains moved erratically in heavy trade today, responding swiftly to a series of rapid-fire legislative developments on the corn and subsidy situation in Washington. The market was extremely nervous and fluctuations were wide.

Advancing as much as 4 cents in rye during the first two hours, prices broke sharply around midday when the house agricultural committee killed a proposal to lift corn ceilings to $1.40 a bushel, Chicago basis.

News that the senate had abandoned by one vote a legislative prohibition against the payment of food subsidies brought renewed selling into wheat at the close and prices finished ¼-⅜c lower, July $1.47¼-⅜, September $1.48¼-½. Oats were ⅛c lower to ⅛c higher, July 71⅞c and rye was ⅛c lower to 1⅛c higher, July $1.13.

# RECREATION ENROLLMENT HAS INCREASE

Enrollment in the summer recreation program has been increased in both the high school and Mills school recreation centers, according to figures released by the city recreation office.

On June 16 there were 460 enrolled in the program and this number was raised to 520 by July 1. The high school now has approximately 305 attending daily and Mills school has enrolled about 215.

The average of the boys and girls attending the centers has also increased. On June 16, the average age for boys was 10.5 years with that for girls being 10.2 years. At the latest report, on July 1, the average for both boys and girls was 10.7 years.

## Cigaret Dealers Must Pay Old Tax To State of Oregon

SALEM, July 8 (AP)—The state tax commission mailed thousands of cigaret tax blanks today to cigaret dealers who must pay the commission money they collected under the state cigaret tax law, which was in effect for only a few weeks two years ago. The law was killed by referendum.

Many dealers collected the tax, but didn't turn the money over to the state when the law was killed. The recent legislature provided that the dealers must give 95 per cent of the money to the state, and that they can keep the other 5 per cent.

The tax amounted to 2 cents per package.

# LICENSE PLATES OKAYED BY WPN

WASHINGTON, July 7 (AP)—The war production board relaxed yesterday its order against the production of motor vehicle license plates to permit states to manufacture one 1944 plate for each vehicle, instead of the customary two.

The order permits states to use metal on hand, or sheet and strip steel not heavier than 22 gauge and listed as idle or excess inventory with the steel recovery corporation. Specific authorization must be obtained from WPB to purchase the steel.

Many states have recently reported that license plates are becoming illegible, and must be replaced.
